Hello, I work in the 3rd district and use Gillham bike lane to safely commute to work. While regularly targeted and harassed by cars open the open roads, the protected bike lane has restored my confidence. I use it to commute from the east crossroads to the wonder building on Troost, or I commute to mid town, plaza, and even south KC. I do not own a car and do not have a budget to do so. Please maintain our new lanes and add more for the sake of human life.

Thank you, Christian Mancinelli
