Dear Members of the City Council,

I am writing for your support in advancing the two pieces of legislation, Ordinance 230613 and Resolution 230618.

As a mother of two small children in Kansas City, Missouri, safe streets are top of mind daily. My family bikes and walks everyday to daycare, groceries, coffee and shops. I worry often about how to keep them safe from busy streets and distracted drivers.

I believe that engineering solutions for infrastructure, such as a road diet, would encourage safer driving behavior. I also would love for the trolley track to be connected! I use the trolley trail daily and believe it is such a wonderful addition to our community. Expanding the trail would give more neighbors access and connect our beautiful city.

Thank you for your consideration.

Regards,
