I commute to work every day by bicycle and use the bicycle lanes every single day.

I am a constituent from District 6 and I am emailing to oppose ordinance 210966. I believe preserving the existing bike lanes and creating a more bikeable/walkable city in general is important for the development of Kansas City, MO. As a Kansas City resident, I would love to see my city become more bike friendly and pedestrian friendly.

This ordinance puts our progress on places like Gillham at risk, endangering the safety of cyclists and motorists alike.
An appropriate alternative to this is two-fold: 1) update the city's Complete Streets policy, and 2) pass the long-stalled bike plan.

Please do not take away the progress we have made to improve our city! Please oppose 210966.

Thank you,
Abby Mueller
