---

I reject this ban on the basis that it will not stop nicotine / tobacco use, only promote leaf tobacco use which only increases the amount of smokers discarding butts throughout the world and continue to cause the entrances to organizations stinking instead of allowing them to vape the flavors they want, which causes no outside interference. This could also push those who refuse to quite to produce harmful "substitutions" until they get what they want, and / or potentially risk harm to themselves and others.

Thank you for my time. Morgan Shockley
