**Re: Ordinance #2000907**

To Whom This May Concern,

We are reaching out as an organization, in support of the proposed KCMO LGBTQ Commission, and hope that you consider this. As a nonprofit organization dedicated to LGBTQ plus victims and survivors of violence, we feel it is a dire need in our community. We have seen countless acts of violence, and murder of LGBTQ plus individuals and families, in this city. Acts that seem to go unnoticed and lack value in the heart and minds of non-LGBTQ community members. Our hope in your consideration is also a plea for you to notice us and acknowledge that we too, deserve equality and justice! Please consider this commission, and feel free to contact us with anything we can assist with or provide. Thank you for your time, and support.

Respectfully,
