Subject: Vote YES - Ordinance 230613 and Resolution 230618
Date: Saturday, July 29, 2023 9:09:22 AM

Dear Members of the City Council,

I moved back to Kansas City this March for the first time since graduating highschool in 1997. I believe in cycling, walking, and public transportation and it is the major factor in not returning sooner. Family matters created a need to return, but in the past five months I have been impressed by how much these issues important to me have been considered, especially in the past five years. Please vote in support of Ordinance 230613 and Resolution 230618 to continue making my new home better for low income residents and better for those of us well-off enough to enjoy our city without the use of an automobile.

Regards,
Bryan Moore
