### Executive Summary

Approving a development plan on about 0.44 acres to allow for the reuse of a historic building by creating ground floor commercial space and 74 residential units in District DC-15 generally located at 1044 Main Street and 1031 Baltimore Avenue. (CD-CPC-2026-00013)

### Discussion

The proposed reuse of the Peck Dry Goods building includes construction of 13,134 square feet of ground floor commercial tenant space and 74 residential units on the second through eleventh floors. A small rooftop amenity space is proposed to be less than 800 square feet. The building is accessible through one entry on Main Street and others within the parking garage. The existing parking garage is located to the west of the building that will be utilized for this development and contains 50 parking spaces.

The structures, which includes both the building and parking garage, are existing and built to the property lines so no landscaping is proposed. Exterior work will be done on the building to restore the historic architecture that was previously altered. The developer is responsible for any utility improvements needed.

CPC voted to recommend approval and there was no public testimony during the hearing.
