Discussion

See City Plan Commission staff report attached to this ordinance for more details on the proposed subdivision.

Explanation of CWBP Responses:

Staff selected Housing and Healthy Communities and specifically identified three objectives this ordinance relates to. While staff understands the resulting residential development will be market rate, a critical component of affordability is creation of housing stock at all price points, not just affordable price points. Doing such allows residents to “move up” as they are able, which in turn creates vacancies at lower price points.
