 No: This project is estimated at less than \$300,000 and no more than 800 work hours.

Estimated Number of Project Days: 700	Anticipated Solicitation Date: June 2023
---------------------------------------	--

Contract Type:

Construction Design-Build Design Professional Professional Services

General Service Concession Other Goods & Services Non-Municipal Agency

Co-Operative Revenue Sharing Facilities Maintenance/Repair/Renovation

Other:

Description of Contract (Provide Details):

Reconsideration of the M/WBE goals established by CREO KC for this project is requested by KC Water due to a clerical error in the interpretation of the "Project Type" for this project. The M/WBE goals of 20% MBE and 20% WBE previously established by CREO KC on 2/27/2023 are incorrect for a sewer overflow control type project. Per Page 36 of the 2022-2023 CREO Annual Goal Manual, the M/WBE goals for Overflow Control (General) type projects are to be 11% MBE and 11% WBE.

This sewer separation project is being implemented to reduce combined sewer overflows at eight existing sewer outfalls within Lower Blue River basin. This construction project includes the installation of new storm sewers to separate a 225 acre area, the rehabilitation of existing sewers, installation of an underground storm water storage facility, and water main replacement work. The approximate project area boundaries are 36th Street on the north, 43rd Street on the south, Spruce Avenue on the east, and Benton Boulevard on the west.

Pursuant to RSMo. Section 610.021(11) & (12) documents related to bids will not be made available until bids are completed.

This document is submitted with all available facts. Intentionally falsifying this document or omitting pertinent facts is grounds for disciplinary action pursuant to KCMO Human Resources Rules & Policy Manual (eff. August 4, 2014).

FOR GENERAL SERVICES DEPARTMENT (PROCUREMENT) USE ONLY:
