Water

[260268](#) Sponsor: Director of Water Services Department

Authorizing a \$1,100,000.00 progressive design-build contract with Burns & McDonnell Engineering Company, Inc., for the Northland Transmission, Pumping and Storage project; and recognizing this ordinance as having an accelerated effective date.

Sponsors: Director of Water Services

Held until 03-31-2026

Hold on Agenda

HELD IN COMMITTEE

[260242](#) Sponsor: Director of Public Works Department

Authorizing Amendment No. 3 to the design professional services agreement with Crawford Murphy & Tilly, Inc. in the amount of \$542,670.00 for the 31st Street from Linwood to Van Brunt Boulevard project, for a total contract amount of \$1,695,741.00; and recognizing this ordinance as having an accelerated effective date.

Sponsors: Director of Public Works

Nicolas Bosonetto, Amy Bunnel, Public Works and Jerry Bollinger (CMT- Crawford, Murphy, & Tilly), presented. This ordinance is for Public Works to proceed with the approved design of the intersection at 31st Street and Van Brunt Boulevard, which includes the traffic signals and a KCATA stop. This intersection has long been considered congested and problematic for traffic flow within the city. The proposed design aims to alleviate these issues by improving traffic signal coordination and redesigning the area around the KCATA stop. The project will also take into consideration the potential streetcar expansion currently being explored by the City in partnership with KCATA. Funding for the project has already been secured in the amount of \$28 million, which exceeds the estimated project budget of \$24 million. This includes the City's matching contribution that includes the GO Bond program.

The only funding not yet secured is for right-of-way acquisition, which is budgeted at \$1.5 million. Due to federal funding guidelines, the existing funds cannot be used for right-of-way purposes, and additional funding must be obtained. This is particularly important as the construction funds must be scheduled by early 2028.

Construction is expected to begin once the right-of-way funding is secured, with the goal of completing the project by the end of 2030. A copy of the presentation is on file with the City Clerk's Office.

Immediate Adoption

ADDITIONAL BUSINESS
