Discussion

This is a second & final award for the FY26 grant year. The first award was reviewed and passed by Council on March 24, 2026.

Ryan White Part A/MAI funds provide core medical and related support services to improve access and reduce disparities in health outcomes in metropolitan areas hardest hit by HIV/AIDS. The Kansas City Transitional Grant Area (KC-TGA) qualifies as one of the metropolitan areas due to the level of incidence of HIV within the eleven county region. To qualify, a metropolitan area must average 1,000 new cases of HIV over the previous five year period.

Service area consist of Cass, Clay, Clinton, Jackson, Platte, Lafayette, and Ray counties in MO and Johnson, Leavenworth, Miami, and Wyandotte counties in KS. Kansas City Health Department acts as the Administrator for all Ryan White Part A/MAI Programing in the KC-TGA.

The KC-TGA Ryan White Continuum of Care provided core medical and support services for 3,369 individuals in calendar year 2025. Services will be contracted out to sub-recipient agencies to provide the community with Outpatient/Ambulatory Medical Care, Oral Health Services, Medical Case Management, Early Intervention Services, Referral for Healthcare Support Services, Mental Health/Substance Abuse treatment, Health Education, and Housing services. The comprehensive system of care is monitored for the quality, programmatic, and fiscal integrity by the City of Kansas City Missouri Health Department, HIV Services Division.

Ryan White funding is appropriated annually by Congress. The awards for Part A are split into formula and supplemental funds. Formula funds are awarded based on the number of new cases of HIV/AIDS in the funded service area. Supplemental funds are awarded based on demonstrated need and quality of local plans in the annual application. The KC-TGA has received Part A Ryan White funding for over 30 years.

Service Level Impacts

Ryan White Program Part A and MAI ensure that low income residents living with HIV have access to life saving medical treatment and support services that empower individuals to overcome barriers to care. Viral Load Suppression for those engaged vs not engaged with the Ryan White Program. In the KC-TGA of those enrolled in Ryan White 11% were not virally suppressed compared to the overall population of persons with HIV in the jurisdiction with 20% not virally suppressed (SOURCE CY22 Surveillance data). When individuals with HIV are virally suppressed they are unable to transmit HIV to others and thus the Ryan White programs also impact the community by preventing the spread of HIV.

Other Impacts

1. What will be the potential health impacts to any affected groups?
Impact to overall persons living with HIV will include better health outcomes as described above and improved quality of life. Populations disproportionately impacted by the HIV epidemic include men who have sex with men, men and women of color, transgender women, and intravenous drug users. Minority AIDS Initiative funding is used to serve the following populations in the KC-TGA:
*Young Men who have Sex with Men of Color (AA/Black & Hisp/Lat), Ages 13-29
* African American Females, All Ages
*Unhoused People of Color, All Ages
2. How have those groups been engaged and involved in the development of this ordinance?
The Kansas City- TGA has an active Integrated HIV Prevention and Care Planning Council composed of various stakeholders in the community including 33% of the membership persons living with HIV, including members of the groups described above. Planning Council makes decisions on appropriations and is provided ongoing reporting from KCHD to monitor progress and impact of the funding.
3. How does this legislation contribute to a sustainable Kansas City?
Prevents the spread of HIV and improves quality of life for those living with HIV. Federal Investments in public health such as Ryan White also reduce the local burden to provide safety net services and care.
