Dear Mayor Lucas, Councilwoman Shields, & Councilman Bunch,

Please do not adopt Ordinance #210966! This plan leaves out too many of our citizens that rely on bicycle infrastructure to live their daily lives. I am a cyclist and love riding around our beautiful city for both commuting and enjoyment. Please keep the Complete Streets policy as is or consider adopting revisions in order to achieve congruency with established national best practices! Safe streets for all! Pedestrians, cyclists, public transportation commuters, *and* drivers everywhere are safer with fair, safe, & balanced infrastructure.

Thank you for your time & consideration,

- Jennifer Ulm
