---

To whom it may concern:

I am a resident in the fourth district. I support both walkability measures and bike lanes. There is no reason we can't have both. Therefore, I consider this legislation to be unnecessary and only hurt the complete streets movement, not help it. The US and particularly Kansas City is so laughably behind the rest of the world when it comes to multi-modal infrastructure that taking any steps back at this point puts us firmly in the dark ages.

All the best,

Eric Hartley
