Description of Contract (Provide Details): Operations and maintenance service agreement with SIEMENS to uphold warranty obligation for purchased sole brand low voltage systems in the new single terminal facility. Due to the sensitive nature and physical location of the systems, agreement will require Airport security badging. A more detailed summary of scope of service is attached and detailed contractor proposal is available upon request from KCAD. Please note that due to the proprietary nature of this system, KCAD is currently seeing a procurement waiver for this agreement.

Aviation is not seeking for goals to be waived for this contractor. We simply need goals to be assigned so that contractor can respond with CUP and/or request a waiver by submitting LOIs and Good Faith Efforts. The only waiver Aviation seeks for this contract at this time is a sole source procurement waiver since it is a part of the new terminal project. Aviation does not seek to waive M/WBE goals at this time. It is very possible that Siemens could use subcontractors but a goal needs to be established before that information can be provided.

Pursuant to RSMo. Section 610.021(11) & (12) documents related to bids will not be made available until bids are completed.

This document is submitted with all available facts. Intentionally falsifying this document or omitting pertinent facts is grounds for disciplinary action pursuant to KCMO Human Resources Rules & Policy Manual (eff. August 4, 2014).
