I Mr. Lucas Habosky, am writing to express my opposition of Ordinance 210966.

I believe this ordinance will harm our city and strip away the progress we've made towards creating safer streets, building a more inclusive community, and working toward Vision Zero.

This ordinance will disproportionally affect pedestrians, bicyclists, wheelchair users, and people who rely on public transit.

Please consider alternatives to this ordinance such as updating the City's Complete Streets Policy and adopting the Master Bike Plan.

Sincerely,

Lucas Habosky
