Executive Summary

Rezoning an area of about 2.199 acres generally located at 5005 N Brighton Ave from District R-6 (Residential) to District B3-2 (Community Business) to permit a mobile vendor park to be established on the subject site. (CD-CPC-2024-00113)

Discussion

The applicant is seeking to rezone the subject site from R-6 (Residential) to B3-2 (Community Business) to allow for a mobile vendor park to be located on the subject site.

The church located at the subject site has a long relationship with the owner of the food truck that has been operating from the parking lot. This rezoning would permit a mobile vendor to operate on the site permanently.

Executive Summary

Rezoning an area of about three acres generally located at E. US 40 Highway and Phelps Road from District (R-80) to District (B2-2). (CD-CPC-2024-00078).

Discussion

The applicant is proposing to rezone the southern three acres of the property which is currently zoned district R80 (residential) to district B2-2 (commercial). The applicant has requested the rezoning to facilitate the sale of the property. The applicant originally requested to rezone the property to B3-2 to match the northern portion of the lot. The Little Blue Valley Area recommendation is a B1 zoning district, which prohibits all vehicle sales and service uses. Staff recommended that the applicant rezone the property to B2-2 which permits some vehicle sales and service uses to allow for future development of the site while also prohibiting more intensive uses that could detrimentally impact the adjacent residential district. To provide a natural buffer between the subject property and adjacent neighborhood, the applicant will leave the 75' of the southern area of the property as R-80 which prohibits intensive land uses.

- This case was first heard by the CPC on 7/17/2024 and the Commission voted to continue the case until 8/21/2024 to allow the property owner time to remove the illegally parked vehicles in the southern portion of the property and to resolve all zoning compliance violations.
- The applicant requested a continuance at the 8/21/2024 hearing to provide additional time to remove the illegally parked vehicles.

The City Plan Commission recommended approval for the rezoning with a vote of 6-0.

Fiscal Impact

1. Is this legislation included in the adopted budget? Yes No
2. What is the funding source?

Not applicable as this is a zoning ordinance authorizing the physical development of the property.

3. How does the legislation affect the current fiscal year?

4. Does the legislation have a fiscal impact in future fiscal years? Please notate the difference between one-time and recurring costs.

No fiscal impacted is anticipated.

5. Does the legislation generate revenue, leverage outside funding, or deliver a return on investment?

The rezoning offers more development opportunities, which may generate revenue in the future.

Service Level Impacts

Awarding this grant money will allow local organizations to host events in Kansas City neighborhoods, helping support local businesses, increase resident satisfaction, and impart a sense of community. Combined, all awarded events are expected to attract over 1 million tourists, which contributes to the overall economic well-being of the City.

Other Impacts

1. What will be the potential health impacts to any affected groups?

This legislation will increase recreation opportunities to our residents, which will promote connectivity and community within neighborhoods. Some of the events are held to increase funding to service-based organizations that offer free or reduced services to residents (including homeless shelters, community gardens, insurance, resource centers, etc).

2. How have those groups been engaged and involved in the development of this ordinance?

The funding opportunity was open to the public, and training was provided using neighborhood and community feedback and questions. The funding awards were selected by a committee made up of a variety of residents from all districts and communities.

3. How does this legislation contribute to a sustainable Kansas City?

This project is funded through a tourism tax and gives out grant awards to events, which then in turn promote tourism and spending in our neighborhoods. The funding is self-sustaining when used appropriately.

ORDINANCE NO. 240897

Sponsor: Mayor Pro Tem Ryanna Parks-Shaw

Amending Chapter 20, Code of Ordinances, entitled “Cigarettes,” by renaming it “Tobacco and Nicotine;” repealing Sections 20-1 and 20-18 and replacing them with sections of like number and subject matter; enacting a new Section 20-4, “Sale or distribution of flavored products prohibited,” and new Section 20-5, “Medical and recreational marijuana exempt;” and amending Chapter 50, Code of Ordinances, by repealing Section 50-235 and replacing it with a section of like number and subject matter for the purpose of prohibiting the sale of flavored tobacco, nicotine, and vapor products within the City.

WHEREAS, scientific review by the Tobacco Products Scientific Advisory Committee (TPSAC) and the U.S. Food and Drug Administration (FDA) found marketing of menthol cigarettes likely increases the prevalence of smoking among the entire population, and especially among youth, African Americans, and possibly Hispanic and Latino individuals; and

WHEREAS, 16.8% of adults in Missouri smoke; and

WHEREAS, 19.3% of Missouri high school students report currently using e-cigarettes; and

WHEREAS, although smokers are most likely to use electronic smoking devices such as e-cigarettes, almost a third of current users are nonsmokers, suggesting that e-cigarettes contribute to primary nicotine addiction and to the renormalization of tobacco use; and

WHEREAS, youth reported product flavoring as a top reason for using tobacco within the past 30 days; and

WHEREAS, by adding menthol and other flavorings to tobacco and nicotine products, companies mask the natural harshness and taste of such products, and therefore make it easier to use, harder to quit, and more appealing to youth and new users; and

WHEREAS, the addition of menthol and other flavorings to tobacco and nicotine products increases the risk of addiction for youth;

WHEREAS, the long-term health effects of cigarettes, alternative nicotine products, vapor products, and non-nicotine vapor products have been linked to serious health issues,

including, but not limited to, cancer, stroke, asthma, pulmonary disease, and cardiovascular disease; and

WHEREAS, Kansas City seeks to protect the public health and welfare by reducing accessing to flavored tobacco and alternative nicotine products, making it easier to quit and more difficult to start; NOW, THEREFORE

BE IT ORDAINED BY THE COUNCIL OF KANSAS CITY:

Section 1. That Chapter 20, Code of Ordinances of the City of Kansas City, is hereby amended by changing the title of said chapter to “Tobacco and Nicotine.”

Executive Summary

Amending Chapter 20, Code of Ordinances, entitled "Cigarettes," by renaming it "Tobacco and Nicotine;" repealing Sections 20-1 and 20-18 and replacing them with sections of like number and subject matter; enacting a new Section 20-4, "Sale or distribution of flavored products prohibited," and new Section 20-5, "Medical and recreational marijuana exempt,;" and amending Chapter 50, Code of Ordinances, by repealing Section 50-235 and replacing it with a section of like number and subject matter for the purpose of prohibiting the sale of flavored tobacco, nicotine, and vapor products within the City.

Discussion

This ordinance amends Chapter 20 of the Code of Ordinances to prohibit the sale of flavored tobacco, nicotine, and vapor products within the City limits. The ordinance defines products that may fall under this prohibition, while clarifying that these changes do not regulate marijuana products.

The City currently collects a cigarette stamp tax from retail and whole businesses who sell cigarettes. Cigarette stamp taxes collected for the Fiscal Year 2023-24, commencing on the first day of May 2023, totaled \$1,638,750.

Fiscal Impact

1. Is this legislation included in the adopted budget? Yes No
2. What is the funding source?
None identified
3. How does the legislation affect the current fiscal year?
The Neighborhoods Department estimates that this ordinance will lead to a reduction between 40-60% of tax stamp revenue from FY 2024 collections.

Multiple factors will impact collections, including but not limited to: the percentage of tobacco products that come from specialty stores, business closures, continued sale of tobacco products following the passage of this ordinance, and the percentage of tobacco products that are flavored.

The Finance Department estimates that this ordinance will decrease tax revenues between \$1 million and \$6 million, with a combination of stamp and sales taxes. Currently, vapes and other non-cigarette products are not subject to the cigarette stamp tax.

4. Does the legislation have a fiscal impact in future fiscal years? Please notate the difference between one-time and recurring costs.
Yes, this legislation would decrease both stamp tax and sales tax revenue, with the impact dependent on a variety of factors as identified in question 3 above.
5. Does the legislation generate revenue, leverage outside funding, or deliver a return on investment?
No, this legislation does not generate new revenues.

Other Impacts

1. What will be the potential health impacts to any affected groups?
By eliminating flavored tobacco and vapor products, this should have a positive impact on African American and Hispanic populations, and the youth population as well. As reported by the Campaign for Tobacco-free kids:
 - o Black smokers, both adults and youth, now overwhelmingly prefer menthol cigarettes.
 - o Overall, 85 percent of Black smokers smoke menthol cigarettes.
 - o Most recently, a study analyzing four waves of data from the government's Population Assessment of Tobacco and Health (PATH) study found that among daily smokers, menthol cigarette smokers have 24% lower odds of quitting as compared to non-menthol smokers
 - o Among daily smokers, African American menthol smokers had a 53% lower odds of quitting compared to African American non-menthol smokers
 - o Among the African American community, menthol cigarettes were responsible for 1.5 million extra smokers, 157,000 smoking-related premature deaths and 1.5 million excess life-years lost during 1980-2018. African Americans bear a disproportionate toll of the public health impact of menthol cigarettes. During this time, African Americans represented 15% of extra new smokers, 41% of excess premature deaths and 50% of excess life-years lost, despite only accounting for 12% of the population

- Lung cancer is the second most common cancer in both Black men and women, but it kills more Black Americans than any other type of cancer.⁷⁴ Decreased cessation success due to the popularity of menthol cigarettes among Black Americans likely contributes to this mortality disparity
- According to the latest data from the 2023 National Youth Tobacco Survey, 10.0% of high school students and 4.6% of middle school students - over 2.1 million kids altogether - were current e-cigarette users
- Nearly 40% of high school e-cigarette users are vaping at least 20 days a month and nearly 30% are daily users. In total, over 500,000 middle and high school students are vaping every single day
- The [U.S. Surgeon General](#) has concluded that youth use of nicotine in any form, including e-cigarettes, is unsafe. Nicotine is highly addictive and can harm adolescent brain development, particularly the parts of the brain responsible for attention, memory and learning

An [analysis](#) published February 21, 2024, in the Oxford University Press journal *Nicotine & Tobacco Research* found that bans on the sale of menthol cigarettes can help smokers quit entirely. Researchers examined local bans in the United States, Canada and the European Union, and found that a **quarter of menthol smokers quit smoking after a ban was enacted.**

2. How have those groups been engaged and involved in the development of this ordinance?

N/A

3. How does this legislation contribute to a sustainable Kansas City?
By improving the chances that residents will cut down on tobacco usage and thereby extend their lives.

Executive Summary

Vacating approximately 84,000 square feet of public right-of-way in Zoning District M1-5 (Manufacturing) generally located on Topping Avenue between Stadium Drive and East 32nd Street and directing the City Clerk to record certain documents. (CD-ROW-2024-00015)

Discussion

The right-of-way requested to be vacated is currently an un-improved street which has never been developed. The adjacent land to the west is utilized for junk/salvage yard purposes, while to the north, there are single-family residential areas. To the south, the land includes a public park and various industrial uses.

The vacation is sought to facilitate the development of the site to the east for industrial development. The applicant intends to fully utilize the property located at 5819 E 32nd Street, including the vacation of Topping Avenue. This proposal is part of a broader initiative that includes multiple vacation requests in the vicinity. A development plan will be required because the site is zoned industrial and larger than 10 acres.

The public right-of-way in question accommodates both public and private utilities. Public utilities include KCMO water and sewer mains. The applicant will be required to preserve an easement and protect facilities or relocate all facilities at the applicant's expense as required by the Water Department. Private utilities include AT&T and Eergy services.

Discussion

The street proposed for vacation is currently an unimproved street that terminates in a dead end. The surrounding area includes vacant, platted properties to the east and west, specifically within East Center Blocks 14 through 19. To the south lies a parcel of land owned by the applicant. Single-family residential development lies to the north of East 32nd Street.

The objective of this vacation request is to facilitate the development of the site to the south for industrial purposes. The applicant's intention is to fully utilize the property located at 5819 East 32nd Street. This is a companion case with CD-ROW-2024-00015. This proposal is part of a broader initiative that includes multiple vacation requests in the vicinity. A development plan will be required since the site is zoned industrial and larger than 10 acres.

The public right-of-way in question currently has only private utilities within the right-of-way, specifically AT&T facilities.

The proposed rezoning from R-80 to B2-2 will allow the proposed mixed use building containing 30 residential units and 15,000 square feet of ground floor commercial space. There are 2 access points proposed from Maple Woods College Rd and Old NE Barry Rd (also labeled as Maple Woods College Rd).

The development is generally expected to serve students on the MCC - Maple Woods campus to the south, but will be open and available for rent to the general public.

The approximately 3 acre site will be cleared of all vegetation for the proposed development.
