## Ordinance Fact Sheet

## A-E/Negotiated Form

**Brief Title**  
 Authorizing a Design Professional Services Contract Renewal No. 1  
 with Burns & McDonnell Engineering Company, Inc. for the Smart  
 Sewer Program Management Services Project.

**Approval Deadline**

**Reason**  
 To authorize execution of a design professional services contract  
 renewal and expenditures.

**Details**

**Reason for Contract**  
 In 2010, the City of Kansas City, Missouri entered into a Consent Decree with the United States Environmental Protection Agency (EPA) to reduce the volume and frequency of overflows from the City's sewer system over a 25-year period. In March 2021 the Consent Decree was modified to include additional interim and revised final performance criteria and to extend its duration to 30 years. This project will provide program management services to assist the City with continued implementation of its Smart Sewer Program.

**Discussion**  
**Project Justification**  
 The City of Kansas City, Missouri has entered into a Consent Decree with the United States EPA to reduce the volume of overflows from the City's sewer system over a 30-year period. The City's Smart Sewer Program is currently in year 12 of a 30-year implementation period. This project will provide program management services to assist the City with continued implementation of its Smart Sewer Program.

**Project Description**  
 The scope of services to be performed under this contract includes the following program management services:

- Program administration, project controls, asset data management services, adaptive management planning to provide oversight and direction for program activities;
- Contract administration and project delivery services for the development and implementation of Smart Sewer Program capital projects;
- Construction management support services for implementation of Smart Sewer Program projects;
- Public communications and outreach services to support the implementation of the Smart Sewer Program including development of informational content and collateral, public outreach activities, and strategic communications;
- Sewer collection system planning, assessment and rehabilitation, including manhole inspections, flow monitoring, and modeling analyses for implementation of the Smart Sewer Program, and support of the City's Annual Sewer Rehabilitation program;
- Project management and support to continue the implementation of the City's Private Inflow and Infiltration (I/I) Reduction Program; and
- Green Infrastructure solution planning and implementation to reduce combine sewer overflows, improve the water quality of local streams, and to integrate with grey structural overflow controls and other City public capital improvement projects to optimize community benefits.
