Hi there!

I am a registered Voter and I do vote at each and every Election. Covid is here to stay whether we like it or not. Each person has a personal responsibility to take care of their health and well being. How they do it is their business. I do not support mask mandates and I do not support businesses who get shut down due to so called violation of mask mandates. Let each business owner decide what's in their company's best interest. Let's get back to normal and let's make our town a great one along the way!

Respectfully submitted!
