Retirement Systems Board
Civilian Employees' Retirement System of the
Police Department of Kansas City, Missouri
9701 Marion Park Drive, B
Kansas City, Missouri 64137

Dear Board Members:

I am pleased to submit the fiscal year 2022 Annual Comprehensive Financial Report (Annual Report) of the Civilian Employees' Retirement System of the Police Department of Kansas City, Missouri (Retirement System). The Annual Report intends to provide our members and other stakeholders with detailed information about the financial, actuarial, and investment operations of the Retirement System.

The Retirement System was created in 1965 by the Missouri General Assembly to provide retirement and disability benefits for civilian members of the Kansas City, Missouri Police Department, and survivor benefits for their spouses. A nine-member Board of Trustees comprised of elected and appointed members govern the Retirement System.

Contents of the Annual Report and Structure

This Annual Report is designed to comply with the reporting requirements of sections 86.1370 and 105.661 of the Revised Statutes of Missouri (RSMo), as amended. The ultimate responsibility for the Annual Report and financial statements rests with the Retirement Board. Retirement System staff support the board members in completing their fiduciary responsibilities. The staff is responsible for maintaining adequate internal accounting controls, which are designed to provide reasonable, but not absolute, assurance the financial statements are free of any material misstatements and assets are properly safeguarded. The concept of reasonable assurance recognizes that the cost of internal controls should not exceed the benefit to be derived and the valuation of cost and benefit requires estimates and judgements by staff. The staff believes the internal controls currently in place support this purpose and the financial statements and accompanying schedules are fairly presented in all material respects.

Allen, Gibbs & Houlik, L.C., the Retirement System's external auditor, conducted an independent audit of the financial statements in accordance with U.S. generally accepted auditing standards. This audit is described in the Independent Auditors' Report on pages 16 and 17 of the Financial Section. The Retirement Board has provided the external auditors with full and unrestricted access to staff to discuss their audit and related findings.

The annual audit is conducted to ensure independent validation of the integrity of the Retirement System's financial reporting and the adequacy of internal controls.

The Financial Section also contains Management's Discussion and Analysis, which serves as an introduction to and overview of the financial statements. The Retirement System is a component unit of the City of Kansas City, Missouri, for financial reporting purposes. As such, the financial statements in this report are also included in the City of Kansas City, Missouri's Comprehensive Annual Financial Reports.

Actuarial and Investment Information

Cavanaugh Macdonald, the Retirement System's consulting actuary, completed the actuarial valuation dated April 30, 2022. The funded ratio of the valuation assets to liabilities remained consistent from the prior year at 78%. The positive investment returns from the last fiscal year and the actuarial demographic experience during the fiscal year helped maintain the current funded ratio. The Retirement Board continued reducing the actuarially assumed investment return rate. On an actuarial basis, including five-year smoothing of assets, the investment returns totaled 6.9%, less than the 7.10% actuarially assumed rate of investment return. More information on the actuarial valuation is available in the Actuarial Section of this report starting on page 60.

The investment portfolio produced a -1.72% (net of fees) annualized dollar-weighted rate of return, measured on the market value of assets, against the policy benchmark return of -1.0%. Detailed investment performance and the professionals who provide services to the Retirement System start on page 52 of the Investment Section. The Schedule of Investment Results shows the historical investment performance of each outside investment manager.

Fiscal Year 2022 Projects

In 2022, the return of in-person Retirement Board meetings resumed. We continued to conduct meetings in a hybrid in-person and virtual setting. The Investment Committee reviewed portfolio holdings and performance, met with several investment managers, and began the process of rebalancing. The Retirement Board issued a request for a proposal in search of a qualified Investment Consultant to provide pension fund investment consulting services. After a thorough process, the Retirement System received eight responses and rehired RVK to be our Investment Consultant.

We said goodbye to Sharon Blancett, who retired after 22 years of helping members, co-workers, and Board Members at the Retirement Systems. Sharon's focus was always on helping members, creating and following policies that treated everyone equally, and working every day to benefit our members. Jennifer Best joined us as our new Benefits Specialist. Projects for the year included updating policies and procedures, resuming Pre-Retirement Seminars and Roll-call presentations, and recruiting a new member of the Medical Board of the Retirement System to complete medical evaluations for psychiatric retirements due to an injury or illness.

Legislative Changes

No legislative changes to the Revised Statutes of Missouri governed the Retirement System during the year.

Certificate of Achievement for Excellence in Financial Reporting

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Civilian Employees' Retirement System of the Police Department of Kansas City, Missouri, for its Annual Comprehensive Financial Report for the fiscal year ending April 30, 2021. This was the nineteenth consecutive year the Retirement System achieved this prestigious award. The Retirement System received this prestigious award for the twentieth consecutive year. To receive a Certificate of Achievement, a government must publish an easily readable and well-organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

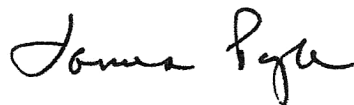

A Certificate of Achievement is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgments

The fiscal year 2022 Annual Report is the result of work by both Retirement Systems staff and outside advisors and the leadership the Retirement Systems Board provides us. The intention is to provide complete and reliable information, comply with the legislative and industry reporting requirements, and, most importantly, help our members learn more about the financial status of their retirement system.

The Retirement System staff wants to thank each of the board members, active and retired members, outside advisors, and the Kansas City, Missouri Police Department for all your contributions towards the successful operation of the Police Retirement System.

Respectfully submitted,

James J. Pyle

October 10, 2022

Dear Members,

On behalf of the Retirement Systems Board, I am pleased to provide you with the Civilian Employees' Retirement System of the Police Department of Kansas City, Missouri (Retirement System) Annual Comprehensive Financial Report for the fiscal year ending April 30, 2022. This annual report to our members provides financial information about your Retirement System and updates on changes that occurred during the past year.

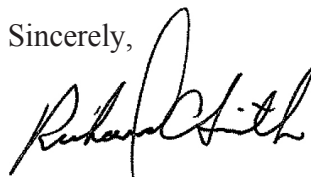

During the past fiscal year, we added 48 new active KCPD members and processed 16 service retirements. We also processed 48 resignations and assisted with death benefits for 2 new surviving spouses. Total membership in the Retirement System decreased by 8 to 862, with active membership decreasing by 24 to 498, inactive vested members increasing by 6 to 45, and retirees and surviving spouses increasing by 10 to 313.

The Retirement Board's Investment Committee and staff continued to work with our investment consultants to monitor the performance and investment processes of our 13 asset managers. Investment returns for the fiscal year were -1.69% net of fees, 0.69% below our target allocation benchmark of 1.00%. The Retirement Board continued reducing the actuarially assumed investment return rate from 7.10% to 7.05% in FY2022 while issuing a cost of living increase of 2.5%.

We did not have any changes to the membership of the Retirement Board this year. Membership reelected (Ret.) Sergeant Robert W. Jones to an open seat on the board for a three-year term ending in 2025.

In closing, I want to thank our members for your support as we work to provide you with an affordable and sustainable retirement benefit. I also want to thank our Retirement System staff for their hard work in taking care of our members and implementing the plans and policies of the Retirement Board.

Sincerely,

Richard Smith
Retirement Board Chairman

Independent Auditors' Report

Retirement Board
Civilian Employees' Retirement System
of the Police Department of Kansas City, Missouri
Kansas City, Missouri

Opinion

We have audited the financial statements of the Civilian Employees' Retirement System of the Police Department of Kansas City, Missouri (Plan), a component unit of the City of Kansas City, Missouri (City), as of and for the year ended April 30, 2022, and the related notes to the financial statements, which collectively comprise the Plan's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the fiduciary net position of the Plan as of April 30, 2022, and the changes in fiduciary net position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and pension information listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Plan's basic financial statements. The supplementary information listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, such supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

CIVILIAN EMPLOYEES' RETIREMENT SYSTEM OF THE POLICE DEPARTMENT OF KANSAS CITY, MISSOURI MANAGEMENT'S DISCUSSION AND ANALYSIS

This discussion and analysis of the Civilian Employees' Retirement System of the Police Department of Kansas City, Missouri (Civilian Employees' Retirement System or the Plan) financial statements provide an overview of its financial activities during the year ended April 30, 2022. Please read it in conjunction with the more detailed financial statements, notes, and required supplementary information, which follows this section.

The Civilian Employees' Retirement System is the defined benefit retirement plan for civilian members of the Kansas City, Missouri Police Department. Established by the Missouri General Assembly in 1965, the Plan is administered by the Retirement Board to provide its members' retirement, disability, and survivor benefits.

Overview of the Financial Statements and Accompanying Information

- The financial statements presented in this report are the Statement of Fiduciary Net Position as of April 30, 2022, and the Statement of Changes in Fiduciary Net Position for the year ended April 30, 2022. These statements reflect resources available for the payment of benefits as of the year-end and the sources and use of those funds during the year.
- The notes to the financial statements are an integral part of the financial statements and provide facts and detailed information to assist the reader in understanding the statements. Information in the notes intends to provide financial statement users with a description of the Plan, a summary of significant accounting policies, the method used to value investments, a summary of Plan investments, and the methods and assumptions used to develop the actuarial valuation.
- Required Supplementary Information consists of schedules and related notes concerning significant actuarial information and assumptions. Beginning on page 42, these schedules and notes emphasize the long-term nature of the Plan and show the progress of the Plan in accumulating sufficient assets to pay future benefits.
- The Schedule of Changes in Net Pension Liability and Related Ratios presents detailed information about the pension liabilities for which the Plan's assets are held and managed. The schedule is intended to assist financial statement users in understanding the magnitude of the pension liability and the degree to which the net position restricted for pensions is sufficient to cover the liability for the Plan.
- The Schedule of Employer Contributions shows the amount of actuarially determined required contributions relative to the actual contributions made during the year. This schedule also presents covered payroll and contributions as a percentage of covered payroll to provide an economic context for the amount of contributions reported for the Plan.
- The Schedule of Investment Returns shows the money-weighted rate of return on investments and net investment expense. The money-weighted rate of return is a method for calculating investment performance on Plan investments that adjusts for the changing amounts invested.

**CIVILIAN EMPLOYEES’ RETIREMENT SYSTEM
OF THE POLICE DEPARTMENT OF KANSAS CITY, MISSOURI
MANAGEMENT’S DISCUSSION AND ANALYSIS**

- The Supplementary Information includes the Schedule of Expenses and the Schedule of Additions by Source and Deductions by Type. The Schedule of Expenses includes the detail of the administrative and investment costs to operate the Plan. The Schedule of Additions by Source and Deductions by Type is a historical summary that shows how contributions and investments impact the additions to the Plan and how benefit payments and administrative expenses impact the deductions from the Plan.

Fiduciary Net Position

The following is a summary comparative statement of Fiduciary Net Position for the System:

	April 30, 2022	April 30, 2021	Amount Change
Cash	\$53,942	\$45,153	\$8,789
Receivables	482,322	432,201	50,121
Investments	168,903,894	174,116,031	(5,212,137)
Securities lending collateral	15,258,352	18,528,775	(3,270,423)
Total assets	184,698,510	193,122,160	(8,423,650)
Accounts and refunds payable	656,988	405,632	251,356
Securities lending collateral	15,258,352	18,528,775	(3,270,423)
Total liabilities	15,915,340	18,934,407	(3,019,067)
Net Position Restricted for Pensions	\$168,783,170	\$174,187,753	\$(5,404,583)

Financial Analysis of Fiduciary Net Position

The Statement of Fiduciary Net Position presents information on the Plan’s assets and liabilities, with the difference between the two reported as Net Position Restricted for Pensions. This statement reflects, at fair value, the contributions and investments available to pay benefits.

The Civilian Employees’ Retirement System’s benefits are funded through member contributions, City of Kansas City, Missouri (City) contributions, and investment income. The net position of the Plan decreased to \$168,783,170 as of April 30, 2022, from \$174,187,753 as of April 30, 2021. Plan income is generated through the investment of contributions in stocks, bonds, and alternative assets.

Assets – Total assets of the Civilian Employees’ Retirement System were \$184.7 million as of April 30, 2022. They included cash, receivables, investments, and securities lending collateral. Total assets decreased by \$8.4 million or -4.4% from FY 2021. Investable assets decreased by \$5.2 million, while securities lending collateral decreased by \$3.3 million. The reduction in the value of global stocks and bonds was due to a market environment where investors were cautious about future growth projections and higher inflation. As a result, the investable assets decreased. The Plan’s real estate portfolio returned strong performances, with a 28.2% increase for the fiscal year. The decrease in securities lending collateral was due to volatility associated with a broad market sell-off. These volatile capital markets created challenging market conditions.

**CIVILIAN EMPLOYEES' RETIREMENT SYSTEM
OF THE POLICE DEPARTMENT OF KANSAS CITY, MISSOURI
MANAGEMENT'S DISCUSSION AND ANALYSIS**

Liabilities – Total liabilities of the Civilian Employees' Retirement System were \$15.9 million as of April 30, 2022. They include payables for money manager fees and refunds, amounts due to brokers for purchases of investments, and securities lending collateral. Total liabilities decreased by \$3.0 million during the year due to the \$3.3 million decrease in the offsetting liability for securities lending activity.

Net Position – Civilian Employees' Retirement System assets exceeded liabilities on April 30, 2022, by \$168.8 million. The Net Position decreased by \$5.4 million or -3.1% from the prior year based on the underperformance of the stock and bond markets.

Changes in Fiduciary Net Position

The following is a summary comparative statement of Changes in Fiduciary Net Position:

	April 30, 2022	April 30, 2021	Amount Change
Member contributions	\$1,510,871	\$1,514,076	\$(3,205)
City contributions	5,800,468	5,358,552	441,916
Total Net Investment Income	(2,332,986)	31,508,882	(33,841,868)
Total additions	4,978,353	38,381,510	(33,403,157)
Benefits paid to members	9,994,750	9,199,657	795,093
Refunds of contributions	244,534	226,726	17,808
Administrative expenses	143,652	132,117	11,535
Total deductions	10,382,936	9,558,500	824,436
Net Increase / (Decrease) in Net Position	(5,404,583)	28,823,010	(34,227,593)
Net Position Restricted for Pensions, Beginning of Year	174,187,753	145,364,743	28,823,010
Net Position Restricted for Pensions, End of Year	\$168,783,170	\$174,187,753	\$(5,404,583)

Financial Analysis of Changes in Fiduciary Net Position

The Statement of Changes in Fiduciary Net Position presents information showing how the Plan's Net Position Restricted for Pensions changed during the year ended April 30, 2022. This statement reflects contributions made by members and the City. Investment activities during the fiscal year are also presented, including interest and dividends and the net appreciation or depreciation in the fair value of the investments. Benefits paid to members, refunds of contributions, and administrative expenses are also reported in the statement.

CIVILIAN EMPLOYEES' RETIREMENT SYSTEM OF THE POLICE DEPARTMENT OF KANSAS CITY, MISSOURI MANAGEMENT'S DISCUSSION AND ANALYSIS

Revenues – Additions to Fiduciary Net Position – Member contributions, City contributions, and investment income are the sources of revenue for the Civilian Employees' Retirement System. Member contributions totaled \$1.5 million or 5% of covered payroll to the Plan. In comparison, City contributions totaled \$5.8 million or 19.27% of the projected covered payroll. City contributions increased to pay the required contributions determined by the Plan's actuary. Net investment income decreased compared to the prior year. The portfolio's investment rate of return, net of investment expenses, was -1.69%, with a net investment income of -\$2.3 million. Investment expenses, including custodial bank fees, manager fees, and investment consultation, totaled \$1.0 million. Direct lending, real estate, and private equity investments posted gains for the fiscal year. While stocks, bonds, and hedge fund investments recorded losses for the fiscal year.

Expenses – Deductions from Fiduciary Net Position – Benefits paid to members, refunds of member contributions, and administrative expenses are the sources of expenses for the Police Retirement System. Benefit payments and refunds represent 98.6% of the total deductions. Benefits and Refunds paid to members increased over the prior year because of new retirements, members leaving the Police Department, and a cost of living adjustment for retirees.

City contributions continued to equal the amount recommended by the Plan's actuary. For the year beginning May 1, 2022, the Plan has budgeted City contributions to total the actuarial required contribution amount of \$6.4 million. The calculated contribution rate is 21.22% of the projected covered payroll.

The Retirement Board has approved an asset allocation expected to realize a long-term investment rate of return of 7.10% over time. The strong performance of the fiscal year 2021 allowed the Plan to lower the actuarially assumed rate of return from 7.40% to 7.10% and accelerate the planned five-year step-down process. The Retirement Board reviews investment allocations monthly and rebalances the portfolio, as needed, with guidance from an independent financial consulting firm.

Requests for Information

The design of this financial report is to provide members of the Police Retirement System, citizens, investors, and creditors of the City of Kansas City, Missouri, a general overview of the Plan's finances. It also demonstrates its accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Kansas City Police Employees' Retirement Systems, 9701 Marion Park Drive B, Kansas City, Missouri 64137.

There are no other currently known facts, conditions, or decisions expected to significantly affect the financial position or results of operations of the Civilian Employees' Retirement System.

**CIVILIAN EMPLOYEES' RETIREMENT SYSTEM
OF THE POLICE DEPARTMENT OF KANSAS CITY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS**

Note 1: Summary of Significant Accounting Policies

Reporting Entity

The Civilian Employees' Retirement System of the Police Department of Kansas City, Missouri (Plan) is considered a component unit of the City of Kansas City, Missouri (City) financial reporting entity and included in the City's financial reports as a pension trust fund due to the nature of the Plan's reliance on funding from the City of Kansas City, Missouri. Accounting principles generally accepted in the United States of America require that the financial reporting entity include the primary government, organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Based on these criteria, there are no other organizations or agencies whose financial statements should be combined and presented with these financial statements.

Measurement Focus and Basis of Accounting

The Plan uses a fund to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. The Plan's fund is classified as a pension trust fund of fiduciary fund type. Pension trust funds account for assets held by the Plan in a trustee capacity or as an agent on behalf of others and are accounted for on the flow of economic resources measurement focus and the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. City contributions to the Plan are recognized when due and the City has made a formal commitment to provide the contributions. Interest and dividend income are recorded when earned. Expenses are recorded when the corresponding liabilities are incurred. Realized gains and losses on security transactions are based on the difference between sales proceeds and carrying value of the securities, and are recognized on the transaction date. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan.

Valuation of Investments and Income Recognition

Marketable securities, including mutual funds, are stated at fair value. Securities traded on a national securities exchange are valued at the last reported sales price on the last business day of the Plan year; investments traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at the average of the last reported bid and ask prices.

For certain investments consisting of corporate bonds and notes, U.S. Treasury obligations, U.S. agency obligations and government mortgage-backed securities that do not have an established fair value, the Plan has established a fair value based on yields currently available on comparable securities of issuers with similar credit ratings and quotations that are obtained from brokerage firms or national pricing services.

**CIVILIAN EMPLOYEES' RETIREMENT SYSTEM
OF THE POLICE DEPARTMENT OF KANSAS CITY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS**

Note 1: Summary of Significant Accounting Policies (Continued)

The private equity partnerships, equity funds, hedge fund of funds and real estate funds consist primarily of non-marketable investments in various venture capital, corporate finance funds and private partnerships (collectively referred to as "Portfolio Funds"). These funds are primarily invested in the technology, communications, energy, real estate markets, as well as U.S. fixed income instruments and alternative or non-traditional investments. A portion of these funds is also invested in foreign operations under certain partnership agreements. These investments are recorded at fair value based on financial data, which is generally at an amount equal to the net asset value per share on the fund's proportionate interest in the net assets or net equity of the Portfolio Funds as determined by each Portfolio Fund's general partner or investment manager.

The Plan is obligated to pay certain capital commitments to the partnerships. These unfunded commitments totaled approximately \$66,926 at April 30, 2022.

Securities, which are not traded on a national security exchange, are valued by the respective investment manager or other third parties based on similar sales.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Administrative Expenses

Actuarial, investment management and bank trustee fees and expenses are included in the Plan's expenses when incurred. These expenses are financed through investment income. The Kansas City, Missouri Police Department provides office space without any direct cost to the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and, disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Plan Tax Status

The Plan obtained its most recent determination letter on December 17, 2014, in which the Internal Revenue Service stated that the Plan, as designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC) and, therefore, not subject to tax. The Plan's management believes that the Plan is designed and is being operated in compliance with the applicable requirements of the IRC exempting it from federal income taxes.

**CIVILIAN EMPLOYEES' RETIREMENT SYSTEM
OF THE POLICE DEPARTMENT OF KANSAS CITY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS**

Note 2: Plan Description

The following summary description of the Civilian Employees' Retirement System of the Police Department of Kansas City, Missouri provides only general information. Participants should refer to the Plan Statutes (Sections 86.1310 to 86.1640 RSMo) for a more complete description of the Plan's provisions.

The Plan is a single-employer, contributory, defined benefit plan established by the State of Missouri's General Assembly and administered by the Retirement Board of the Civilian Employees' Retirement System of the Police Department of Kansas City, Missouri (Board). The Board is composed of nine members, two are appointed by the Board of Police Commissioners, two are appointed by the City Council and five are elected by the membership of the Retirement Systems. The elected members must include one member of the Civilian Employees' Retirement System, one member retired from active service in the Police Retirement System and one active member of the Police Retirement System who has not attained the rank of Sergeant or higher. Elections are held annually and Board members are elected to serve for three-year terms.

Eligibility – All regularly appointed full-time civilian employees of the Kansas City, Missouri Police Department who are not eligible to receive a pension from any other City-funded retirement system, shall become members as a condition of their employment.

Tier I member – A person who became a member prior to August 28, 2013 and remained a member on August 28, 2013.

Tier II member – A person who became a member on or after August 28, 2013.

At April 30, 2022, the Plan's membership consisted of the following:

	Tier I	Tier II	Total
Retirees and beneficiaries currently receiving benefits	311	2	313
Terminated members entitled to but not yet receiving benefits	46	5	51
Active members			
Vested	281	50	331
Non-vested	—	167	167
Total	638	224	862

Contributions – State statutes set out the funding requirements for the Plan which can only be amended by the Missouri General Assembly. The Retirement Board establishes a rate based on an actuarially determined rate recommended by an independent actuary. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by Plan members during the year, with an additional amount to finance any unfunded accrued liability.

The City is required to contribute the employer actuarially determined contribution rate. For the year ended April 30, 2022, active members contributed at a rate of 5% of base pay, and the City contributed at a rate of 19.27% of annual projected covered payroll.

**CIVILIAN EMPLOYEES' RETIREMENT SYSTEM
OF THE POLICE DEPARTMENT OF KANSAS CITY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS**

Note 2: Plan Description (Continued)

Benefits Provided – Benefit terms for the Plan are established in Missouri Revised Statutes 86.1310 to 86.1640 and can only be amended by the Missouri General Assembly. The Plan provides retirement benefits, as well as pre-retirement death benefits, duty and non-duty related disability benefits and termination benefits to civilian employees of the Kansas City, Missouri Police Department.

Service Retirement

Eligibility –

Tier I member – Later of age 65 or member's 10th anniversary of employment.

Tier II member – Later of age 67 or member's 20th anniversary of employment.

Amount of Pension – Benefit equal to 2% of Final Compensation multiplied by years of creditable service.

Final Compensation –

Tier I member – Average annual compensation during the two years of service with the highest salary, whether consecutive or otherwise, or during the entire period of service if less than two years.

Tier II member – Average annual compensation during the three years of service with the highest salary, whether consecutive or otherwise, or during the entire period of service if less than three years.

Early Retirement

Tier I member – Eligible for early retirement as follows:

- a) Beginning at age 55, if member has at least 10 years of creditable service. Pension computed as service retirement and then reduced by 0.50% for each month the benefit commences prior to the month following that in which the member turns age 60.
- b) Beginning at age 60, if member has at least five years of creditable service. Pension computed as service retirement and then reduced by 0.50% for each month the benefit commences prior to the month following that in which the member turns age 65.
- c) Beginning at age 60, if member has at least 10 years of creditable service. Pension computed as service retirement without reduction.
- d) At any time after the member's age plus years of creditable service equals or exceeds 80 (Rule of 80). Pension computed as service retirement without reduction.

**CIVILIAN EMPLOYEES' RETIREMENT SYSTEM
OF THE POLICE DEPARTMENT OF KANSAS CITY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS**

Note 2: Plan Description (Continued)

Tier II member – Eligible for early retirement as follows:

- a) Beginning at age 62, if member has at least five years of creditable service. Pension computed as service retirement and then reduced by 0.50% for each month the benefit commences prior to the month following that in which the member turns age 67.
- b) Beginning at age 62, if member has at least 20 years of creditable service. Pension computed as service retirement without reduction.
- c) At any time after the member's age plus years of creditable service equals or exceeds 85 (Rule of 85). Pension computed as service retirement without reduction.

Deferred Retirement (Vested Termination)

Eligibility – Five or more years of creditable service.

Amount of Pension – Computed as service retirement but based upon service, Final Compensation and benefit formula in effect at termination of employment. Benefits may begin at early retirement age, adjusted by applicable reductions.

Disability

Duty Disability Eligibility – A member in active service who has a total and permanent disability that prevents the member from engaging in any occupation or performing any work for remuneration or profit for the remainder of their life. The disability must be the direct result of performance of duties with the Police Department. No age or service requirement.

Amount of Pension – 50% of Final Compensation payable for the remainder of the member's life or as long as the permanent disability continues.

Non-Duty Disability Eligibility – A member in active service, with a minimum of 10 years of service, who has a total and permanent disability that prevents the member from engaging in any occupation or performing any work for remuneration or profit for the remainder of their life. Disability is not the direct result of performance of duties with the Police Department.

Amount of Pension – 30% of Final Compensation but in no event less than the amount the member would have been entitled to as a pension if the member had retired on the same date with equivalent age and creditable service.

Disability benefits may be subject to offset or reduction by amounts paid or payable under any Workers' Compensation law. A disability retiree who is not age 60 may be required by the Retirement Board to undergo continuing eligibility reviews once every three years which may include a medical re-examination.

**CIVILIAN EMPLOYEES' RETIREMENT SYSTEM
OF THE POLICE DEPARTMENT OF KANSAS CITY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS**

Note 2: Plan Description (Continued)

Death in Service (less than 20 years of service)

Eligibility – Death of an active member with at least five but less than 20 years of service.

Amount of Pension – 50% of the member's accrued pension payable to the surviving spouse for spouse's lifetime. The effective date shall be the later of the first day of the month after the member's death or what would have been the member's earliest retirement date.

Funeral Benefit – \$1,000 payable upon the death of an active member.

Death in Service (20 or more years of service)

Eligibility – Death of an active member with 20 or more years of service.

Amount of Pension – Surviving spouse may elect the greater of 50% of the member's accrued pension commencing as described above, or a monthly benefit determined on a joint and survivor's basis from the actuarial value of the member's accrued pension at date of death.

Funeral Benefit – \$1,000 payable upon the death of an active member.

Death After Retirement

Eligibility – Death of a retired member who was receiving a benefit.

Amount of Pension – Eligible surviving spouse receives a pension equal to 50% of the member's benefit at the time of actual retirement plus cost of living adjustments. Benefit is payable for the life of the surviving spouse.

In lieu of the 50% surviving spouse death benefit, a member may elect, at the time of retirement, a reduced actuarially equivalent 100% surviving spouse annuity. In such case, the surviving spouse shall receive the same amount as the benefit being paid to the member and such benefit is payable for the life of the surviving spouse.

If the total amount paid to a member and surviving spouse is less than the member's accumulated contributions, with interest, an amount equal to the difference shall be paid to the member's named beneficiary.

Funeral Benefit – \$1,000 payable upon the death of a retired member.

Non-Vested Termination

Eligibility – Termination of employment and no pension is or will become payable.

Amount of Pension – Refund of member's contributions with interest.

**CIVILIAN EMPLOYEES' RETIREMENT SYSTEM
OF THE POLICE DEPARTMENT OF KANSAS CITY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS**

Note 2: Plan Description (Continued)

Post-Retirement Benefit Increases

Eligibility – Members and surviving spouses eligible if member's pension commenced by December 31 of prior calendar year.

Amount of Benefit – May receive an annual cost-of-living adjustment (COLA) an amount not to exceed 3% of their respective base pension. Base pension is the pension computed under the provisions of the law at the date of retirement, without regard to COLAs.

Statutes require that the Retirement Board must act upon the advice of a qualified actuary when granting cost of living adjustments.

Supplemental Retirement Benefit

Retirement on or before August 28, 2007 – current retired and disabled members and their surviving spouses are eligible to receive the supplemental benefit of \$160 per month in addition to pension benefits.

Retirements after August 28, 2007 – current and future retired and disabled members and their surviving spouses are eligible to receive the supplemental benefit of \$160 per month if the member had 15 years of creditable service.

Optional Form of Benefit Payment

Members retiring with at least one or more years of service beyond their eligible retirement date may elect to take a portion of their benefit as a lump-sum distribution (PLOP). Members electing PLOP will receive an actuarially reduced monthly benefit for their lifetime.

Social Security and Medicare

Tier I member – Members participate in Social Security and Medicare.

Tier II member – Members participate in Social Security and Medicare.

**CIVILIAN EMPLOYEES’ RETIREMENT SYSTEM
OF THE POLICE DEPARTMENT OF KANSAS CITY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS**

Note 3: Deposits, Investments and Investment Income

Deposits

Custodial credit risk is the risk that, in the event of a bank failure, a government’s deposits may not be returned to it. The Plan’s deposit policy for custodial credit risk requires compliance with the provisions of state law.

State law requires collateralization of all deposits with federal depository insurance; bonds and other obligations of the U.S. Treasury, U.S. agencies or instrumentalities of the State of Missouri; bonds of any city, county, school district or special road district of the State of Missouri; bonds of any state; or a surety bond having an aggregate value at least equal to the amount of the deposits.

The Plan had no bank balances exposed to custodial credit risk at April 30, 2022.

Investments

For the year ended April 30, 2022, The Northern Trust Company (Northern Trust) was the master custodian for substantially all of the securities of the Plan. The investments held by the Plan are managed by 13 Board-appointed money managers. Each of the money managers has a different asset allocation based on Board-approved policy. The Plan may legally invest in direct obligations of and other obligations guaranteed as to principal by the U.S. Treasury and U.S. agencies and instrumentalities, real estate, partnerships, corporate bonds, commodities and equity securities.

The asset type and classes, target asset allocation and ranges to be used in the Plan are shown below. All percentages are based on fair values. The Board has authorized Plan staff, with guidance from the investment consultant, to rebalance the portfolio in accordance with the strategy guidelines below:

Asset Type and Class	Range	Target
Equities		
Global Equity	33% – 43%	38%
Fixed Income	26% – 36%	31%
Alternatives		
Real Estate	9% – 17%	13%
Absolute Return	7% – 15%	11%
Direct Lending	4% – 10%	7%
Cash	0% – 5%	0%

**CIVILIAN EMPLOYEES' RETIREMENT SYSTEM
OF THE POLICE DEPARTMENT OF KANSAS CITY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS**

Note 3: Deposits, Investments and Investment Income (Continued)

Securities Lending Transactions

State statutes and the Plan's Board policies permit the Plan to use investments of the Plan to enter into securities lending transactions—loans of securities to broker-dealers and other entities for collateral with a simultaneous agreement to return the collateral for the same securities in the future.

The Plan has contracted with Northern Trust as its third-party lending agent to lend domestic equity and debt securities for cash collateral of not less than 102% of the fair value and international debt and equity securities of not less than 105% of the fair value. Contracts with the lending agent require it to indemnify the Plan if borrowers fail to return the securities, if the collateral is inadequate to replace the securities lent or if the borrowers fail to pay the Plan for income distributions by the securities' issuers while the securities are on loan; therefore, non-cash collateral is not recorded as an asset or liability on the financial statements.

Fair value of securities loaned	<u>\$14,681,825</u>
Fair value of cash collateral received from borrowers	<u>15,258,352</u>
Total fair value of collateral	<u>\$15,258,352</u>

All securities loans can be terminated on demand by either the Plan or the borrower. The cash collateral received on each security loan was invested, in accordance with the Plan investment guidelines, in short-term funds. The maturities of the resulting investments generally match the maturities of the securities lending arrangements themselves. The Plan is not permitted to pledge or sell collateral received unless the borrower defaults.

**CIVILIAN EMPLOYEES' RETIREMENT SYSTEM
OF THE POLICE DEPARTMENT OF KANSAS CITY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS**

Note 3: Deposits, Investments and Investment Income (Continued)

At April 30, 2022, the Plan had the following investments and maturities:

Type	Fair Value	Maturities in Years				Loaned Under Securities Lending Agreements
		Less than 1	1 - 5	6 - 10	More than 10	
U.S. Treasury obligations	\$7,918,123	\$—	\$2,000,033	\$1,444,209	\$4,473,881	\$4,889,911
Corporate bonds and notes	23,148,779	—	7,967,958	11,946,100	3,234,721	8,005,678
Government mortgage-backed securities	347,756	—	—	—	347,756	—
Short term investment funds	2,539,744	2,539,744	—	—	—	—
			\$2,539,744	\$9,967,991	\$13,390,309	\$8,056,358
Common and preferred stocks	9,472,524					1,625,113
All country world index fund	25,574,569					—
Real estate funds	28,559,611					—
Hedge fund of funds	16,917,414					—
Partnerships - equity	985,708					—
Partnerships - fixed income	31,511,690					—
Foreign equities	4,502,944					161,123
Equity funds	11,682,514					—
Emerging markets equity funds	5,742,518					—
Total	\$168,903,894					\$14,681,825

Interest Rate Risk – Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The short term investment funds are presented as an investment with a maturity of less than one year because they are redeemable in full immediately. The debt securities are presented in their respective category based on final maturity date. The Plan’s investment policy does not specifically address exposure to fair value losses arising from rising interest rates.

**CIVILIAN EMPLOYEES' RETIREMENT SYSTEM
OF THE POLICE DEPARTMENT OF KANSAS CITY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS**

Note 3: Deposits, Investments and Investment Income (Continued)

Credit Risk – Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. It is the Plan’s policy to invest in corporate bonds that are rated BBB or better by credit rating agencies. Core fixed income managers may hold bonds with a rating equal to or above BB. At April 30, 2022, the Plan’s investments in corporate bonds were rated BBB or better by *Standard & Poor’s*. At the same date, the Plan’s investments in U.S. agencies obligations not directly guaranteed by the U.S. government (including Federal National Mortgage Association, Federal Home Loan Banks & Federal Home Loan Mortgage Corporation) and in government mortgage-backed securities were rated AA+ or better by *Standard & Poor’s*. U.S. Treasury obligations were explicitly guaranteed by the U.S. government. The Plan’s investments in short term investment funds were not rated by *Standard & Poor’s*.

These bond rating requirements do not apply to the high yield portion of the fixed income portfolio. The following table summarizes the Plan’s fixed income portfolio exposure level and credit qualities at April 30, 2022:

Fixed Income Security Type	Fair Value April 30, 2022	S&P Weighted Average Credit Quality
Corporate bonds and notes	\$389,174	AAA
Corporate bonds and notes	1,071,484	AA
Corporate bonds and notes	9,002,836	A
Corporate bonds and notes	12,685,285	BBB
Government mortgage-backed securities	347,756	US Gov’t Guaranteed
Government bonds	7,918,123	US Gov’t Guaranteed
Short term investment funds	2,539,744	Not rated

Custodial Credit Risk – For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Plan will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. Consistent with the Plan’s securities lending policy, \$14,681,825 was held by the counterparty that was acting as the Plan’s agent in securities lending transactions.

**CIVILIAN EMPLOYEES' RETIREMENT SYSTEM
OF THE POLICE DEPARTMENT OF KANSAS CITY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS**

Note 3: Deposits, Investments and Investment Income (Continued)

Investment Concentrations – The following presents investments that represent 5% or more of the Plan's net position as of April 30, 2022:

Investment	Fair Value
FCI Core Fixed Income	\$31,414,658
PIMCO - Fixed Income Fund	20,587,633
Grosvenor FOB Fund, L.P.	16,917,414
Northern Trust Collective All Country World Investable Market Index Fund - Non Lending	15,755,906
Prudential PRISA II	14,311,686
Morgan Stanley - Prime Property Fund, LLC	14,247,925
LSV Global Value	13,975,468
Artisan Global Opportunities Trust Fund	11,682,514
White Oak Fixed Income Fund C, L.P.	10,924,057
Wellington Global Perspectives	9,818,663

Foreign Currency Risk – This risk relates to adverse effects on the fair value of an investment from changes in exchange rates. The Plan's investment policy permits investments in international equities, American Depository Receipts (ADRs), warrants, rights, 144A securities, convertible bonds and U.S. registered securities whose principal markets are outside of the United States. All foreign equities and emerging market equities held are denominated in U.S. dollars.

Investment Income

Investment income (loss) for the year ended April 30, 2022 consisted of:

Interest and dividend income	\$3,687,597
Net depreciation in fair value of investments	(5,040,603)
	(1,353,006)
Less investment expense	1,006,223
	<u>\$(2,359,229)</u>

Annual Money-Weighted Rate of Return – For the year ended April 30, 2022, the annual money-weighted rate of return on the pension plan investments, net of pension plan investment expense, was -1.69%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

**CIVILIAN EMPLOYEES' RETIREMENT SYSTEM
OF THE POLICE DEPARTMENT OF KANSAS CITY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS**

Note 4: Net Pension Liability

The components of the net pension liability of the City at April 30, 2022, were as follows:

Total pension liability	\$219,727,613
Plan fiduciary net position	(168,783,170)
City's net pension liability	\$50,944,443
Fiduciary net position as a % of total pension liability	76.81%

Note 5: Actuarial Methods and Assumptions

An actuary from Cavanaugh Macdonald Consulting, LLC determines the total pension liability. The total pension liability as of April 30, 2022 was determined based on an actuarial valuation prepared as of April 30, 2021, rolled forward one year to April 30, 2022, using the following actuarial assumptions:

Inflation	2.50%
Salary increases, including inflation	3.60% to 6.50%
Long-term investment rate of return, net of plan investment expense, including inflation	7.10%

For purposes of calculating the total pension liability, future ad hoc COLAs of 2.5% (simple COLA) were assumed to be granted in all future years.

Pre-retirement mortality rates were based on the RP-2000 Employee Table with a 1-year age set forward, projected to 2017 using Scale AA, also set forward 1 year. Future mortality improvement is projected generationally using the ultimate projection scale of MP-2017 and reflects the 1-year set forward.

Post-retirement mortality rates were based on the RP-2000 Healthy Annuitant Table, with a 1-year age set forward, projected to 2017 using Scale AA, also set forward 1 year. Future mortality improvement is projected generationally using the ultimate projection scale of MP-2017 and reflects the 1-year set forward.

Disability mortality rates were based on the RP-2000 Healthy Annuitant Table, with a 5-year age set forward, projected to 2017 using Scale AA, also set forward 5 years. Future mortality improvement is projected generationally using the ultimate projection scale of MP-2017 and reflects the 5-year set forward.

The actuarial assumptions used in the valuation are based on the results of the most recent actuarial experience study, which covered the five-year period ending April 30, 2017. The experience study report is dated December 11, 2018.

**CIVILIAN EMPLOYEES’ RETIREMENT SYSTEM
OF THE POLICE DEPARTMENT OF KANSAS CITY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS**

Note 5: Actuarial Methods and Assumptions (Continued)

Long-term Expected Rate of Return – The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best-estimates arithmetic real rates of return for each major asset class included in the Plan’s target asset allocation as of April 30, 2022 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Global Equity	38%	5.05%
Fixed Income	31%	0.00%
Absolute Return	11%	2.25%
Real Estate	13%	3.75%
Direct Lending	7%	3.75%
Private Equity	0%	6.75%

Discount Rate – The discount rate used to measure the total pension liability was 7.10%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and the City contributions will be made at rates equal to the employer actuarially determined contribution rate.

A municipal bond rate was not used in determining the discount rate. If it were required, the rate would be 3.07% on the measurement date.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate – The following presents the net pension liability of the City, calculated using the discount rate of 7.10% as well as what the City’s net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.10%) or one percentage point higher (8.10%) than the current rate:

	1% Decrease (6.10%)	Current Discount Rate (7.10%)	1% Increase (8.10%)
Net pension liability	\$80,589,840	\$50,944,443	\$26,303,042

**CIVILIAN EMPLOYEES' RETIREMENT SYSTEM
OF THE POLICE DEPARTMENT OF KANSAS CITY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS**

Note 6: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statement of fiduciary net position.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note 7: Litigation

The Plan is subject to claims and lawsuits that arise primarily in the ordinary course of operating a retirement system. It is the opinion of management that the disposition or ultimate resolution of such claims and lawsuits will not have a material adverse effect on the net position of the Plan.

Note 8: Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

**CIVILIAN EMPLOYEES' RETIREMENT SYSTEM
OF THE POLICE DEPARTMENT OF KANSAS CITY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS**

Note 8: Fair Value Measurements (Continued)

Recurring Measurements

The following table presents the fair value measurements of assets and liabilities recognized in the accompanying financial statements measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at April 30, 2022:

Investments by fair value level	Fair Value	Level 1	Level 2	Level 3
U.S. government securities	\$7,918,123	\$—	\$7,918,123	\$—
Corporate bonds and notes	23,148,779	—	23,148,779	—
Common and preferred stock	9,472,524	9,472,524	—	—
Government mortgage-backed securities	347,756	—	347,756	—
Short-term investment funds	2,539,744	2,539,744	—	—
All country world index fund	25,574,569	—	25,574,569	—
Foreign equities	4,502,944	4,502,944	—	—
Total Investments by fair value level	<u>73,504,439</u>	<u>\$16,515,212</u>	<u>\$56,989,227</u>	<u>\$—</u>

**Investments measured at the net asset value
(NAV) (A)**

Real estate funds	28,559,611
Partnerships – equity	985,708
Partnerships – fixed income	31,511,690
Hedge fund of funds	16,917,414
Emerging markets equity funds	5,742,518
Equity funds	11,682,514
Total investments measured at the NAV	<u>95,399,455</u>
Total investments	<u>\$168,903,894</u>

(A) Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts included above are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of fiduciary net position.

Equity and short-term investment funds classified as Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Corporate and Governmental debt securities classified as Level 2 of the fair value hierarchy are valued using third-party pricing services based on market observable information such as market quotes for similar assets, as well as normal market pricing considerations such as duration, interest rates and prepayment assumptions.

**CIVILIAN EMPLOYEES' RETIREMENT SYSTEM
OF THE POLICE DEPARTMENT OF KANSAS CITY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS**

Note 8: Fair Value Measurements (Continued)

The fair value estimates presented herein are based on pertinent information available to management as of April 30, 2022. Although management is not aware of any factors that would significantly affect the estimated fair value amounts, such amounts have not been comprehensively revalued for purposes of these financial statements since that date, and current estimates of fair value may differ significantly from the amounts presented herein.

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

The valuation method for investments measured at the net asset value (NAV) per share (or its equivalent) is presented below.

	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Real estate funds (A)	28,559,611	–	Quarterly	90 Days
Partnerships – equity (B)	985,708	66,926	N/A	N/A
Partnerships – fixed income (C)	31,511,690	–	Monthly	10 Days
Hedge fund of funds (D)	16,917,414	–	Quarterly	70 Days
Emerging markets equity funds (E)	5,742,518	–	Monthly	10 Days
Equity funds (F)	11,682,514	–	Daily	1 Day
Total investments measured at the NAV	<u><u>\$95,399,455</u></u>			

- (A) This category includes two open-ended real estate funds that invest in U.S. commercial real estate. Periodic distributions from each fund are made as the underlying investments of the funds are liquidated. Redemptions can be made quarterly.
- (B) This category includes two private equity fund of funds that invest primarily in U.S. and International Corporate Finance and Venture Capital. Distributions from each fund are made as the underlying investments of the funds are liquidated. It is estimated the underlying assets of the funds will be liquidated over the next three to five years.

**CIVILIAN EMPLOYEES' RETIREMENT SYSTEM
OF THE POLICE DEPARTMENT OF KANSAS CITY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS**

Note 8: Fair Value Measurements (Continued)

- (C) This category includes a commingled core fixed income fund and comingled private debt fund. The fixed income fund is a mutual fund that invests in core fixed income. The underlying bonds, and mutual fund, trade daily on public markets. The private debt fund focuses on lending to U.S. based middle market and small cap companies. The underlying loans have an average duration of 2-4 years. Periodic distributions from the fund are made as underlying loans are repaid. Redemptions can be made monthly.
- (D) This category includes a hedge fund of funds which invests in 27 hedge funds that pursue multiple strategies to diversify risks and reduce volatility. The hedge funds' composite portfolio for this type includes investments in approximately 30% Equities, 28% Credit, 13% Relative Value, 5% Quantitative, 13% Macro and Commodities and 11% Multi- Strategy. Redemptions can be made quarterly.
- (E) This category includes a commingled emerging markets equity fund which trades monthly. The underlying emerging market stocks trade daily on public markets.
- (F) This category includes commingled equity funds which trade daily on public markets.

Note 9: Retirement Plan

The Plan has a 408(k) SEP retirement plan covering its employees that meet certain eligibility requirements. The Plan's contributions to its employees' SEP are determined by the Retirement Board. Contributions to the SEP were \$13,398 for fiscal year 2022.

**CIVILIAN EMPLOYEES' RETIREMENT SYSTEM
OF THE POLICE DEPARTMENT OF KANSAS CITY, MISSOURI
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION**

Changes of benefit and funding terms – The following changes to the plan provisions were reflected in the valuation performed as of April 30 listed below:

2013 – The 2013 Missouri General Assembly passed Senate Bill 215/House Bill 418 which created a new benefit tier for members hired on or after August 28, 2013. The Plan provisions changed were:

- Normal retirement changed from age 65 to age 67,
- Early retirement, without a reduction in benefit amount changed from Rule of 80 (age plus service equal or exceeds 80) or age 60 with 10 years of creditable service to Rule of 85 or age 62 with 20 years of creditable service,
- Final compensation changed from an average of the highest two years to the highest three years.

Changes in actuarial assumptions and methods—The following changes to the Plan provisions were reflected in the valuations as listed below:

4/30/2022 Valuation:

- Reduction of the investment return assumption from 7.35% to 7.10%.

4/30/2021 Valuation:

- Reduction of the investment return assumption from 7.40% to 7.35%..

4/30/2020 Valuation:

- Reduction of the investment return assumption from 7.45% to 7.40%

4/30/2019 Valuation:

- Reduction of the investment return assumption from 7.50% to 7.45%
- Reduction of the price inflation assumption from 3.00% to 2.50%.
- Reduction of the general wage increase assumption from 3.75% to 3.00%.
- Reduction of the payroll growth assumption from 3.75% to 3.00%.
- Increased the administrative expense assumption from 0.40% to 0.50%.
- Modification of both early and normal retirement assumptions to better reflect the actual, observed experience.
- Changed the mortality improvement scale prospectively from Scale AA to the ultimate projection scale of MP-2017.
- Modification of termination rates to better reflect the actual, observed experience.
- The merit salary assumption was modified to reflect the current pay scales.

4/30/2017 Valuation:

- The amortization of the unfunded actuarial accrued liability at April 30, 2017 is amortized over a closed 30-year period. Subsequent changes in the unfunded actuarial liability due to experience are amortized in a separate base with payments over a closed 20-year period.

**CIVILIAN EMPLOYEES' RETIREMENT SYSTEM
OF THE POLICE DEPARTMENT OF KANSAS CITY, MISSOURI
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION**

4/30/2013 Valuation:

- Reduction of the investment return assumption from 7.75% to 7.50%.
- Reduction of the assumed cost of living adjustment from 3.00% to 2.50%.
- Reduction of the general wage increase assumption from 4.00% to 3.75%.
- Modification of both early and normal retirement assumptions to better reflect the actual, observed experience.
- Termination of employment assumption was changed to a pure service-based assumption with one set of rates applicable to both males and females.
- The assumption regarding vested members who terminated employment was modified to value the greater of the value of the deferred monthly benefit or the value payable as a refund.
- The merit salary assumption was modified to reflect the current pay scales.
- The amortization of the UAAL was changed to be a single base, recalculated each year and amortized as a level percentage of payroll over an open 30-year period.

The Actuarially Determined Contribution rates, as a percentage of pensionable payroll, used to determine the Actuarially Determined Contribution amounts in the Schedule of Employer Contributions are calculated as of April 30, two years prior to the end of the year in which Actuarially Determined Contribution amounts are reported. In the six years prior to FY 2014, the City contributed a fixed contribution rate (13.14%) of covered payroll, regardless of the amount of the actuarial determined contribution rate. Beginning September 1, 2013, the City began to contribute the full dollar amount of the Actuarially Determined Contribution.

The following actuarial methods and assumptions were used to determine the Actuarially Determined Employer Contribution reported in the most recent fiscal year (April 30, 2022), which was based on the April 30, 2020 actuarial valuation:

Actuarial cost method	Entry age normal
Amortization method	Level percentage of payroll, closed
Remaining amortization period	30 years closed for Legacy UAAL (27 remaining as of April 30, 2020) 20 years closed for experience bases
Asset valuation method	5-year smoothing of actual vs. expected return on fair (market) value
Price inflation	2.50%
Wage inflation	3.00%
Salary increases	3.60% to 6.50% per year, including wage inflation
Investment rate of return	7.40%, net of investment expenses and including price inflation
Future cost-of-living adjustments	2.50% (simple)

Board of Trustees
Civilian Employees' Retirement System of the Police Department
of Kansas City, Missouri
9701 Marion Park Drive
Kansas City, MO 64137

Dear Board Members,

This letter serves to provide an overview of capital markets and the Civilian Employees' Retirement System of Kansas City (the "System") portfolio's positioning for the fiscal year ended April 30, 2022.

Economic Overview

The 2022 fiscal year (May 1, 2021 to April 30, 2022) witnessed a slowdown in the economic recovery resulting from a surge in COVID-19 infections and historically high inflation. The surge of infections, and resulting return to cautionary behaviors in developed markets, maintained the trend of consumers focusing on goods, rather than services and experiences, straining global supply chains and raising prices. Despite the economic slowdown, the U.S. labor market remained strong ending the fiscal year with an unemployment rate of 3.6%, further adding to pricing pressure.

Inflation in the United States, as measured by the Consumer Price Index, increased 8.5% year-over-year in the first quarter of 2022, a level not seen since 1982. The inflationary trends were exacerbated in late February and early March 2022 when the Russian Federation launched a full-scale military invasion of neighboring Ukraine. Russia is the world's largest exporter of natural gas, the second-largest exporter of crude oil, as well as an important global source of industrial metals and agricultural products.

Due to the changing economic conditions, the Federal Open Market Committee (FOMC) indicated at the March 2022 meeting an increase from the December estimate of three interest rate hikes in 2022 to seven. Markets reacted negatively to the more aggressive stance from the FOMC. Combined with the invasion in Ukraine, most equity indices returned negative double-digits from the start of the year through April 30th.

Capital Markets Overview

Global equity markets, as measured by the MSCI All Country World Index, returned -5.4% during fiscal year ending April 30, 2022. U.S. equities outperformed their non-U.S. counterparts but fell overall with the broad Russell 3000 stock index returning -3.1% for the fiscal year. Developed non-U.S. equity markets, as measured by the MSCI Europe Asia Far East (EAFE) Index, decreased by -8.2%, while emerging markets returned -18.3%, as measured by the MSCI EM Index. This challenging environment for equity markets was a sharp reversal from the prior fiscal year in which the MSCI All Country World Index returned a positive 45.8%.

Due, in part, to inflationary challenges, rising interest rates, and geopolitical events, both U.S. and global fixed income markets experienced a significant decline during fiscal year 2022. The Bloomberg U.S. Aggregate Bond Index declined -8.5%, while the Bloomberg Global Aggregate Bond Index decreased by -12.6%. The Bloomberg Commodity Index recorded a 43.5% return, as oil and other commodity prices increased significantly during the fiscal year.

Plan Updates and Positioning

The total market value of the Civilian Employees' Retirement System investments decreased from \$174.5 million to \$168.1 million in the year ending April 30, 2022. As of fiscal year-end 2022, the System had reduced the actuarial assumed rate of return from 7.30% to 7.10%. The System's overall investment return over the past year was -1.2% and the System's three-year annualized return was 7.3%. The seven-year annualized return for the System was 6.5% and the System's ten-year annualized return was 7.0%.¹

During the fiscal year, Staff, the Investment Committee, and RVK, Inc. ("RVK") reviewed the System's asset allocation targets and alternative investment portfolios. No significant changes were made to the portfolio. In the coming year, the Investment Committee and RVK will review the System's asset allocation target and recommend changes aimed at improving potential return and/or diversification, based on the System's new actuarial assumed rate of return.

The System's investment policies, goals, and objectives, as well as the performance of its assets continue to be regularly monitored and evaluated by Staff, the Board, the Investment Committee, and RVK. These evaluations include analysis of the investment management firms and the custodial bank that serve the System.

The System's publicly traded assets managed through separate accounts are held in custody at Northern Trust Bank. Market values and returns referenced above are based upon statements prepared by Northern Trust Bank. Their statements are, to the best of our knowledge, reliable and accurate. Investment performance is calculated using a time-weighted rate of return methodology (gross of fees) based upon market values and cash flows.

We look forward to continuing to work with Staff, the Investment Committee, and the Board to monitor, review, and best position the System's portfolio to meet its long-term goals and objective.

Sincerely,

Rebecca Gratsinger, CFA
Chief Executive Officer

¹ Returns are gross of fees.

Civilian Employees' Retirement System

Summary of Investment Policies and Objectives

The Retirement System uses investment performance objectives to evaluate the investment return of the system's portfolio and individual managers. The system's overall annualized total net of fees return, as measured over a typical market cycle and a minimum period of five years, should exceed the return that would have been achieved if the system had been fully invested according to the approved asset allocation policy benchmark. The policy benchmark consists of 38% MSCI All Country World Investable Markets Index (Net), 31% Bloomberg US Aggregate Bond Index, 13% NCREIF ODCE Index (Net), 11% Absolute Return Custom Benchmark, and 7% ICE Bank of America Merrill Lynch 3 Month Treasury Bill Index plus 5%.

The portfolio underperformed the policy benchmark by .72%, with a -1.72% return (net of fees) for the fiscal year. The portfolio outperformed the policy benchmark by .19%, with a 6.64% return (net of fees) for the five years ending April 30, 2022. The portfolio outperformed the policy benchmark by 0.06%, with a 5.97% return (net of fees) for the seven years ending April 30, 2022.

During the fiscal year, the Retirement Board monitored its strategic asset allocation policy using the portfolio's six broad and distinct asset classes. Each asset class has established return, risk, and diversification assumptions. Based on its determination of the appropriate risk tolerance and its long-term return expectations, the Retirement Board has implemented the following strategic asset allocation: Global Equity 38%, Fixed Income 31%, Real Estate 13%, Absolute Return 11%, Direct Lending 7%, and Cash 0%. Based on the RVK, Inc. capital market assumptions, the expected long-term return for the strategic asset allocation is 4.6%, and the expected standard deviation (risk) is 8.2%.

The current asset allocation is 34% equities, 32% bonds and cash, and 34% alternatives. Global stocks make up the entirety of the equity allocation. In contrast, core fixed income and cash divide the bond and fixed income allocation. The split of the alternative allocation is into core and value-added real estate, absolute return strategies, direct lending, and private equity. Differences between the year-end and strategic allocation are due to the market performance of the asset classes.

The Retirement Board met with staff from RVK, Inc. periodically to review the performance of each of the investment managers hired by the Retirement Systems. Performance is reviewed on an absolute basis (did the manager make or lose money) and on a relative basis (how did the manager perform compared to their designated benchmark). RVK also provides comparative statistical information about the source of the manager's performance against the benchmark and how their performance stacks against other asset class managers. The Retirement Board's Investment Committee continued to use video conferences to meet with the portfolio manager from our investment managers. Those meetings have included reviewing the manager's investment process, investment holdings and performance, and the manager's outlook for the asset class.

The Retirement Board
Civilian Employees' Retirement System of the
Police Department of Kansas City, Missouri
9701 Marion Park Drive, B
Kansas City, MO 64137

Dear Members of the Board:

The basic financial objective of the Civilian Employees' Retirement System of the Police Department of Kansas City, Missouri is to establish and receive contributions which:

- when expressed in terms of percentages of active member payroll will remain approximately level from generation to generation, and
- when combined with present assets and future investment return will be sufficient to meet the financial obligations of the Civilian Employees' Retirement System of the Police Department of Kansas City, Missouri to present and future retirees and beneficiaries.

The financial objective is addressed within the annual actuarial funding valuation. The valuation process develops contribution rates that are sufficient to fund the plan's current cost (i.e. the costs assigned by the valuation method to the year of service about to be rendered), as well as to fund the unfunded actuarial accrued liability (UAAL), as a level percent of active member payroll, over the amortization period defined in the System's Funding Policy. The most recent valuation was completed based upon population data, asset data, and plan provisions as of April 30, 2022.

The administrative staff of the System provides the actuary with census data for the actuarial valuation. The actuary relies on the data after reviewing it for internal and year to year consistency. The actuary summarizes and tabulates population data in order to analyze longer term trends. The plan's external auditor also audits the actuarial membership data annually.

For funding valuation purposes, an asset smoothing method is used to develop the actuarial value of assets. The smoothing method recognizes the difference between the dollar amount of the actual and expected return on the market value of assets over a five-year period.

Actuarial valuations for funding the System are based upon assumptions regarding future activity in specific risk areas including the rates of investment return and payroll growth, eligibility for the various classes of benefits, and longevity among retired lives. These assumptions are adopted by the Board after considering the advice of the actuary and other professionals. In our opinion, the assumptions and the methods comply with the requirements of Actuarial Standards of Practice. Each actuarial valuation reflects all prior differences between actual and assumed experience in each risk area and adjusts the actuarial contribution rates as needed. The April 30, 2022 actuarial valuation reflects the actuarial assumptions and methods included in the experience study covering the five-year period from May 1, 2012 to April 30, 2017, as adopted by the Board

based on advice of the actuary, with the exception of the investment return assumption/discount rate. The Board's intention has been to decrease the investment return assumption incrementally over time. As a result, the assumption has changed from 7.50% in the 2018 valuation to 7.05% in the April 30, 2022 valuation (which was a decrease of 0.05% from the 7.10% assumption in the April 30, 2021 valuation). This change to the investment return assumption increased the unfunded actuarial accrued liability by \$1.4 million.

In addition to the increase due to the assumption change, the unfunded actuarial accrued liability was impacted by the actual experience for fiscal year 2022. There was an actuarial loss of \$0.6 million on actuarial assets and an actuarial liability gain of \$1.3 million from demographic experience. The liability gain was largely due to more deaths and terminations than expected based on the actuarial assumptions. In total, the unfunded actuarial accrued liability increased by \$1.1 million from the prior valuation.

The 2013 session of the Missouri General Assembly passed legislation that modified the benefit provisions for members hired on or after August 28, 2013 (called Tier II). As a result, the normal cost rate for this group of members is lower than the normal cost rate for members hired before that date. As of April 30, 2022, there were 217 members in Tier II out of a total of 498 active members (about 44% of total actives). Although Tier II members are 44% of the total active membership, they represent a much smaller percentage of the active actuarial accrued liability due to their relatively shorter service and younger age. Over time, the normal cost rate is expected to decline as the members hired before August 28, 2013 retire or leave covered employment and are replaced by members covered by Tier II. However, it may take another 10 to 15 years before a noticeable difference is observed in the valuation results.

The System is 78% funded as of April 30, 2022, based on the actuarial value of assets. However, reflecting the City's statutory requirement to contribute the full actuarial contribution rate, the funded ratio of the System is expected to increase over the next thirty years assuming all actuarial assumptions are met.

Cavanaugh Macdonald also prepared actuarial computations as of April 30, 2022 for purposes of fulfilling financial accounting requirements for the System under Governmental Accounting Standards Board (GASB) Statement No. 67. The results are presented in a separate report dated July 20, 2022. The assumptions used in the funding valuation report were also used in the GASB 67 report, with the exception of the investment return assumption. The long-term rate of return, also used as the discount rate, was 7.10% based on the assumption used in the April 30, 2021 valuation. In addition, the entry age normal actuarial cost method, which is required to be used under GASB 67, is also used in the funding valuation report. The actuarial assumptions and methods used in both the funding and the GASB 67 valuation meet the parameters set by the Actuarial Standards of Practice (ASOPs), as issued by the Actuarial Standards Board, and generally accepted accounting principles (GAAP) applicable in the United States of America as promulgated by the Governmental Accounting Standards Board.

Summary of Actuarial Assumptions and Methods

Actuarial assumptions are suggested by the retirement system actuary and approved by the Retirement Board.

The investment rate of return is 7.10% for the 4/30/21 valuation, stepping down .05% annually, net of investment expenses, compounded annually (adopted 9/9/21).

The System uses a 5-year smoothing of actual vs. expected return on market value approach to value plan assets for actuarial purposes. (Adopted 9/20/11)

For healthy and disabled retirees and surviving beneficiaries, and all active employees, the System uses the RP-2000 tables projected to 2017 using scale AA. Future mortality improvement is projected generationally using the ultimate projection scale MP-2017 for both males and females (adopted 11/8/18).

The rates to measure the probabilities of age and service retirements are included in the Rates of Retirement table on the following pages.

Tables for Rates of Separation from Active Membership and Rates of Disability are shown on the following pages.

The projected average salary increase attributable to inflation is 3.00% (adopted 11/8/18); merit and longevity increases range from 0.6% to 3.5% (adopted 11/8/18) depending upon the sample ages. These increases include an underlying assumption of 2.5% for inflation (adopted 11/8/18). The table for Pay Increase Assumptions is shown on the following pages.

Normal cost and the allocation of actuarial present values between service rendered before and after the valuation date were determined using the entry age normal actuarial cost method. Unfunded actuarial accrued liabilities were amortized by level percent of payroll contributions (principal and interest combined)

over a closed 30 year period, beginning with the April 30, 2017 valuation. Any new UAAL generated in subsequent years will be layered and amortized over a closed 20-year period. (Adopted 11/8/16)

The System assumes the Retirement Board will grant a 2.5% cost of living adjustment, as allowed by state statute, in each year that statutory provisions are met. (Adopted 7/9/13)

The System periodically prepares a study using actual experience in order to develop assumptions to be used in its actuarial valuations. The latest study was initially completed and presented to the Board in April 2018 for the period May 1, 2012 through April 30, 2017. Further analysis of the investment return assumption was required. That work was completed and the Retirement Board adopted the recommendations and assumptions at the November 8, 2018 board meeting to be used in the valuation for the fiscal year ending April 30, 2019. The experience study report is dated December 11, 2018.

The most recent valuation was completed by Cavanaugh Macdonald Consulting, LLC and was based on members of the System as of April 30, 2022. All census data was supplied by the System and was subject to reasonable consistency checks. Cavanaugh Macdonald Consulting, LLC completed the valuations since 2011. Milliman, Inc. completed the 2007 through 2010 valuations. Gabriel, Roeder, Smith & Company completed the valuations from 2002 through 2006. William M. Mercer, Inc. completed all previous valuations.

Summary of Actuarial Assumptions and Methods (Continued)

Mortality Tables. For active members, RP-2000 Employee Table, with a 1 year age set forward, projected to 2017 using Scale AA (also with a 1 year age set forward). Future Mortality improvement is projected generationally using the ultimate projection scale of MP-2017 and reflects the 1 year age set forward. (Adopted 11/8/18)

For healthy retirees, the RP-2000 Healthy Annuitant Table, with a 1 year age set forward, projected to 2017 using Scale AA (also with a 1 year age set forward). Future mortality improvement is projected generationally using the ultimate projection scale MP-2017 and reflects the 1 year age set forward. (Adopted 11/8/18)

For disabled retirees, the RP-2000 Healthy Annuitant Table set forward 5 years, projected to 2017, using Scale AA. Future mortality improvement is projected generationally using the ultimate projection scale of MP-2017 and reflects the 5-year age set-forward. (Adopted 11/8/18)

Rates of separation from active membership. The rates do not apply to members eligible to retire and do not include separation on account of death or disability. This assumption measures the probabilities of members remaining in employment. (Adopted 11/8/18)

Analysis of Financial Experience

Year Ended April 30, 2022

The actuarial gains or losses realized in the operation of the Retirement System provide an experience test. Actual experience will never (except by coincidence) coincide exactly with assumed experience. It is expected that gains and losses will cancel each other over a period of years, but sizable year-to-year fluctuations are common. Detail on the derivation of the actuarial gain (loss) is shown below.

	Millions
Unfunded Actuarial Liability, April 30, 2021	\$46.7
- effect of contributions less than actuarial rate	—
- expected change due to amortization method	0.8
- (gain)/loss from investment return on actuarial assets	0.6
- demographic experience ¹	(1.3)
- assumption changes	1.4
- all other experience	(0.3)
Unfunded Actuarial Liability, April 30, 2022	\$47.9

¹ Liability gain is about 0.59% of total actuarial liability.

Active Membership

Summary Plan Description at April 30, 2022

Membership

All regularly appointed full-time civilian employees of the Kansas City, Missouri Police Department, who are not eligible to receive a pension from any other City funded retirement system, shall become members of the Civilian Employees' Retirement System of the Police Department of Kansas City, Missouri as a condition of their employment.

Tier I members include employees hired before August 28, 2013.

Tier II members include employees hired on or after August 28, 2013.

Any Tier I member who terminates their membership and later returns to membership on or after August 28, 2013 will become a Tier II member.

Creditable Service

Membership service includes all service rendered as a civilian employee for compensation. Creditable service includes current membership service and may also include purchases of prior service, military service and other qualifying public service.

Service Interruptions

With certain exceptions, any time a member is on leave without compensation, the member will not receive creditable service in the Retirement System for such period of time. However, upon returning from unpaid leave to active service, the member may purchase creditable service for such time by paying the actuarial cost calculated at the time of the purchase. Under certain conditions, members who have been on a period of unpaid leave for military purposes may receive creditable service without being required to pay the actuarial cost. Creditable service does not include any time a member is suspended from service without pay.

Prior Service

A member who terminates membership with three years or more of creditable service and later returns to membership may purchase credit toward retirement for that prior service. The cost shall be determined using the member's portion of actuarial rates.

Prior Military Service

Members may elect to purchase creditable service in the Retirement System based upon any active duty time they served in the U.S. military prior to employment with the Kansas City, Missouri Police Department. A member may purchase up to two years of qualifying military service. The cost shall be determined at the time of purchase using current actuarial rates, and must be paid in full prior to retirement.

Other Public Employment

Under Section 105.691 RSMo, a member who has been employed in nonfederal public employment in the State of Missouri prior to becoming a member of the Civilian Employees' Retirement System may purchase service up to the actual number of years of public service in an eligible position. A member becomes eligible under this section after they have been a member of the Civilian Employees' Retirement System for five years. The cost shall be determined using actuarial rates.

Contributions

All members contribute a percentage of their base pay until they retire. The member's contribution rate is 5% of base pay. Member contributions are made through payroll deduction on a pre-tax basis and paid into the Retirement System by the Board of Police Commissioners each pay period.

As of May 1, 2021, the City of Kansas City, Missouri will contribute the actuarial required amount of \$5.8 million based on a projected payroll of \$30.1 million using a contribution rate of 19.27% of members' base pay. Future contribution rates will be based on actuarial requirements.

Retirement Benefits

A Tier I member's normal retirement date shall be the first day of the month following the later of the date the member attains the age of 65 years or of the member's tenth anniversary of employment.

A Tier II member's normal retirement date shall be the first day of the month following the later of the date the member attains the age of 67 years or of the member's twentieth anniversary of employment.

Pension benefits begin in the month following the member's effective retirement date.

Age and Service Retirement

A member, who retires on or after the member's normal retirement date, shall receive a pension in a sum equal to 2% of the member's Final Compensation multiplied by the number of years of creditable service.

Final Compensation of a Tier I member is generally the member's average annual compensation over the 24 months of service for which the member received the highest base salary.

Final Compensation of a Tier II member is generally the member's average annual compensation over the 36 months of service for which the member received the highest base salary.

There is no reduction for social security benefits.

A member who is married at the time of retirement may, with their spouse's consent, select an optional annuity in lieu of a normal pension. An optional annuity provides a monthly pension to the member for life

and an equal amount to the surviving spouse upon the death of the member. The value of the optional annuity will be the actuarial equivalent of the member's normal pension amount at the date of retirement, including the value of survivorship rights for the surviving spouse. The optional annuity will be paid to the member's surviving spouse for life without regard to remarriage.

Early Retirement

Beginning at age 55, a Tier I member who has completed at least 10 years of creditable service may elect early retirement and receive a pension benefit which shall be reduced by one-half of one percent for each month the effective date is prior to the first day of the month after the member turns 60. For members electing early retirement at age 55 the reduction is 30%.

Beginning at age 60, a Tier I member who has completed at least 5 years but not more than 10 years of creditable service may elect early retirement and receive a pension benefit which shall be reduced by one-half of one percent for each month the effective date is prior to the first day of the month after the member turns 65.

Beginning at age 60, a Tier I member who has completed at least 10 years of creditable service, or at any time after a member's total of age and years of creditable service equals or exceeds 80, the member may elect early retirement without any reduction in benefits.

Beginning at age 62, a Tier II member who has completed at least 5 years of creditable service may elect early retirement and receive a pension benefit which shall be reduced by one-half of one percent for each month the effective date is prior to the first day of the month after the member turns 67. For members electing early retirement at age 62 the reduction is 30%.

Beginning at age 62, a Tier II member who has completed at least 20 years of creditable service, or at any time after a member's total of age and years of creditable service equals or exceeds 85, the member may elect early retirement without any reduction in benefits.

Disability Benefits

A member eligible for disability benefits must be in active service and have a total and permanent disability that prevents the member from engaging in any occupation or performing any work for remuneration or profit for the remainder of the member's life. The disability must not be caused by the member's own negligence or willful self infliction. A duty disability is directly due to and caused by actual performance of employment with the Police Department. A non-duty disability arises from any other cause than a duty disability.

There is no age or service requirement for a duty disability pension. A member eligible for a duty disability pension, as determined by the Medical Board of the Retirement System and the Retirement Board, will receive a pension equal to 50% of the member's Final Compensation.

To be eligible for a non-duty disability pension, a member must have 10 or more years of creditable service. A member eligible for a non-duty disability pension, as determined by the Medical Board of the Retirement System and the Retirement Board, will receive a pension equal to 30% of the member's Final Compensation but in no event shall the disability pension be less than the amount the member would be entitled to as a pension if they retired on the same date with equivalent age and creditable service.

A disability pension shall be paid to eligible members for so long as the total and permanent disability shall continue. The pension may be subject to offset or reduction by amounts paid or payable under Workers' Compensation law. A disability retiree may be required by the Retirement Board to undergo periodic medical examinations.

Partial Lump-sum Option Payment (PLOP)

A Partial Lump-sum Option Payment (PLOP) is available to members who have one or more years of creditable service beyond their eligible retirement date. A member with one or more years of creditable service beyond their eligible retirement date may elect a lump-sum equal to

12 times the initial monthly base pension they would have received without making the PLOP election.

A member with two or more years of creditable service beyond their eligible retirement date may elect a lump-sum equal to 24 times the initial monthly base pension they would have received without making the PLOP election.

A member with three or more years of creditable service beyond their eligible retirement date may elect a lump-sum equal to 36 times the initial monthly base pension they would have received without making the PLOP election.

When a member makes an election to receive a PLOP, the member's base pension calculated at the time of retirement will be actuarially reduced to reflect the PLOP payment. The reduction in a member's retirement benefit with a PLOP is dependent upon the member's age, marital status and the amount of the PLOP.

Survivor Benefits

Upon the death of a member in service or of a member after retirement, there shall be paid the following:

If the member dies in service and has less than 5 years of creditable service, the member's surviving spouse shall be paid, in a lump sum, the amount of the member's contributions plus interest.

If the member dies in service and has at least 5 but less than 20 years of creditable service, the member's surviving spouse may elect, in lieu of the lump sum return of contributions plus interest, a pension equal to 50% of the member's accrued pension as computed for normal retirement. The effective date of the election shall be the latter of the first day of the month after the member's death or the first day of the month following what would have been the member's early retirement date.

If the member dies in service and has at least 20 years of creditable service, the member's surviving spouse may elect, in lieu of the lump sum return of contributions plus interest, the larger of the 50% pension as computed above or a pension determined on a joint and survivor's basis from the actuarial value of the member's accrued pension at the date of death.

If the member retired and did not elect an optional annuity in lieu of a normal pension, the surviving spouse shall receive a pension payable for life equaling 50% of the member's normal retirement benefit as of the member's actual retirement date plus cost of living adjustments.

If the member retired and elected an optional spousal annuity, the surviving spouse shall receive the same amount as the annuity being paid to the member and will be paid such amount for the lifetime of such surviving spouse.

A funeral benefit of \$1,000.00.

When a surviving spouse receives Workers' Compensation benefits on account of the death of a member in service, the amounts of any payments under this section may be subject to offset or reduction by amounts paid or payable under any Workers' Compensation law.

Upon the death of a member, if there is no surviving spouse or if the total amount paid to the member and/or the member's surviving spouse is less than the member's accumulated contributions, an amount equal to the difference shall be paid to the member's designated beneficiary or, if none, to the member's estate. A payment to a designated beneficiary shall constitute full and final payment of any and all claims for benefits from the Retirement System.

A surviving spouse shall not be entitled to benefits unless the spouse was married to the member at the time of retirement.

Cost of Living Adjustments

Members, including surviving spouses, may receive an annual cost-of-living adjustment in an amount not to exceed 3% of their respective base pension. Statutes require that the Retirement System remain actuarially sound and that the Retirement Board must act upon the advice of a qualified actuary when granting cost of living adjustments. To be eligible for the cost of living increase, which is normally granted on the June 1 benefit check, the member's pension must have commenced by December 31 of the prior year.

Supplemental Retirement Benefits

Retired members with 15 years of creditable service and eligible surviving spouses receive a supplemental retirement benefit, currently in the amount of \$160.00 monthly, in addition to pension benefits.

Resignation or Termination

Upon resignation or termination of a member with less than 5 years of creditable service, the member will be paid the amount of the member's accumulated contributions plus interest, if any, and the return of contributions shall be in lieu of any and all benefits to which the member might be entitled.

With 5 or more years of creditable service, a member may choose to leave their accumulated contributions in the Retirement System fund and receive a pension upon the member's normal retirement date or upon the member's early retirement date subject to any applicable adjustments.

Any member who receives a refund of their member contributions, thereby terminating their membership in the Retirement System, and who later returns to membership on or after August 28, 2013 due to re-employment will become a Tier II member.

Retirement Board

The Retirement Board is composed of nine members, two are appointed by the Board of Police Commissioners, two are appointed by the City Council and five are elected by the membership of the Retirement Systems. The elected members must include one member of the Civilian Employees' Retirement System, one member retired from active service in the Police Retirement System, and one active member of the Police Retirement System who has not attained the rank of Sergeant or higher. Elections are held annually and board members are elected to serve for three-year terms.

The above summary is not intended to serve as a legal document or substitute for the law. In all circumstances the language of the actual text of the law and the policies adopted by the Retirement System Board will take precedence. Copies of sections 86.1310 to 86.1640 of the Revised Statutes of Missouri, which govern the Civilian Employees' Retirement System of the Police Department of Kansas City, Missouri are available on our web site at www.kcpers.org or upon request at the KCPERS office.

Statistical Summary

The Civilian Employees' Retirement System of the Police Department of Kansas City, Missouri has implemented the provisions of GASB Statement No. 44, Economic Condition Reporting: The Statistical Section. GASB Statement No. 44 established reporting requirements related to the supplementary information presented in this section.

Each of the schedules in the statistical section contain ten years of historical data to provide more comprehensive comparisons and track the progress of changes to member demographics and plan benefits.

All of the member demographic and benefit data used in the statistical section was obtained from internal sources. Participant data is separated into active, retired/survivor, and deferred categories where appropriate. Retirement benefit data is separated into service retirement, duty disability retirement, and non-duty disability retirement categories where appropriate.
