## PROFESSIONAL STAFF RECOMMENDATION

Docket #7 Recommendation: **Approval Subject to Conditions**

**VICINITY MAP**

**VACATION REVIEW**

The street requested for vacation is currently an improved street that terminates approximately 415 feet to the southwest of NE Parvin Road. Surrounding land use is designated for industrial purposes. Case CD-CPC-2018-00234 approved a preliminary plat, indicating the dedication of the public right-of-way southward from NE Parvin Road. This street which dead-ends in a cul-de-sac serves as access to three parcels which are planned for light industrial uses. This vacation will allow for the applicant to consolidate all lots.

The right-of-way contains both public and private utilities. Water Services has a water main within the right-of-way and requires both a relocation of this main and a permit for fire hydrant placement. Everyg has requested that the applicant retain a utility easement to protect existing facilities. City Planning Staff is requiring that a cross access easement is recorded or the lots are consolidated to ensure that all properties retain legal access to public right-of-way.

**SPECIFIC REVIEW CRITERIA****Street, Alley or Plat Vacations**

In order to determine that no private rights will be unreasonably injured or endangered by the vacation and the public will suffer no unreasonable loss or inconvenience, the city planning and development director, city plan commission, and city council must consider at least the following factors:

**88-560-10-A. All property owners adjacent to the right-of-way shall have legal access to another public right-of-way. Such access shall be physically feasible and shall not result in an unreasonable burden or unsafe conditions on the alternate right-of-way.**

All adjacent property owners will retain legal access to public right-of-way through the required cross access easement if the lots are not consolidated after the vacation occurs.

**88-560-10-B. The retention of the public right-of-way or subdivision serves no current purposes and no future useful public purpose is anticipated.**

The existing street only serves parcels within the approved development. Existing lots and development to the south prohibit the street from being extended further to the south.

**88-560-10-C. The vacation will not result in a violation of 88-405.**

The vacation will not be in violation of 88-405.

**88-560-10-D. The vacation shall not disrupt the constructed street network or reduce existing physical connectivity.**

The vacation will not disrupt any street network and will not have an impact on physical connectivity.

**88-560-10-E. The vacation shall not result in a dead-end street or alley.**

The proposed vacation will not result in a dead-end street or alley, as the entirety of the alley is proposed for vacation.

**88-560-10-F. The vacation shall not result in street traffic being routed through an alley.**

No traffic will be routed through an alley as a result of this vacation.

**88-560-10-G. The vacation shall not vacate half the width of a street or alley.**

This vacation will not vacate half the width of any street or alley.

**88-560-10-H. The right-of-way to be vacated is not on the Major Street Plan.**

The area being vacated is not on the Major Street Plan.
