Ordinance/Resolution #: 260261

Submitted Department/Preparer: City Planning

Revised 01/30/25

Docket memos are required on all ordinances initiated by a Department Director. More information can be found in [Administrative Regulation \(AR\) 4-1](#).

Executive Summary

Rezoning an area of about 12.72 acres generally located at the northeast corner of North Shoal Creek Parkway and North Oak Trafficway from Districts B2-2 and MPD to District MPD with an associated development plan that also serves as a preliminary plat to allow for a commercial retail development, including a grocery store and other commercial uses. (CD-CPC-2026-00002)

Discussion

The current proposed plan includes two parcels—the larger of the two being zoned MPD from the plan referenced above, and the smaller zoned B2-2. The proposed MPD (Master Planned Development) includes a 99,982 square foot grocery store and 14 fuel pumps with a 177 square foot kiosk containing limited retail sales via a walk-up window. Grocery pick-up where employees will bring orders to customers' cars will be located on the west side of the building, along with the drive-through pharmacy. There are no proposed uses or tenants for proposed Parcel 2 at the northwest corner of the site.

Three points of vehicular access are proposed. Along NE Shoal Creek Parkway, the western access will be right-in, right-out only and the eastern access will be fully accessible. One full-access curb cut is proposed off N Oak Trafficway approximately where NE Karapat Drive is located. The applicant is proposing to vacate the portion of NE Karapat Drive that crosses the site and replace it with a public access easement, creating a dead-end in the neighborhood to the north. The applicant has requested to handle the vacation request at a later time. Staff requests the applicant continue working with the Public Works Department and Water Department, who owns the property to the north, to realign NE Karapat Drive through the property and align with the intersection of NE 109th Terrace at N Oak Trafficway. This realignment would avoid creating a dead-end road and eliminate the need for a public access easement through the subject site. The request for realignment and removal of the public

access easement is shown on the submitted plans as the applicant is still discussing with staff.

The food and beverage retail sales and gasoline and fuel sales uses require a total of 180 parking spaces, as the requirement is reduced from 250 based on the number of dedicated pick-up spaces provided. The applicant is proposing 408 parking spaces located between the building and NE Shoal Creek Parkway, which is a 68 percent increase from what is required. There are also parking spaces fronting N Oak Trafficway north of the fuel pumps. Additional parking for Parcel 2 will be reviewed at the time of proposed development on that lot.

At the CPC hearing, the Commission voted to recommend approval subject to plan corrections made prior to Council approval of the ordinance, as well as 56 conditions and 7 requested deviations.
