I strongly oppose Ordinance #210966. This would be a huge step backwards for the city making non-car alternative transportation options available and accessible to KC residents.

Our streets are already way too unsafe. Effectively repealing the Complete Streets policy would be a terrible idea and make everyone less safe. We need to do more to remake our streets, not fall back on the totally unacceptable status quo.

Please do not vote for this ordinance.

Regards,

Andrew Ganahl
