To Kansas City Management

I oppose 210966!

Kansas City is way behind other cities in the US and definitely around the globe.

You have not worked or lived in other countries whereas pedestrians and bikes come first and then cars!

I spent a great deal of time the past 5 years traveling. Netherlands, Spain, Sweden, Thailand, Japan, Singapore, France, Belgium, and more…they get it we don't!

Walking & Bikes promote exercise and designated paths protect.

Enhancing our already started paths will allow people to ride into the city and around, park conveniently, keep pollution down, keep traffic down, and more…

Don't waste our tax payer $$$s to tear down

Thank You / Kind Regards / Met vriendelijke groeten,

Robert
