Petition to Oppose the Proposed Rental Development Near Staley Hills

A 177-unit rental complex called *The Collection at Staley Hills* has been proposed in our neighborhood.

The site plan includes **parking space for up to 424 vehicles**, meaning hundreds of additional cars will be entering and exiting our area daily; significantly increasing **traffic congestion**, **safety risks**, and **wear on local roads**.

With 2 to 4-bedroom units planned, this development could bring **up to 1,000 new residents** to a relatively small acreage. This is a dramatic population increase that would put **immense strain on our schools**, which are already near or at capacity.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

On top of all the reasons that this should not be developed our schools are already crowded. Adding this would overflow our schools and class sizes and is not what's best for the area.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

Petition to Oppose the Proposed Rental Development Near Staley Hills

A 177-unit rental complex called *The Collection at Staley Hills* has been proposed in our neighborhood.

The site plan includes **parking space for up to 424 vehicles**, meaning hundreds of additional cars will be entering and exiting our area daily; significantly increasing **traffic congestion**, **safety risks**, and **wear on local roads**.

With 2 to 4-bedroom units planned, this development could bring **up to 1,000 new residents** to a relatively small acreage. This is a dramatic population increase that would put **immense strain on our schools**, which are already near or at capacity.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

Placing a high-density, cheaply manufactured rental development within blocks of well-established, well regulated and restricted owner-occupied communities-many with homes exceeding $1 million—undermines the planning and cohesion of the area.

OPTIONAL:
Questions you would like addressed at the public city council meeting on Wednesday, July 16.

Now that The Park of Staley Hills (which borders the proposed developement) has been established with high end homes- What measures are being taken to ensure architectural compatibility? Why would Hunt Midwest sell estate lots and then build a tiny home community next to it?

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

Petition to Oppose the Proposed Rental Development Near Staley Hills

A 177-unit rental complex called *The Collection at Staley Hills* has been proposed in our neighborhood.

The site plan includes **parking space for up to 424 vehicles**, meaning hundreds of additional cars will be entering and exiting our area daily; significantly increasing **traffic congestion**, **safety risks**, and **wear on local roads**.

With 2 to 4-bedroom units planned, this development could bring **up to 1,000 new residents** to a relatively small acreage. This is a dramatic population increase that would put **immense strain on our schools**, which are already near or at capacity.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

I am in agreement with this petition as it is formatted. This type of dwelling is not consistent with what was intended and appears to be a money grab, rather than a well-thought finish to the neighborhoods we call home. To those who think there is no traffic because people work from home, show up when the high school has students arriving or departing.

We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

Petition to Oppose the Proposed Rental Development Near Staley Hills

A 177-unit rental complex called *The Collection at Staley Hills* has been proposed in our neighborhood.

The site plan includes **parking space for up to 424 vehicles**, meaning hundreds of additional cars will be entering and exiting our area daily; significantly increasing **traffic congestion**, **safety risks**, and **wear on local roads**.

With 2 to 4-bedroom units planned, this development could bring **up to 1,000 new residents** to a relatively small acreage. This is a dramatic population increase that would put **immense strain on our schools**, which are already near or at capacity.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

Already too dense in the area with existing Staley HS traffic. People cut through residential streets already, taking any route they can find, speeding 40+ mph with no regard for residents and young kids. Way too dense of a development plan here. More suited for larger single family lots like we have, or not residential at all.

OPTIONAL:
Feel free to share any personal concerns or additional information you have about the proposed development.

I think a single-family home, like the ones in Staley Hills or Staley Villas, would be more suitable.

OPTIONAL:
Questions you would like addressed at the public city council meeting on Wednesday, July 16.

Without new roads , traffic’s will be more congested.

Petition to Oppose the Proposed Rental Development Near Staley Hills

A 177-unit rental complex called *The Collection at Staley Hills* has been proposed in our neighborhood.

The site plan includes **parking space for up to 424 vehicles**, meaning hundreds of additional cars will be entering and exiting our area daily; significantly increasing **traffic congestion**, **safety risks**, and **wear on local roads**.

With 2 to 4-bedroom units planned, this development could bring **up to 1,000 new residents** to a relatively small acreage. This is a dramatic population increase that would put **immense strain on our schools**, which are already near or at capacity.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

Petition to Oppose the Proposed Rental Development Near Staley Hills

A 177-unit rental complex called *The Collection at Staley Hills* has been proposed in our neighborhood.

The site plan includes **parking space for up to 424 vehicles**, meaning hundreds of additional cars will be entering and exiting our area daily; significantly increasing **traffic congestion**, **safety risks**, and **wear on local roads**.

With 2 to 4-bedroom units planned, this development could bring **up to 1,000 new residents** to a relatively small acreage. This is a dramatic population increase that would put **immense strain on our schools**, which are already near or at capacity.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

With 2 to 4-bedroom units planned, this development could bring **up to 1,000 new residents** to a relatively small acreage. This is a dramatic population increase that would put **immense strain on our schools**, which are already near or at capacity.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

Petition to Oppose the Proposed Rental Development Near Staley Hills

A 177-unit rental complex called *The Collection at Staley Hills* has been proposed in our neighborhood.

The site plan includes **parking space for up to 424 vehicles**, meaning hundreds of additional cars will be entering and exiting our area daily; significantly increasing **traffic congestion**, **safety risks**, and **wear on local roads**.

With 2 to 4-bedroom units planned, this development could bring **up to 1,000 new residents** to a relatively small acreage. This is a dramatic population increase that would put **immense strain on our schools**, which are already near or at capacity.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

Our current infrastructure is not set up to accommodate that many new residents and that many new vehicles. Traffic will be an issue.

Major road safety concerns!! Streets cannot support traffic today when school is in session. It can be backed up west almost to north oak. How can u support 177 more homes and familes? Short answer It can't. Engineers solution for Roundabout with paint and signs will not fix traffic flow. The lack of communication from the developers to the schools to support the growth. The high school and grade school cannot handle the growth. All this shows the eagerness to rush this thru vs planning it out thoroughly.

Current infrastructure does not facilitate an additional 1000 vehicles. Increased traffic and increase congestion are a major concern. This includes safety for children in the area to include nearby school zones.

Concerns include increased traffic & congestion in area without infrastructure for proposed population increase. Concerned for great increase to school populations that could overburden schools & reduce quality of service. Concerned Proposed project could have financial consequences with population increase without necessary infrastructure in addition to the project being out of character and price point with surrounding neighborhoods, which could negatively impact value of surrounding homes.

A 177-unit rental complex called *The Collection at Staley Hills* has been proposed in our neighborhood.

The site plan includes **parking space for up to 424 vehicles**, meaning hundreds of additional cars will be entering and exiting our area daily; significantly increasing **traffic congestion**, **safety risks**, and **wear on local roads**.

With 2 to 4-bedroom units planned, this development could bring **up to 1,000 new residents** to a relatively small acreage. This is a dramatic population increase that would put **immense strain on our schools**, which are already near or at capacity.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

Our water and water pressure are already not up to par for the city, adding this many homes to the area concerns us even further. Emergency services in our area are very delayed already, adding this many homes, people and vehicles will add additional safety concerns and emergency services needs and the services aren't there as is. Traffic in the area is a huge concern. People, including myself as well as walking students, use the sidewalks and crosswalks in our area. It's already scary due to the lack of attention drivers have. Adding more traffic and more potential walkers is a huge safety concern for us, and then back to my last point on emergency services. Lastly, I work in real estate and deal with all levels of rentals (from subsidized to high end). Rentals always bring additional issues from lack of maintenance, overcrowding due to high rent prices (several sharing one unit), and somehow, it always brings added violence. We don't have any infrastructure to add this many homes to a tiny area where this many homes don't belong. We live in this area, and paid to live in this area due to its beauty, safety and neighborhood composition of mostly owner occupied homes with owners who truly care about our community.

Petition to Oppose the Proposed Rental Development Near Staley Hills

A 177-unit rental complex called *The Collection at Staley Hills* has been proposed in our neighborhood.

The site plan includes **parking space for up to 424 vehicles**, meaning hundreds of additional cars will be entering and exiting our area daily; significantly increasing **traffic congestion**, **safety risks**, and **wear on local roads**.

With 2 to 4-bedroom units planned, this development could bring **up to 1,000 new residents** to a relatively small acreage. This is a dramatic population increase that would put **immense strain on our schools**, which are already near or at capacity.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

- ( ) Village on the Green Townhomes
- ( ) Benton House Residents
- ( ) Staley Meadows
- ( ) Staley Heights
- ( ) Other: _____

OPTIONAL:
Feel free to share any personal concerns or additional information you have about the proposed development.

The proposed 177-unit rental complex, The Collection at Staley Hills, is not a suitable addition to our neighborhood for several important reasons:

1. Overwhelming Traffic Impact

With over 400 parking spaces planned, this development could add hundreds of cars to our streets daily. Our roads were not built to support this level of traffic. Increased congestion will make commuting slower, more dangerous, and frustrating for current residents, especially during school drop-off and pick-up hours.

2. Strain on Schools and Services

Our local schools are already operating near or at capacity. Adding up to 1,000 new residents, many of them children, would stretch resources even thinner—affecting classroom sizes, student support, and the overall quality of education. Emergency services, already working hard to meet growing demand, would face longer response times due to added density and traffic.

3. Disruption of Neighborhood Character

Staley Hills and the surrounding areas are established, primarily single-family home neighborhoods with a strong sense of community. Introducing a high-density rental complex into a low-density, suburban environment would alter the character and feel of our area. It may also lead to increased turnover and reduced long-term investment from residents.

4. Infrastructure Isn’t Built for This

Our roads, sewer systems, and utilities were not designed to handle this level of density. Approving this project without major infrastructure upgrades risks long-term maintenance issues and taxpayer-funded fixes for problems the development creates.

5. Better Alternatives Exist

We are not against growth—we support smart, responsible growth that aligns with the space and resources available. Instead of forcing dense rental housing into an area not built for it, the city could focus on expanding existing single-family developments like Staley Hills and Staley Hills Villas, which would better match the character and capacity of our community.

6. Slippery Slope for Future Development

If this project is approved, it sets a precedent for future high-density projects in areas not zoned or suited for them. Once the door is open, more developments like this could follow, further eroding the planning integrity of our neighborhood.

_____

We ask city officials and the planning commission to listen to the voices of the people who live here. The Collection at Staley Hills is not the right fit for this area. We urge you to deny this proposal and instead work toward solutions that protect our schools, roads, and the quality of life we've built here.

Regardless of how many times the word "luxury" might be used to describe these rental slab homes, they are not what many of us in the area were investing in when we chose this neighborhood. Planting a few trees and installing a gate on one of the entrances will not hide what it really is or change the terrible impact it will have on the streets and schools in our area.

OPTIONAL:
Questions you would like addressed at the public city council meeting on Wednesday, July 16.

Hunt Midwest has had strict square footage/style/color/garage requirements for all of us that have invested (and are still investing) in the "luxury lots" that they have been promoting and selling in the area, even suggesting homes that can have "Carriage or Pool Houses". Has research been done to examine the financial impact that will be done to these individuals who will now be living next door to 177 standardized rental tract homes with only two exits to our main parkway?

Petition to Oppose the Proposed Rental Development Near Staley Hills

A 177-unit rental complex called *The Collection at Staley Hills* has been proposed in our neighborhood.

The site plan includes **parking space for up to 424 vehicles**, meaning hundreds of additional cars will be entering and exiting our area daily; significantly increasing **traffic congestion**, **safety risks**, and **wear on local roads**.

With 2 to 4-bedroom units planned, this development could bring **up to 1,000 new residents** to a relatively small acreage. This is a dramatic population increase that would put **immense strain on our schools**, which are already near or at capacity.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

Traffic is already heavy in our area. Wear and tear on our roads is a concern. The traffic on N Woodland is dangerous already when it narrows and goes to two skinny lanes. Also the intersection of N Woodland and Cookingham is already dangerous with many accidents since the road is narrow and there are now traffic lights, just stop signs on N Woodland.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

OPTIONAL:
Feel free to share any personal concerns or additional information you have about the proposed development.

I am concerned that schools will be forced to change borders due to a mass increase in new students, when our schools are already at max capacity with the current population. Since 2018, borders have changed twice. This causes stress on small children, and parent-homeowners who chose to purchase homes based on specific schools.

OPTIONAL:
Questions you would like addressed at the public city council meeting on Wednesday, July 16.

Have they conducted studies regarding the impact on the current schools within the boundaries and how the mass increase in population will affect surrounding communities?

Petition to Oppose the Proposed Rental Development Near Staley Hills

A 177-unit rental complex called *The Collection at Staley Hills* has been proposed in our neighborhood.

The site plan includes **parking space for up to 424 vehicles**, meaning hundreds of additional cars will be entering and exiting our area daily; significantly increasing **traffic congestion**, **safety risks**, and **wear on local roads**.

With 2 to 4-bedroom units planned, this development could bring **up to 1,000 new residents** to a relatively small acreage. This is a dramatic population increase that would put **immense strain on our schools**, which are already near or at capacity.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

Petition to Oppose the Proposed Rental Development Near Staley Hills

A 177-unit rental complex called *The Collection at Staley Hills* has been proposed in our neighborhood.

The site plan includes **parking space for up to 424 vehicles**, meaning hundreds of additional cars will be entering and exiting our area daily; significantly increasing **traffic congestion**, **safety risks**, and **wear on local roads**.

With 2 to 4-bedroom units planned, this development could bring **up to 1,000 new residents** to a relatively small acreage. This is a dramatic population increase that would put **immense strain on our schools**, which are already near or at capacity.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

Very concerned about the traffic and drop in property values. The only study done was NOT completed during the school year which is very misleading and inappropriate.

OPTIONAL:
Questions you would like addressed at the public city council meeting on Wednesday, July 16.

Roads were not constructed to support this subdivision with a high school and elementary school traffic with only one way in and one way out. The second way out takes to 435 and is not used by barely anyone in the district. Has the Superintendent of NKC Schools been involved in this planning and agrees the district can support this density?

Home value decreasing is not optimal. Traffic on shoal creek parkway is already terrible and adding 1,000 more people will make it nearly impossible to drive it. ESPECIALLY during school times

With 2 to 4-bedroom units planned, this development could bring **up to 1,000 new residents** to a relatively small acreage. This is a dramatic population increase that would put **immense strain on our schools**, which are already near or at capacity.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

OPTIONAL:
Feel free to share any personal concerns or additional information you have about the proposed development.

I'm reaching out with concern regarding the proposed development of single-family rental homes at Shoal Creek Parkway and Maplewoods Parkway. Traffic in this area is already a significant issue, and adding a high-density rental development will only increase congestion and safety risks.

Additionally, many residents are worried about the potential impact on property values. Having a large rental community directly across the street from established owner-occupied homes raises serious concerns about long-term neighborhood stability and investment value.

We ask that you consider these impacts carefully before allowing this project to move forward.

OPTIONAL:

Questions you would like addressed at the public city council meeting on Wednesday, July 16.

Has consideration been given to the impact of the traffic - which is already a real problem especially during the school year with all the young drivers.

What will the minimum rent be for these units. And what are the qualifications for the renters? Income levels?

I'm concerned of the amount of traffic that will increase in the area with such a dense population. I'm concerned about traffic cutting through Staley Hills to avoid traffic on Shoal Creek and Maple Woods Parkway especially during school drop off and pickup times at the schools just down the road. I'm also concerned about parking and whether there could be overflow if the spaces within are not adequate for residents of The Collection and their guests- that it will overflow onto Maple Woods/Woodland and Shoal Creek and into nearby developments and become a safety hazard for traffic trying to navigate by the parked cars along the road.

Petition to Oppose the Proposed Rental Development Near Staley Hills

A 177-unit rental complex called *The Collection at Staley Hills* has been proposed in our neighborhood.

The site plan includes **parking space for up to 424 vehicles**, meaning hundreds of additional cars will be entering and exiting our area daily; significantly increasing **traffic congestion**, **safety risks**, and **wear on local roads**.

With 2 to 4-bedroom units planned, this development could bring **up to 1,000 new residents** to a relatively small acreage. This is a dramatic population increase that would put **immense strain on our schools**, which are already near or at capacity.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

The schools are already overwhelmed up here and this is not the time to add this type of housing in this area. We already have few police that patrol the area and the times for 911 to answer and reach our area are slow as it is.

OPTIONAL:
Questions you would like addressed at the public city council meeting on Wednesday, July 16.

Where are the kids going to go school? The schools up here are already overwhelmed.

Shoal Creek already is backed up in the mornings when I try to get to the 435 South between busses, students, parents, and commuters. We do not need to add another 400 cars into this mix. Kids will be late to the high school and people will have to leave even earlier to get to the city then we already do

OPTIONAL:
Questions you would like addressed at the public city council meeting on Wednesday, July 16.

There is already a new apartment complex going up at the end of Shoal Creek and the 169. Why do we need another complex? Find another area to build our area and schools are busting we don't need this.

A 177-unit rental complex called *The Collection at Staley Hills* has been proposed in our neighborhood.

The site plan includes **parking space for up to 424 vehicles**, meaning hundreds of additional cars will be entering and exiting our area daily; significantly increasing **traffic congestion**, **safety risks**, and **wear on local roads**.

With 2 to 4-bedroom units planned, this development could bring **up to 1,000 new residents** to a relatively small acreage. This is a dramatic population increase that would put **immense strain on our schools**, which are already near or at capacity.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

OPTIONAL:
Feel free to share any personal concerns or additional information you have about the proposed development.

Woodland/Maplewoods Parkway was sold to us as it was going to be a multiple lane parkway which it is NOT! It is a single lane each direction. For it to be a parkway it has to be multiple lanes. Then Shoal Creek Parkway construction has stopped entirely. Having a large apartment complex put into our neighborhood is going to be an increase strain on our roads which is need of an update. How about the city starts with the infrastructure first then building all these homes then laying the ground work such as roads and schools. Staley, Bell Prairie, Fox Hill, Northview, Gateway, and New Mark are already bursting at the seams with children. Let's not over crowd our wonderful schools we have in the Northland. The main reason why people want to come to the northland is because it is NOT Johnson County and it has that small town feel. I vote an Outstanding NO on the build of this apartment complex.

OPTIONAL:
Questions you would like addressed at the public city council meeting on Wednesday, July 16.

When is the completion of Shoal Creek Parkway going to start and Why wasn't Maplewoods/Woodland not built to accommodate this type of traffic?

This level of density is too burdensome on the adjacent roadways and would significantly alter the character of the Staley collection of neighborhoods, would place additional burden on Bell Prairie ES and Staley HS and is not in keeping with the established precedent of density and scale of nearby development. This proposal would result in development that is out of character with the immediate surroundings. A much less dense multi-family development with mixture of uses would be more appropriate.

OPTIONAL:
Questions you would like addressed at the public city council meeting on Wednesday, July 16.

Staff should not support this level of density in this established neighborhood zone.

Feel free to share any personal concerns or additional information you have about the proposed development.

Have any impact studies been performed? With that many new residents in the area, I'd like to know the anticipated increase in enrollment to Staley High School, Bell Prairie, New Mark Middle School, and Gateway Middle School. I'd also like to know the estimated increase in traffic using the roundabout at the intersection of Shoal Creek Pkwy and Woodland Ave. At peak times, such as start and end of school days, there is already SIGNIFICANT backup on Shoal Creek, including houses in Staley Hills subdivision who cannot access their driveways which connect to Shoal Creek Pkwy.

OPTIONAL:
Questions you would like addressed at the public city council meeting on Wednesday, July 16.

What are the results of impact studies done on school enrollment and traffic congestion?

OPTIONAL:
Feel free to share any personal concerns or additional information you have about the proposed development.

My backyard faces the intersection of Shoal Creek Parkway and Harrison. This is an extremely dangerous intersection already with the considerable traffic during before and after school ours, as many vehicles do not stop at the stop sign at the same time multiple neighborhood children are walking to school. I fear that increased vehicle injuries and possible death would become more likely. This could create so many tragedies.

OPTIONAL:
Questions you would like addressed at the public city council meeting on Wednesday, July 16.

If passed, would the city create better safety measures on shoal creek parkway and busier neighborhood roads, such as speed humps?

With 2 to 4-bedroom units planned, this development could bring **up to 1,000 new residents** to a relatively small acreage. This is a dramatic population increase that would put **immense strain on our schools**, which are already near or at capacity.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

OPTIONAL:
Feel free to share any personal concerns or additional information you have about the proposed development.

Shoal Creek is already a speedway, with no traffic laws being enforced. Adding additional traffic & noise to the area will drastically depreciate the value of the single dwelling homes nearby. In addition to the above, this type of housing units bring more crime & concerns of this nature.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

Petition to Oppose the Proposed Rental Development Near Staley Hills

A 177-unit rental complex called *The Collection at Staley Hills* has been proposed in our neighborhood.

The site plan includes **parking space for up to 424 vehicles**, meaning hundreds of additional cars will be entering and exiting our area daily; significantly increasing **traffic congestion**, **safety risks**, and **wear on local roads**.

With 2 to 4-bedroom units planned, this development could bring **up to 1,000 new residents** to a relatively small acreage. This is a dramatic population increase that would put **immense strain on our schools**, which are already near or at capacity.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

Crime increasing, safety of children

OPTIONAL:
Questions you would like addressed at the public city council meeting on Wednesday, July 16.

Obviously this type of housing complex will lower our property values. We have invested several hundred thousand dollars. This feels like our investment is being stolen. Please honestly address this concern.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

Petition to Oppose the Proposed Rental Development Near Staley Hills

A 177-unit rental complex called *The Collection at Staley Hills* has been proposed in our neighborhood.

The site plan includes **parking space for up to 424 vehicles**, meaning hundreds of additional cars will be entering and exiting our area daily; significantly increasing **traffic congestion**, **safety risks**, and **wear on local roads**.

With 2 to 4-bedroom units planned, this development could bring **up to 1,000 new residents** to a relatively small acreage. This is a dramatic population increase that would put **immense strain on our schools**, which are already near or at capacity.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

Petition to Oppose the Proposed Rental Development Near Staley Hills

A 177-unit rental complex called *The Collection at Staley Hills* has been proposed in our neighborhood.

The site plan includes **parking space for up to 424 vehicles**, meaning hundreds of additional cars will be entering and exiting our area daily; significantly increasing **traffic congestion**, **safety risks**, and **wear on local roads**.

With 2 to 4-bedroom units planned, this development could bring **up to 1,000 new residents** to a relatively small acreage. This is a dramatic population increase that would put **immense strain on our schools**, which are already near or at capacity.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

I have a concern with N Euclid being open to more traffic as well as NE 111th St. Our property is really close to this intersection. I would like to see additional Villas built in this area as opposed to congested rentals.

This sounds like way too many units crammed into a small space. There is already heavy traffic in that area, especially before and after school.

Feel free to share any personal concerns or additional information you have about the proposed development.

I agree with everything the petition states. My first choice would be continuing the existing neighborhoods of single family-owned homes, villas, and/or more amenities for the existing community (club house, second pool, etc.).

My second choice would be continue with the current commercial zoning, welcoming family friendly, locally owned small businesses (coffee shop, bakery, Trader Joe's, etc.) on the ground floor and an event space atop, ideally all holding hours that end by 10 PM.

OPTIONAL:

Questions you would like addressed at the public city council meeting on Wednesday, July 16.

1. If passed, how long does Hunt-Midwest plan to retain ownership of these nearly 200 rentals and maintain the promised upkeep? What is to happen if ownership changes; will the promised upkeep continue? Could future rezoning occur?

2. How could we ensure our homes maintain their value if this project moves forward and the rental properties decline in quality?

3. Is adding this many additional people and an increased traffic flow wise for the adjacent schools, retirement homes, an assisted living facility, and a neighborhood full of young children? What assurances do we have that the infrastructure required to maintain such additions will be supported by the city, as stated during the virtual neighborhood meeting facilitated by Hunt-Midwest?

OPTIONAL:
Feel free to share any personal concerns or additional information you have about the proposed development.

I am concerned by the lack of stakeholder involvement in this plan. Beyond legally-required informational presentations, there appears to be little interest in actually including those directly affected by this proposal. As stated on the virtual neighborhood meeting facilitated by Hunt-Midwest, the school district was never even contacted, yet there is serious concern that the school district may not be able to accomodate an influx in population of this size. When suggestions of polling or surveys of direct stakeholders were mentioned, they were dismissed as "not something we do." It is clear that there is community concern with this plan as is, yet the requests for more single-family owned homes as an alternative appear soundly rejected in favor of adding almost 200 rentals to the property (should the rezoning be approved).

The site plan includes **parking space for up to 424 vehicles**, meaning hundreds of additional cars will be entering and exiting our area daily; significantly increasing **traffic congestion**, **safety risks**, and **wear on local roads**.

With 2 to 4-bedroom units planned, this development could bring **up to 1,000 new residents** to a relatively small acreage. This is a dramatic population increase that would put **immense strain on our schools**, which are already near or at capacity.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

Our infrastructure cannot handle a project of this magnitude in the immediate area. Rentals historically introduce higher crime/ drug rates. Again additional stain on an already depleted law enforcement.

This would cause to much traffic in an area already congested with the usual school traffic. It will also hurt the resale value of our homes. Single family homes is the only development that should be allowed. The pond behind our home has been damaged enough by Hunt Midwest over the last nineteen years for no apparent reason, it doesn't need anymore damage. All the tree's and dirt that were removed ruined the pond.

OPTIONAL:
Questions you would like addressed at the public city council meeting on Wednesday, July 16.

Would you like this to go in your backyard??????? We like a little peace and quiet when we sit on our patio. That will all go away. Would you like it in your backyard?

I'm concerned we do not have the capacity to handle that many new residents in such a small area. The additional traffic and danger it would bring to our streets where our kids play (one of the reasons we chose to live here was the surrounding area). I understand development happens, and growth is unavoidable. But it would be better to have homes that are more similar homes already in the area, than to try and cram too much in a small area.

OPTIONAL:
Questions you would like addressed at the public city council meeting on Wednesday, July 16.

What would their plan be for the growth in traffic and school capacities.

Petition to Oppose the Proposed Rental Development Near Staley Hills

A 177-unit rental complex called *The Collection at Staley Hills* has been proposed in our neighborhood.

The site plan includes **parking space for up to 424 vehicles**, meaning hundreds of additional cars will be entering and exiting our area daily; significantly increasing **traffic congestion**, **safety risks**, and **wear on local roads**.

With 2 to 4-bedroom units planned, this development could bring **up to 1,000 new residents** to a relatively small acreage. This is a dramatic population increase that would put **immense strain on our schools**, which are already near or at capacity.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

I have concerns with how this would affect the student populations in the surrounding schools. The quick growth may negatively affect the capacity in those buildings. Also, new student drivers going to Staley and already heavy traffic with extracurricular activities.

Traffic. Currently Shoal Creek and Woodland/Maplewoods is not equipped to handle this level of new traffic. Any “study” that suggests otherwise without significant improvements first clearly didn't observe before and after Staley and Bell Prairie release or school athletic events in the evening and on weekends.

OPTIONAL:
Questions you would like addressed at the public city council meeting on Wednesday, July 16.

Was a proper traffic study conducted during before and after school during high volume traffic? If not, consideration should be postponed to allow that to occur first.

Are there immediate plans to further develop Woodland and fix the highly dangerous intersection at Woodland and Cookingham?

The Township Apartments off North Oak have not been well maintained and have significantly increased crime in our area. My family and I visited a friend there last year. We played tennis on the apartment courts and witnessed a gang of 18-20 year olds pull up in several cars. The group began cursing and fighting. The police had to be called and this is just one of several incidents that happen regularly on that property. I hope the land can be left for the residents of this area to enjoy. If housing should be built there. Let it be homes that families can purchase and own themselves. Housing that will bring value to our commmunity. Long-term track records for apartment complexes are awful. I have not even mentioned the traffic. I am absolutely against this space bring turned into apartments!

Petition to Oppose the Proposed Rental Development Near Staley Hills

A 177-unit rental complex called *The Collection at Staley Hills* has been proposed in our neighborhood.

The site plan includes **parking space for up to 424 vehicles**, meaning hundreds of additional cars will be entering and exiting our area daily; significantly increasing **traffic congestion**, **safety risks**, and **wear on local roads**.

With 2 to 4-bedroom units planned, this development could bring **up to 1,000 new residents** to a relatively small acreage. This is a dramatic population increase that would put **immense strain on our schools**, which are already near or at capacity.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

- ( ) Other: _____

OPTIONAL:
Feel free to share any personal concerns or additional information you have about the proposed development.

The potential development of over 400 parking spots for rental properties right in the epicenter of a very busy school route will immediately require major infrastructure adjustments that the developers have implied are the responsibility of the city. Hundreds of extra vehicles added to the mix of busses, student drivers, and work traffic will bring this community to a literal standstill.

The developers emphasized this has been a long term plan. I am concerned about the intentions of them maintaining this property long term; what assurances do we have that they will remain the owners and this property won't be sold to others less interested in upholding the hundreds of rental properties to the promised standards.

I am very concerned about the property values of all the Staley Hills and villas residents with hundreds of rental properties planted at the entrance of the neighborhood.

OPTIONAL:

Questions you would like addressed at the public city council meeting on Wednesday, July 16.

Is it true that the city has over $600,000 ready to improve the roads, round-abouts, and other infrastructure needs that will immediately arise, as was stated? Will these funds be sufficient? If yes, will they also include the already needed repairs of Staley Hills neighborhood roads?

Leave the green space. We've already taken the homes from wildlife and we don't need anymore apartments or traffic on Maplewoods or Shoal Creek

It is already a mess trying to get out of the neighborhood in the mornings and mid afternoons with both the high school and elementary school traffic on Staley drive. We have seen an increase in crime and vandalism over the last three years. Adding this many new homes will only increase traffic and crime. This also doesn't align with the vibe of our neighborhood.

OPTIONAL:
Questions you would like addressed at the public city council meeting on Wednesday, July 16.

Why this drastic level of growth? It seems excessive and dangerous. Too many homes for such a small area.

The proposed number of units, living capacity and parking spots is to much in a small location. Additionally, the developers say 424 parking spots means visitors or residents will end up parking on the street and appear trashy. Residents and homeowners have purchased middle to high end homes and do not want home values affected by a large rental area.

OPTIONAL:
Feel free to share any personal concerns or additional information you have about the proposed development.

With the lack of proper development of Maple Parkway and the poor decision to keep it a single lane without a shoulder, there is insufficient infrastructure to support the traffic flow. With this being right next to the high school, the number of young drivers commuting in this level of congestion will pose great risk. The schools are already overflowing with excessive class sizes. We are already paying exorbitant personal property taxes in this area of Kansas City with minimal to no representation or support and unsafe police response time, this will create further strain.

OPTIONAL:
Questions you would like addressed at the public city council meeting on Wednesday, July 16.

I unfortunately will not be available to attend in person, but would be approve my statement being read. I could possibly join via video chat.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

OPTIONAL:
Feel free to share any personal concerns or additional information you have about the proposed development.

I am very concerned with the property value evaluation that this development will bring to our community, not to mention that it's a rental community, which will bring with it those who do not maintain and care for the property, which will also lead to other issues that currently are not regular concerns related to crime.

OPTIONAL:
Questions you would like addressed at the public city council meeting on Wednesday, July 16.

Does this petition even matter, or has the city already made up their mind and will bulldoze this through regardless of the concern of the community members?

Petition to Oppose the Proposed Rental Development Near Staley Hills

A 177-unit rental complex called *The Collection at Staley Hills* has been proposed in our neighborhood.

The site plan includes **parking space for up to 424 vehicles**, meaning hundreds of additional cars will be entering and exiting our area daily; significantly increasing **traffic congestion**, **safety risks**, and **wear on local roads**.

With 2 to 4-bedroom units planned, this development could bring **up to 1,000 new residents** to a relatively small acreage. This is a dramatic population increase that would put **immense strain on our schools**, which are already near or at capacity.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

Petition to Oppose the Proposed Rental Development Near Staley Hills

A 177-unit rental complex called *The Collection at Staley Hills* has been proposed in our neighborhood.

The site plan includes **parking space for up to 424 vehicles**, meaning hundreds of additional cars will be entering and exiting our area daily; significantly increasing **traffic congestion**, **safety risks**, and **wear on local roads**.

With 2 to 4-bedroom units planned, this development could bring **up to 1,000 new residents** to a relatively small acreage. This is a dramatic population increase that would put **immense strain on our schools**, which are already near or at capacity.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

Petition to Oppose the Proposed Rental Development Near Staley Hills

A 177-unit rental complex called *The Collection at Staley Hills* has been proposed in our neighborhood.

The site plan includes **parking space for up to 424 vehicles**, meaning hundreds of additional cars will be entering and exiting our area daily; significantly increasing **traffic congestion**, **safety risks**, and **wear on local roads**.

With 2 to 4-bedroom units planned, this development could bring **up to 1,000 new residents** to a relatively small acreage. This is a dramatic population increase that would put **immense strain on our schools**, which are already near or at capacity.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

This doesn't fit with the surrounding residential areas. Too much traffic, especially at an overloaded traffic circle.

This will increase traffic along with crime. Our crime in this neighborhood is already a concern for many. This needs to be thrown out immediately. The plan does not fit with the alignment of our community. I don't think there is 1 person in the surrounding neighborhoods that will vote yes on this.

Petition to Oppose the Proposed Rental Development Near Staley Hills

A 177-unit rental complex called *The Collection at Staley Hills* has been proposed in our neighborhood.

The site plan includes **parking space for up to 424 vehicles**, meaning hundreds of additional cars will be entering and exiting our area daily; significantly increasing **traffic congestion**, **safety risks**, and **wear on local roads**.

With 2 to 4-bedroom units planned, this development could bring **up to 1,000 new residents** to a relatively small acreage. This is a dramatic population increase that would put **immense strain on our schools**, which are already near or at capacity.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

Petition to Oppose the Proposed Rental Development Near Staley Hills

A 177-unit rental complex called *The Collection at Staley Hills* has been proposed in our neighborhood.

The site plan includes **parking space for up to 424 vehicles**, meaning hundreds of additional cars will be entering and exiting our area daily; significantly increasing **traffic congestion**, **safety risks**, and **wear on local roads**.

With 2 to 4-bedroom units planned, this development could bring **up to 1,000 new residents** to a relatively small acreage. This is a dramatic population increase that would put **immense strain on our schools**, which are already near or at capacity.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

The roads cannot accommodate this level of additional traffic. There will need to be a stoplight at Garfield St. as turning out of Village on The Green will be very difficult during school hours. There are too many dwellings planned for this small area. No garages will make snow removal very challenging in winter.

OPTIONAL:
Questions you would like addressed at the public city council meeting on Wednesday, July 16.

How to address the concerns stated above.

No infrastructure in place to add this many homes without adding significant increase to already congested single lane traffic issues.

Adding rentals in this single family home area is only
"Good" for the developers, not the community or its residents. Make this single family homes and our community will welcome it. Shove this many "rentals" onto a corner lot so that you can line your own pockets?!? No thank you.

OPTIONAL:
Questions you would like addressed at the public city council meeting on Wednesday, July 16.

How does this make our area taxes increase to help our community? It doesn't. It will decrease our land values and thereby decrease taxes you can collect. How does this help the city?

With 2 to 4-bedroom units planned, this development could bring **up to 1,000 new residents** to a relatively small acreage. This is a dramatic population increase that would put **immense strain on our schools**, which are already near or at capacity.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

Petition to Oppose the Proposed Rental Development Near Staley Hills

A 177-unit rental complex called *The Collection at Staley Hills* has been proposed in our neighborhood.

The site plan includes **parking space for up to 424 vehicles**, meaning hundreds of additional cars will be entering and exiting our area daily; significantly increasing **traffic congestion**, **safety risks**, and **wear on local roads**.

With 2 to 4-bedroom units planned, this development could bring **up to 1,000 new residents** to a relatively small acreage. This is a dramatic population increase that would put **immense strain on our schools**, which are already near or at capacity.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

Will cause massive traffic in the area. Shoal Creek is already a busy road.

OPTIONAL:
Questions you would like addressed at the public city council meeting on Wednesday, July 16.

Why is this not being used for new single family homes to be purchased? This is a single family home neighborhood with people who purchased their homes and this would cause a decrease in the value of our homes.

This current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure. It will increase traffic problems, crime and our school populations, which are already too large.

OPTIONAL:
Questions you would like addressed at the public city council meeting on Wednesday, July 16.

Why are you not even trying to match the surrounding community we have with more senior living by extending the Staley Hills villas or more single family homes? This choice does not make sense or fit in this area, and will highly disrupt a great community.

The site plan includes **parking space for up to 424 vehicles**, meaning hundreds of additional cars will be entering and exiting our area daily; significantly increasing **traffic congestion**, **safety risks**, and **wear on local roads**.

With 2 to 4-bedroom units planned, this development could bring **up to 1,000 new residents** to a relatively small acreage. This is a dramatic population increase that would put **immense strain on our schools**, which are already near or at capacity.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

I do not believe this development is a good idea because it will overpopulate the schools in this area and the traffic in this area is already overwhelming. We do not need more cars to this area.

OPTIONAL:
Questions you would like addressed at the public city council meeting on Wednesday, July 16.

Have we looked into what it would do to the public schools in this area. Have we looked into the logistics of the traffic situation. Have we looked into what it would do to the housing market for this area.

This will put a strain on our school and more traffic on an already busy road!

OPTIONAL:
Questions you would like addressed at the public city council meeting on Wednesday, July 16.

What is going to be done to help the flow of traffic? 108th street/Shoal Creek and Woodland are already super busy hard to get out during school hours and with all the new apartments this will make it even harder and dangerous. Why do we need more apartments there is already plenty of apartments around!

Petition to Oppose the Proposed Rental Development Near Staley Hills

A 177-unit rental complex called *The Collection at Staley Hills* has been proposed in our neighborhood.

The site plan includes **parking space for up to 424 vehicles**, meaning hundreds of additional cars will be entering and exiting our area daily; significantly increasing **traffic congestion**, **safety risks**, and **wear on local roads**.

With 2 to 4-bedroom units planned, this development could bring **up to 1,000 new residents** to a relatively small acreage. This is a dramatic population increase that would put **immense strain on our schools**, which are already near or at capacity.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

Petition to Oppose the Proposed Rental Development Near Staley Hills

A 177-unit rental complex called *The Collection at Staley Hills* has been proposed in our neighborhood.

The site plan includes **parking space for up to 424 vehicles**, meaning hundreds of additional cars will be entering and exiting our area daily; significantly increasing **traffic congestion**, **safety risks**, and **wear on local roads**.

With 2 to 4-bedroom units planned, this development could bring **up to 1,000 new residents** to a relatively small acreage. This is a dramatic population increase that would put **immense strain on our schools**, which are already near or at capacity.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

Feel free to share any personal concerns or additional information you have about the proposed development.

Firstly, both Maplewoods Parkway and NE Shoal Creek Parkway are by PARKWAYS. By definition that means to any good engineer there should limited access (driveways and street cuts) onto the parkway. The City has repeatedly disregarded this design rule on both roads! Adding more access cuts will disturb traffic and safety even more. With the traffic these roads see, and speeding high school associated traffic, parking should be prohibited on these parkways also. This poses a serious problem for the development's residents. With the proposed layout and density, there will not be enough on street parking available as planned. Short driveways and densely packed in buildings with not designated parking lots for overflow is very poor urban planning. People who can't find parking will resort to invading the Benton House Parking lot, the Ann Garney Park lots and will be parking across the NE Shoal Creek Parkway. NE Staley Road will be jammed with parked cars and this won't handle very many cars. It will be hazardous for pedestrians to walk back over from NE Staley Road to the development. You can look at Brighton Woods and Brighton Woods North developments which have this parking problem and the dense building spacing is much less than the proposal. There is no public transportation near this area (busses) and the roundabouts nearby including at Maplewoods Parkway and NE Shoal Creek Parkway are excellent for decreasing auto accidents but for both pedestrians and bicycles, this is much more hazardous than signaled intersections.

OPTIONAL:

Questions you would like addressed at the public city council meeting on Wednesday, July 16.

Petition to Oppose the Proposed Rental Development Near Staley Hills

A 177-unit rental complex called *The Collection at Staley Hills* has been proposed in our neighborhood.

The site plan includes **parking space for up to 424 vehicles**, meaning hundreds of additional cars will be entering and exiting our area daily; significantly increasing **traffic congestion**, **safety risks**, and **wear on local roads**.

With 2 to 4-bedroom units planned, this development could bring **up to 1,000 new residents** to a relatively small acreage. This is a dramatic population increase that would put **immense strain on our schools**, which are already near or at capacity.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

OPTIONAL:
Feel free to share any personal concerns or additional information you have about the proposed development.

Lowering property values in the area due to rental property; amount of traffic this would add; appearance of this type of community (many residences in a small area).

OPTIONAL:
Questions you would like addressed at the public city council meeting on Wednesday, July 16.

All of the above

This area is a high end housing market. What this proposal does is jam a bunch of small rentals that don't even have garages. This can only lower the value of the homes in this area.

A 177-unit rental complex called *The Collection at Staley Hills* has been proposed in our neighborhood.

The site plan includes **parking space for up to 424 vehicles**, meaning hundreds of additional cars will be entering and exiting our area daily; significantly increasing **traffic congestion**, **safety risks**, and **wear on local roads**.

With 2 to 4-bedroom units planned, this development could bring **up to 1,000 new residents** to a relatively small acreage. This is a dramatic population increase that would put **immense strain on our schools**, which are already near or at capacity.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

Community Petition: Oppose High-Density Apartment Complex in Our Established Neighborhood

Strong opposition to the proposed apartment complex intended to house 1,000 residents with only 450 parking spaces. This development poses a significant threat to the safety, character, and quality of life in our established, upscale neighborhood.

Our Key Concerns:

1. Severe Traffic and Parking Congestion
   - The complex offers less than one parking space per two residents. This will force overflow parking onto our neighborhood streets, increasing congestion and obstructing driveways.
   - The volume of traffic from hundreds of new vehicles will overwhelm roads not built to handle such density.
2. Strain on Neighborhood Infrastructure
   - A sudden population increase will place unsustainable pressure on our roads, sewage systems, water lines, and emergency services.
   - Frequent wear-and-tear will require costly maintenance, paid for by existing residents.
3. Safety Hazards
   - Narrow, parked-up streets may slow down emergency response times.
   - Increased traffic and on-street parking pose serious risks to pedestrians, children, and cyclists.
4. Decline in Property Values
   - The shift from a low-density, upscale residential area to one bordered by a high-density development may lead to depreciation of property values and reduced buyer appeal.
   - Noise, light pollution, and crowding disrupt the peace and privacy that define our community.
5. Mismatch with Neighborhood Character
   - The scale, style, and density of this complex are incompatible with the architectural and community identity of our neighborhood.
   - Upscale communities prioritize space, tranquility, and aesthetics—values undermined by dense apartment developments.
6. Environmental and Quality-of-Life Impact
   - The development threatens to eliminate green space, reduce tree cover, and worsen stormwater runoff.
   - Increased pavement contributes to the urban heat island effect and worsens air quality.
7. Overcrowded Schools and Services
   - The influx of residents may overburden local schools and public services, reducing the quality of education and availability of community resources.

8. Crime influence.

OPTIONAL:

Questions you would like addressed at the public city council meeting on Wednesday, July 16.

How does this plan align with the current established model for this area?

OPTIONAL:
Feel free to share any personal concerns or additional information you have about the proposed development.

Concerns regarding traffic, noise, response time for medical, police, & fire. Maintenance of property & surroundings will likely be hard to maintain. As they are likely to be difficult to maintain it will potentially lower the value of the Staley area.

OPTIONAL:
Questions you would like addressed at the public city council meeting on Wednesday, July 16.

Answers to the concerns listed.

Petition to Oppose the Proposed Rental Development Near Staley Hills

A 177-unit rental complex called *The Collection at Staley Hills* has been proposed in our neighborhood.

The site plan includes **parking space for up to 424 vehicles**, meaning hundreds of additional cars will be entering and exiting our area daily; significantly increasing **traffic congestion**, **safety risks**, and **wear on local roads**.

With 2 to 4-bedroom units planned, this development could bring **up to 1,000 new residents** to a relatively small acreage. This is a dramatic population increase that would put **immense strain on our schools**, which are already near or at capacity.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

This is a terrible location for this project. This would add significant traffic to an area that's already chaotic during the school year and not just during school hours. The work done on the roundabouts a couple years back would have been a waste because the intersection would need to be light controlled. And possibly turn both shoal Creek and Woodland into 4 lane roads.

OPTIONAL:
Questions you would like addressed at the public city council meeting on Wednesday, July 16.

Has the developer looked at any other land in the area? If so, why was this one chosen over the others? Has the city determined an impact to Shoal Creek and Woodland? Would lights need to be included at the roundabout instead to support the new traffic what is the environmental impact to the nearby pond of construction and wildlife displacement?

The traffic here is crazy. That no report was done during school traffic is disingenuous and to say they have money to work on roads when they couldn't even complete the widening of Woodland to Cookingham makes me questions most everything said. The number of rentals is this small area is almost double the amount of rentals in similar size spaces that they wanted us to use as a comparison. That makes no sense either. If this is to go through I suggest you reduce the amount of rentals.

To surround Villas, an assisted living center and high end homes with bottle necked rental properties is crazy. To divert these people through a retirement community and Assisted Living center is crazier. To think you can put a locked gate on a rental neighborhood that has homes on top of each other seems like a lie. No Fire Dept would ever approve that for a rental community and I think you know that.

The site plan includes **parking space for up to 424 vehicles**, meaning hundreds of additional cars will be entering and exiting our area daily; significantly increasing **traffic congestion**, **safety risks**, and **wear on local roads**.

With 2 to 4-bedroom units planned, this development could bring **up to 1,000 new residents** to a relatively small acreage. This is a dramatic population increase that would put **immense strain on our schools**, which are already near or at capacity.

Additionally, this level of density raises serious questions about the impact on **emergency response times**, **public safety**, and **the character of our single-family community**. We believe this current proposal does not align with the long-term interests of our neighborhood or surrounding infrastructure.

We're not against new growth, we just want growth that makes sense for the space, the infrastructure, and the people it affects. For example, they could extend the Staley Hills and/or Staley Hills Villa homes.

We, the undersigned, urge city officials and the planning commission to **deny or significantly revise this proposal** and prioritize smart, balanced growth that reflects the needs and voice of the surrounding community.

These signatures will be collected to share our opposition at the City Council meeting regarding this proposal on July 16th. This petition reflects community concerns and opinions only and is not intended to defame, misrepresent, or cause harm to any individuals, companies, or entities involved.

Feel free to share any personal concerns or additional information you have about the proposed development.

We already have too many apt complexes in our area that we don't have enough infrastructure for. Maplewoods Pkwy, N Oak, and 169 are the only North/South roadways & the city doesn't keep up with the potholes on N Oak as it is. Adding more traffic to them & more kids to our already overburdened schools is a terrible idea. Enough of the building of apartment complexes already.

OPTIONAL:
Questions you would like addressed at the public city council meeting on Wednesday, July 16.

Will the northland roads be maintained any better than they already are with thousands more using them? Will the rising crime rate and the delayed police response time be addressed? KC sure does love our tax money but they treat the northland like the plague when it comes to public services.
