Executive Summary

Directing the City Manager to identify property and financing suitable for the development of an urban youth sports facility capable of hosting hockey, figure-skating, volleyball, position-specific training for baseball, soccer, track and golf, including tournament regulation facilities or a reasonable combination thereof; prioritizing access for students from Kansas City Public Schools and Hickman Mills School District; and reporting back to the City Council with recommendations within 90 days.

Discussion

Kansas City, Missouri seeks to provide youth competitive sporting opportunities that not only prepare them for college scholarships and further competition but also teach conflict resolution, leadership skills, citizenship, and drive community building. There exists no indoor sporting facility within Kansas City currently capable of hosting youth tournaments across multiple disciplines and providing space for high-quality, position-specific athletic training. The lack of adequate youth sporting facilities places an undue cost burden on families wishing to participate in youth sports, often making it unattainable for many residents. Cities in the Kansas City region and across the United States invest in such facilities not only for local youth enrichment but as an economic driver as tournament travelers stay at local hotels and participate in other tourism activities such as food and beverage.
