Description of Contract (Provide Details): <p>In Spring 2022, Kansas City was approached by four local nonprofit organizations with a grant proposal under the the Missouri Department of Natural Resources' ARPA Stormwater Infrastructure Grant. This program is administered by MDNR using federal ARPA funds for projects requiring necessary stormwater infrastructure improvements. The City's application was awarded \$5 million, plus our \$100,000 match for a \$5.1 million project total. The City was approved to use a noncompetitive bid process in order to work with the four, nonprofit grant partners listed in the grant application. These four contractors will divide the award and scope of work between them. The project as a whole is focused on restoring 200-250 acres of riparian habitat along the Blue River corridor. In addition, there are state/federal required EEO goals in the contracts per MDNR. Please see the attached Scope of Work for Deep Roots Kansas City, one of the four grant partners receiving a contract of ~\$250,000.</p>	
<small>Pursuant to RSMo. Section 610.021(11) & (12) documents related to bids will not be made available until bids are completed.</small>	

This document is submitted with all available facts. Intentionally falsifying this document or omitting pertinent facts is grounds for disciplinary action pursuant to KCMO Human Resources Rules & Policy Manual (eff. August 4, 2014).

Deep Roots KC

Ecological Restoration: Community Engagement and Action through Native Plants

Scope of Work

Deep Roots KC proposes a community-based program to support the Blue River Watershed Restoration Plan and the Kansas City Climate Protection & Resiliency Plan made possible through American Rescue Plan Act of 2021 funding.

Deep Roots will accomplish this work through the following:

- Community Engagement:** Lead native plant workshops in targeted neighborhoods to increase the number of residential native plant gardens.
- Demonstration Garden, Discover Native Plant Gardening:** Design, install, and maintain a native plant demonstration garden on a community property as an educational tool.
- Habitat Garden Tours:** Coordinate garden tours to highlight diverse native plant gardens.
- Nature Advisor Consultations:** Participating community members are eligible for a free Nature Advisor visit which provides on-site consultations addressing habitat and landscaping goals through native plants.

Service	Cost	Per Unit	TOTAL
Community engagement: organize a 3-part series of native plant landscaping workshops in two neighborhoods annually (2025-2026)	\$18,250	4 workshops	\$73,000
Design, install, and maintain a demonstration garden over two years (2025-2026).	\$12,500	2 years	\$25,000
Organize five garden tours annually supported by knowledgeable native plant gardeners (2025-2026)	\$8,500	10 tours	\$85,000
Complete 90 Nature Advisor consultations annually (2025-2026)	\$372.22	180 consultations	\$67,000
TOTAL, not to exceed			\$250,000
