Sec. 11. Acceptance.

Unless stated otherwise in this Agreement, no provision of this Agreement may be waived, modified or amended except in writing signed by City.

Sec. 13. Headings; Construction of Agreement.

The headings of each section of this Agreement are for reference only. 202. Conduct Field and Record Investigations and Pipeline Route Surveys. Design Professional shall conduct field and record investigations and pipeline route surveys of the project sites for proposed improvements. These services will include the following tasks:

- A. Inspect project sites and document representative existing conditions with digital photos along the possible main alignments. DESIGN PROFESSIONAL shall upload to e-Builder an electronic digital copy of the photos taken.
- B. Locate and obtain copies of as-built drawings for existing water mains to be replaced or abandoned in the project including their connections to other mains. Provide the CITY one copy of the water main as-built drawings for all project sites. DESIGN PROFESSIONAL should review the necessity and size for replacement.
- C. Utility Coordination- Follow the City's standard four step process. Before alignments have been set, contact utilities, and gather information on the location, size, material,

and typical depth of their existing facilities and any special utility requirements. Document all utility contacts using the standard City's utility notification form. Follow up with utilities which do not provide timely or complete information or as necessary to evaluate the initial utility information received such as size, material, and depth of duct banks or other utility structures in conflict with possible main alignments. Provide the CITY copies of all utility maps, drawings, or other data relating to existing utility facilities obtained by the Design Professional. Copies of all correspondence with the utilities should be submitted to WSD in a packet with the 30 percent design alignment drawings.

D. Pipeline Route Surveys and Rights-of-Way

- a. Provide the services of a Professional Surveyor to perform the following:
 - i. Set project horizontal and vertical controls.
 - ii. Locate existing street right-of-way and critical property corners along the possible new main alignments.
 - iii. Locate surface and subsurface information along possible new main alignments, including but not limited to, utilities, trees, poles, signs, and structures such as curbs, sidewalks, pavement, retaining walls, and greenway. Utility locates shall include service lines and related appurtenances. Use Water Services standard legend. Design Professional shall field verify (QA/QC) the data that is provided by the surveyors.
 - iv. Provide subsurface utility information along the possible new main alignments, including inverts and diameters of storm and sanitary sewers necessary for determining the depth of utilities and evaluating potential conflicts along the possible new main alignments.
 - v. Obtain vertical elevations at locations at least every 50 feet along the proposed main alignments, to provide information to evaluate and adjust City's surface elevation contours for project site conditions.
- b. All survey information shall be established using and will be provided in: State Plane Coordinates, "Missouri Coordinate System of 1983, West Zone" and NAVD 88 Datum.

- E. Obtain a digital copy of CITY's GIS data for the project sites including water, sewer, contours, parcels, and impervious surfaces.
- F. DESIGN PROFESSIONAL shall review GIS data posted on City of Kansas City's Public Works Street Preservation Program website. <https://www.kcmo.gov/city-hall/departments/public-works/street-preservation-program>. DP shall use this information to identify streets located within the water main replacement project area that have been paved within the past 3 years and/or planned to be paved in the next 5 years. DP shall provide the CITY a list of water main replacement alignments in the project area that are in conflict with the City's Street Preservation Program.
- G. Environmental Assessment – Review information available on the MO DNR Environmental Site Tracking and Research Tool site,

https://gis.dnr.mo.gov/arcgis/rest/services/e_start/e_start/MapServer, for areas of environmental concern along the pipeline route. Provide a list of all areas identified and review with CITY for determination of additional environmental assessment needs. Additional environmental assessments beyond this task will be covered under optional services.

203. Preliminary Layout Drawing Review.

- A. Generate base plan sheets with of existing utilities and surface features in the right-of-way, including proposed new water main alignments in 20:1 scale on 22" X 34" paper (unless approved otherwise) for construction drawings, incorporating City's GIS information, Pipeline Route Survey data, utility research, and review of the water main as-constructed drawings. Each plan sheet shall include a minimum of 2 representative site photographs recently obtained during the site walkthrough that indicate the alignment of the proposed replacement water main.
- B. Meet with CITY staff in the field to review the base plan sheets for the project sites and provide recommendations on new water main alignments and receive City's comments. All decisions made in the field need to be documented in a memo addressed to the City's Project Manager (PM). Resubmit the revised plans (30 percent design) with revised alignments to PM for review and comments; CITY will approve alignments or notify the Consultant of any changes within 2 weeks from the date of resubmittal.
- C. Determine the need for permanent and temporary construction easements along the proposed water main alignments.
- D. Utility Coordination – A utility coordination meeting may be held at WSD offices, if necessary, with some or all of the affected utilities. Also, a coordination meeting with the property owner or representative for commercial and large water services is required. A copy of the 30 percent design set of plans including the approved alignment should be sent to each utility prior to this meeting. This is the 2nd contact to utilities. Minutes from the meeting as well as any further information provided should be submitted to WSD within 1 week after the coordination meeting.

204. Prepare Preliminary Construction Drawings.

Design Professional shall prepare preliminary (60 percent complete) CAD construction drawings for water main improvements using Water Services Department standard format and title block for drawings, design procedures, drafting standards and criteria, legend, general notes, and special construction details, in accordance with the latest version of the City's Rules and Regulations for Water Main Extensions and Relocations, and the KCWSD CAD Design Standards and Specifications, which are incorporated herein by reference (available on City's web page at <https://www.kcwater.us/projects/rulesandregulations/>). The type and composition of materials and methods detailed on the drawings shall conform to the latest edition of the Standards and Specifications for Water Main Extensions and Relocations and the Standard Technical Specifications for WSD Contracts.

B. The preliminary (60 Percent Design) drawings shall include the following:

- Plans should generally reflect the proposed horizontal alignment approved following the 30 percent design submittal and review process. At 60 percent design, some horizontal adjustments are allowed when new information from utility coordination, such as conflicts with underground utilities are identified. Plan views shall include location of existing above ground utilities and facilities, as well as dimensioning to indicate location of the proposed waterline in relation to right-of-way boundaries, above ground and below ground structures, and other utilities. Any deviation from recommended spacing requirements to these elements should be indicated on the plans. Proposed and existing fire hydrant locations should be indicated to ensure adequate spacing. For alignments where the replacement pipe diameter is larger than 16-inch, the pipe diameter (e.g., show true pipe width) and thrust/straddle blocks should be drawn to scale.
- A pipeline profile shall be developed to illustrate the slope of pipeline segments and identify elevations at key points such as grade changes and sewer line crossings. Indicate Profile grid lines at every two feet of elevation and show top-of-pipe elevations and proposed grades at every 50 feet.
- Ground surface profile shall include above ground and buried utilities, crossing locations, proposed valves, vertical and horizontal bends, proposed service line tap locations, branch line connections and temporary and permanent connection details. Vertical clearance between existing utilities and the proposed water main should be identified. Any crossings that do not meet Water Services' Standards should be indicated.
- Construction details must include provisions that provide for filling, flushing, testing, disinfection, flushing disinfectant, thrust restraint, and permanent connections, with the least possible disruption of service to customers. Particular attention should be paid to sequencing of connections to further reduce service outages.
- 60 percent design submittal requirements indicated, herein, represent a minimum standard for drawing format and detail. If the submittal does not meet this minimum standard or does not respond to prior WSD comments, they will be considered inadequate and will be returned to the design professional for revision. Revisions to an inadequate submittal shall be made at no additional cost to the CITY.

C. The plans shall include a water service transfer table, including for each service line, address, registration number, size and material, and relocation requirements for curb stop and meter. Service line transfers, curb box and meter relocations will be clearly indicated in the plan view. Site inspections shall be performed to ensure all necessary transfers are included on the drawings, and that the transfers comply fully with the Rules and Regulations for Water Service Lines available at: www.kcwater.us/projects/rulesandregulations/.

- D. The 60 percent design drawings shall be quality checked by the design consultant with the name and signature of the individual that performed the quality check on the cover sheet. The QA/QC signature block shall be signed by the individual completing the QA/QC review prior to submittal of the 60 percent design drawings. Water Services may require a copy of the QA/QC review to be submitted with the 60 percent design drawings.

205. Submit 60 percent Drawings. Design Professional shall submit 60 percent design drawings to the Water Services Department for review. This design submittal shall be an electronic digital copy in .pdf format. The drawings shall be uploaded to e-Builder utilizing the “Design Submission” workflow form. In addition too but not in replacement of, other forms of electronic submittal (e.g., Blue Beam Studio) may be accepted with prior approval from the PM.

- A. Design Professional shall submit one hard copy of the 60 percent design drawings to Water Services Department and upload a digital copy to e-Builder for review with a completed Check List from the latest version of the Rules and Regulations for Water Main Extensions and Relocations, pages 15-17, and a current utility coordination log. The PDF of WMR plans with comments should be uploaded to respective e-Builder folder by DP.
- B. Design Professional shall submit copies of the 60 percent design drawings for review and comment to other utilities, which have existing underground facilities which potentially conflict with, cross over or under, or adjacent to, proposed water improvements. Document all utility contacts using the standard City’s utility notification form.
- C. Thrust Restraint Calculations – For water main segments with a pipe diameter greater than 16-inches, the Design Professional shall include, as a separate submittal from the design drawings, all thrust restraint calculations. For segments with a pipe diameter 16-inches or less, thrust restraint calculations shall be submitted only when design of the restraint system deviates from the size and type of thrust restraint specified within WSD technical specifications. Thrust restraint calculations shall be provided as a separate submittal along with the 60 percent design drawings.
- D. Utility Coordination - Public Notice #3 should be sent out with a copy of the 60 percent design plans to all utilities that have conflicts and to those that have not responded. CREO INSTRUCTIONS FOR NON-CONSTRUCTION BIDS

MINORITY/WOMEN BUSINESS ENTERPRISE REQUIREMENTS

I. City's MBE/WBE Program.

- A. The City has adopted a Minority/Women Business Enterprise Program (Sections 3-421 through 3-429, Code of Ordinances) (the "Program") to implement the City's policy of supporting the fullest possible participation in City contracts and change orders of firms owned and controlled by minorities and women. Each contract may have an MBE and/or WBE goal for participation. An MBE or WBE goal is a numerical objective the City has set for the contract, which may be awarded pursuant to these bid specifications. Goals are stated as a percentage of contract dollars. For example, if an MBE goal for a contract is 10% and a Bidder submits a bid of \$100,000, the goal for MBE participation would equal \$10,000. The specific MBE/WBE goals on this contract are set forth elsewhere in the bid specifications.
- B. By submitting a Bid, the Bidder agrees, as a material term of the contract, to carry out the City's MBE/WBE Program by making good faith efforts to include certified MBE/WBEs in the contract work to the extent of the goals listed for the contract and to the fullest extent consistent with submitting the lowest and best bid to the City. Bidder agrees that the Program is incorporated into this document and agrees to follow the Program. **Although it is not a requirement for approval of the bid that a Bidder in fact meet or exceed both the MBE and WBE Goals, it is a requirement for approval of the Bid that a Bidder objectively demonstrate to the City that good faith efforts have been made to meet the Goals. Bidders must attempt to meet both the MBE and WBE goals and request a waiver if either is not met.**
- C. The following CREO Forms are attached and must be used for MBE/WBE submittals:
 - 1. Contractor Utilization Plan/Request for Waiver (CREO Form 8: 00450); and
 - 2. Letter of Intent to Subcontract (CREO Form 00450.01); and
 - 3. Timetable for MBE/WBE Utilization (CREO Form 10: 00460); and
 - 4. Request for Modification or Substitution (CREO Form 1: 00470); and
 - 5. Contractor Affidavit for Final Payment (Form 01290.14); and
 - 6. Subcontractor Affidavit for Final Payment (Form 01290.15).

Warning: The City only gives MBE/WBE credit for a bidder's use of certified MBE/WBEs. A certified MBE/WBE firm is a firm that has been certified by the City's Human Relations Department as such. An MBE/WBE firm must be certified **before** the date on which the bid is due. Certified MBEs and WBEs are listed in the M/W/DBE Kansas City Mo. Online Directory, which is available on the City's website at www.kcmo.org. Before a Bidder submits a bid, Bidder should contact CREO and consult the directory to make sure any firm proposed for use for MBE/WBE participation has been certified.

II. Required Submissions Following Bid Opening.

- A. Bidder must submit the following documents within forty-eight (48) hours of bid opening:

1. **Contractor Utilization Plan/Request for Waiver (CREO Form 8: 00450).** This form states a Bidder's plan to use specific certified MBE/WBEs in the performance of the contract and includes the following:
 - a. The work to be performed by each MBE/WBE and the amounts each is to be paid for the work; and
 - b. The name, address, race or ethnic origin, gender and employer identification number or social security number of each MBE/WBE that will perform the work.
 - c. An automatic request for waiver in the event Bidder has not met or exceeded the MBE and/or WBE goals for the contract but believes that it has made good faith efforts to meet or exceed the goals and desires a waiver of the goals. **If a waiver is requested, CREO will examine the Bidder's documentation of good faith efforts and make a recommendation to grant or deny the waiver. CREO will recommend a waiver be granted only if the Bidder has made good faith efforts to obtain MBE/WBE participation.**
2. **Letter(s) of Intent to Subcontract (CREO Form 00450.01).** A letter must be provided from each MBE/WBE listed on the Contractor Utilization Plan. These letters verify that the MBE/WBE has agreed to execute a formal agreement for the work and indicate the scope of work to be performed and the price agreed upon for the work.

III. Required Submission when Requested by City.

- A. Bidder must submit the following documents when requested by City:
 1. **Timetable for MBE/WBE Utilization (CREO Form 10: 00460).**
 2. **Documentation of good faith efforts.**

IV. Required Monthly Submissions during term of Contract.

- A. Bidder must submit the following document on a monthly basis if awarded the contract:
 1. **M/WBE Monthly Utilization Report (CREO Form 00485.01).** This report must be submitted to the Director by the 15th of each month. Failure to submit timely reports may result in delays in processing of current and future contract approvals and payment applications.

V. Required Submittals for Final Contract Payment.

- A. Contractor must submit the following document with its request for final payment under the contract:
 1. **Contractor Affidavit for Final Payment (Form 01290.14)**
 2. **Subcontractor Affidavit(s) for Final Payment (Form 01290.15)**

VI. Additional Submittals.

- A. Contractor may be required to make additional submittals during the term of the Contract, including **Request for Modification or Substitution (CREO Form 11: 00470).** Refer to Section IX, Modification of the Contractor Utilization Plan or Substitution of an MBE/WBE,

for additional instructions on when this form must be submitted.

VII. MBE/WBE Participation Credit.

A. The following shall be credited towards achieving the goals:

1. The total contract dollar amount that a prime contractor has paid or is obligated to pay to a subcontractor that is a certified MBE or WBE, except as otherwise expressly provided for herein.
2. The total contract dollar amount that a prime contractor that is a certified MBE or WBE performed itself.
3. Sixty percent (60%) of the total dollar amount paid or to be paid by a prime contractor to obtain supplies or goods from a supplier who is a certified MBE or WBE.
4. Ten percent (10%) of the total dollar amount paid or to be paid by a prime contractor to obtain supplies or goods from a supply broker who is a certified MBE or WBE.
5. Subcontractor participation with a lower tier MBE/WBE subcontractor using one of the above methods of participation.

B. **NO CREDIT**, however, will be given for the following:

1. Participation in a contract by a MBE or WBE that does not perform a commercially useful function as defined by the Program; and
2. Any portion of the value of the contract that an MBE or WBE subcontractor subcontracts back to the prime contractor or any other contractor who is not a qualified MBE/WBE; and
3. Materials and supplies used on the contract unless the MBE/WBE is responsible for negotiating the price, determining quality and quantity, ordering the materials and installing (where applicable) and paying for material itself; and
4. Work performed by an MBE or WBE in a scope of work other than that in which the MBE or WBE is currently certified.

VIII. Methods for Securing Participation of MBE/WBEs and Good Faith Efforts.

- A. Good faith efforts are efforts that, given all relevant circumstances, a Bidder actively and aggressively seeking to meet the goals can reasonably be expected to make. Good faith efforts must be made **before** the Bidder submits a Contractor Utilization Plan, in other words, within 48 hours of bid opening. However, efforts made to increase participation of MBEs and WBEs following submission of the CUP can be considered as evidence of good faith efforts to meet goals.
- B. In evaluating good faith efforts, the Director of CREO will consider whether the Bidder has performed the following, along with any other relevant factors:
1. Advertised for at least 15 calendar days prior to the bid or proposal due date opportunities to participate in the contract in general circulation media, trade and professional association publications, small and minority business media, and publications of minority and women's business organizations which are included in a list along with their current contact information identified on the directory as the list of publications available to publish such advertisements, which list shall be updated by CREO no less than every three (3) months.

2. Sent written notices at least fifteen (15) calendar days prior to the bid or proposal due date containing the information required in section (9) below, by certified mail, e-mail, or facsimile, to at least 80% of MBEs and WBEs which are included in a list along with their contact information identified on the directory as the list of organizations available to receive such notices, which list shall be updated by CREO no less than every three (3) months.
3. Sent written notices, containing the information required by section (9) below, by certified mail, e-mail or facsimile, to at least 80% of MBEs and WBEs listed on the directory certified in the applicable scopes of work for the particular bid soliciting their participation in the contract at least 15 calendar days prior to the bid or proposal due date.
4. Bidder or Contractor must file a **Request for Modification or Substitution (CREO Form 11) prior to actual substitution and within a reasonable time after learning that a modification or substitution is necessary.** The Director may approve substitutions or modifications and upon approval, the modifications and substitutions will become an amendment to the Contractor Utilization Plan. Modifications or substitutions may be approved when:

XII. Liquidated Damages – MBE/WBE Program.

- A. If Contractor fails to achieve the MBE/WBE goals stated in its Contractor Utilization Plan, as amended, the City will sustain damages, the exact extent of which would be difficult or impossible to ascertain. Therefore, in order to liquidate those damages, the monetary difference between either (1) the amount of the MBE/WBE goals set forth in the Contractor Utilization Plan, as amended, or (2) the goals established (whichever is lower) and the amount actually paid to qualified MBEs and WBEs for performing a commercially useful function will be deducted from the Contractor's payments as liquidated damages. In determining the amount actually paid to qualified MBEs and WBEs, no credit will be given for the portion of participation that was not approved by the Director, unless the Director determines that the contractor acted in good faith. No deduction for liquidated damages will be made when, for reasons beyond the control of the Contractor, the MBE/WBE participation stated in the Contractor Utilization Plan, as amended and approved by the Director is not met.
