<input type="checkbox"/> Estimated Cost Breakdown attached - Page 2		<input type="checkbox"/> List of Required Crafts attached - Page 3	

Description of work:

A service line materials inventory is needed to support the revised EPA Lead and Copper Rule. The new Lead and Copper Rule has a requirement for a complete documented inventory of service line materials for both public and private components and a method for the public to look up the information related to their service line. Contract will provide for data/records review, building system to gather missing data with methods for verification of data, and building a public facing interface for public to access the information pertaining to their water service line.

cc: Brian Stapleton
