Authorizing amendment No. 6 with Alfred Benesch & Company in the amount of \$297,825.59 for the Front Street Improvement Study and Riverfront Trail I-35 to Chouteau (Project Numbers 89008088 and 89020145) for a total contract amount of \$2,271,325.54 and recognizing this ordinance as having an accelerated effective date. Account string: AL-3520-898014-611040-89008088

Discussion

The Front Street Improvements project has recently restarted the land acquisition for completion of the first phase of the improvements from Chouteau Parkway to the Rail Crossing between N Southern Road and N Topping Avenue. Improvements in this corridor have been in planning or design since 2010. Phasing of these improvements is necessary to maximize the funding that is available. The additional scope in this amendment will allow the consultant to complete that plans based on the new phasing, update the required federal funding documentation and prepare the final plans for bid in the next calendar year.

CREO recently modified the goals to a planned total of 12% MBE/13% WBE and will be carried forward with this amendment by utilizing Schmitz, King & Associates, TREKK Design Group, and Patti Banks Associates, LLC dba Vireo.

Prior Legislation

Service Level Impacts

The reconstruction of the Front Street project will provide a required better access at the NE Chouteau Trafficway and Front Street Intersection while providing better access control for the rest of the improved corridor. This should significantly reduce the travel time for the area and especially for emergency vehicles. It will also include a sidewalk to allow for pedestrian movements.

Other Impacts

1. What will be the potential health impacts to any affected groups?
The installation of the sidewalk will allow for additional exercise benefits that currently do not exist at this location.
2. How have those groups been engaged and involved in the development of this ordinance?
There have been several opportunities for public input into the design. We also have continued to keep the project open for public comment on the website as we complete the plans.
3. How does this legislation contribute to a sustainable Kansas City?
Reducing the travel time will significantly reduce the emissions and allow for better air quality.
4. Does this legislation create or preserve new housing units?
