Good evening, Please pass the Protected Bike Network Plan. I am a cyclist and ride daily for my work commute and at other times for errands. I think we need more infrastructure to make it possible, safe and comfortable for people who want to get around by bike which I love for being good for my physical and mental health and because it's good for the environment. It also makes cities more fun and attractive places to live!

Thank you,
Allison Buchwach
Resident of Ward 4
