Gashland/Nashua Area Plan

Mixed-Use Neighborhood: Primarily intended to accommodate and promote neighborhood serving retail sales or service uses, as well as mixed-use development consisting of business uses on a building's lower floors and residential uses on upper floors. This type of vertical, mixed-use development includes a variety of business and residential choices and should enhance the pedestrian environment of the community. Encouraging residential development in mixed-use areas provides increased housing choice and promotes higher density housing. This land use classification corresponds with the "B1" and "B2" zoning categories.
