

KANSAS CITY MISSOURI

KC Blueprint Violence Prevention Initiatives

Ordinance # 250557 and 250558

Contract Renewal for Year Two 2025

July 22, 2025

Neighborhood and Development Committee

Violence Prevention Funding

The City of Kansas City's Violence Prevention Funding is a \$30 million, five-year initiative aimed at reducing violence and improving public safety.

Focused on neighborhood strategies, youth development, and community restoration, with an emphasis on collaboration and resident engagement.

The funding reflects Kansas City's commitment to a comprehensive approach that combines community involvement, support for at-risk individuals, and creating a safer environment.

Community Capital Fund

Ordinance #250557

2025 saw a 28% increase in neighborhood participation

2025 Program Goals & Strategy

Goal: Increase the number of participating neighborhoods in the program

Strategy: CCF began recruitment in late 2024 for the 2025 cohort. We expanded outreach and streamlined the application process to make it more accessible to neighborhoods citywide, with targeted promotion in districts not previously or under-represented.

Goal: Provide more resources and training support to equip neighborhoods with tools to advance violence prevention

Strategy: Engage additional expert facilitators and increase technical assistance opportunities to help neighborhoods design and complete impactful violence prevention projects.

Goal: Increase the sustainability and visibility of neighborhood-led violence prevention efforts

Strategy: Help neighborhoods document outcomes, pursue additional funding opportunities, and share their stories through events, digital platforms, and earned media.

2025 Budget Highlights

- **83% of program budget is allocated directly to cash investments to neighborhoods**
- **This does not include CCF's \$100,000 match commitment in neighborhood subgrant funds across the program duration. Therefore, increasing the City's total benefit while staying in budget.**
