<p>Reason for Project This final plat application was initiated by Hunt Midwest Real Estate Development, Inc., in order to subdivide the property in accordance with the city codes and state statutes. (The developer intends to construct single family homes.)</p>															
<p>Discussion This is a routine final plat ordinance that authorizes staff to continue to process the plat for recording. This plat can be added to the consent agenda.</p> <p>PREVIOUS CASE:</p> <p>Case No. CD-CPC-2021-00026 - A request to approve a project plan on approximately 22.6 acres in District R-1.5 generally located at the southeast corner of N.W. 108th St and N. Platte Purchase Drive, to allow for 54 residential units and amenities. (Recommended for approval by the City Plan Commission on March 16, 2021.)</p> <p>This final plat is in substantial conformance with the approved project plan.</p>

How will this contribute to a sustainable Kansas City?	<p>This project consists of public and private improvements for a 54 lot single-family residential development, one private open space tracts and one storm water detention tract on approximately 22.6 acres of previously undeveloped property. These facilities will reduce the overall storm water volume and attenuate the peak runoff rate to less than existing conditions. The private open space will also retain much of the existing natural vegetation and natural waterways. Runoff from within the development will be conveyed in an enclosed storm sewer system and released into the detention facilities. Common areas will be maintained by the homeowners' association through a covenant agreement. Modern and safe, walkable streets with sidewalks, curb and gutter and street lights will be constructed. New sanitary sewers will be constructed that will minimize infiltration and inflow within the system conveyed to the treatment facility. Homeowners must adhere to the codes, covenants and restrictions prepared for the project to assure ongoing maintenance and upkeep of their personal residences and common properties. Stream setbacks will be maintained to the limits of the riparian corridor which will preserve the native vegetation and natural waterways. This development will increase the tax base for the developed lots and will provide ample permanent greenspace within the development.</p> <p>Written by Lucas A. Kaspar, PE</p>
