Executive Summary

Amending Chapter 2, Code of Ordinances, by repealing Section 2-1954 entitled "Fund balance and reserve policy" and enacting in lieu thereof a section of like number and subject matter; and directing the City Manager to require compliance with City partner agency policies for all relevant City contracts entered into or renewed.

Discussion

This legislation amends Chapter 2 of the Code of Ordinances, by simplifying language within the section, differentiating between various levels of fund balance and what each can be used for, defines specific and appropriate uses of General Fund fund balance amounts, adds a contingent appropriation to the Capital Improvements fund, outlines fund balance reserve targets for certain funds, and specifies fund balance targets for the City's partner agencies.

A strong fund balance is critical to weathering financial strains such as economic downturns, emergency capital repairs, or volatility in revenues and expenditures. Additionally, a strong fund balance is a focal point of credit rating agencies and investors. The Government Fiscal Officer's Association (GFOA) recommends a reserve of no less than two months regular general fund operating expenditures for reserves; Moody's Investors Service recommends a fund balance between 15% and 30% of revenues.
