### Executive Summary

Authorizing the City Manager to negotiate and execute a \$7,137,610 contract with Hope Faith-Homeless Assistance Campus to provide a non-congregate, low-barrier shelter facility to assist unsheltered families and individuals using previously-appropriated HOME ARP funds.

### Discussion

Emergency shelter and other crisis housing (shelters, interim housing, motel vouchers) play a critical role in our system's response to homelessness. Emergency shelters will always be necessary as there will be always be people dislodged from housing who will need temporary accommodation.

If every person regardless of circumstance needs a bed to sleep in, then every community needs some form of low-barrier shelter, especially when people are living in encampments, on the street or other places not meant for human habitation.

The lack of low-barrier emergency shelter leads individuals to create or seek "shelter" in encampments, which promote trafficking, public health concerns, violence, costly clean up efforts, and more. The current high barrier shelter system leaves a portion of the population to seek shelter outside. Low Barrier shelter fills that gap.

## Other Impacts

### 1. What will be the potential health impacts to any affected groups?

Living outside is dangerous. The lack of low-barrier emergency shelter leads individuals to create or seek “shelter” in encampments, which promote trafficking, public health concerns, violence, costly clean up efforts, and more.

Low-barrier shelter provides the following impact:

- Focuses on respect in behaviour, not punishment for actions
- Understands trauma, and utilizes a trauma-informed approach
- Uses restrictions and barring sparingly, and connects people to alternative resources
- Does not impose values and beliefs on residents
- Serves and accepts people without judgment
- Treats belongings respectfully
- Encourages access to basic needs like hygiene with dignity
- Integrates housing and community
- Makes decisions in collaboration with residents
- Actively engages with guests, encourages housing and promotes hope

### 2. How have those groups been engaged and involved in the development of this ordinance?

City’s Office of Unhoused Solutions staff connect with folks experiencing homelessness daily and service providers. Building relationships with the unhoused community gives insight as to why some unhoused folks are less likely to access current available shelter resources.

### 3. How does this legislation contribute to a sustainable Kansas City?

Vulnerable populations need access to appropriate resources. Any agency chosen through the RFP process will have a fundraising, architecture, staffing, and programming plans in place. The agency will leverage HOME-ARP funds along with traditional fundraising efforts in order to create sustainability within the project.
