Subject: Fidelity Security Life does NOT need a 15-year Tax Break!
Date: Wednesday, December 1, 2021 4:06:16 PM

As a 20+ year resident of KCMO, I have yet to see any neighborhood benefit from wasteful TIF monies KCMO city leaders hand out like free money at a broken ATM. It is also shameful when you remind constituents there isn't enough money to fix our roads yet can find a convenient excuse for another wealthy business bailout using taxpayer money.

Ordinary, hard-working KCMO citizens, like myself, do not want more TIFs and CIDs. Our sales tax here in Waldo is one of the highest sales tax rates in America. We want our tax monies spent on necessary infrastructure needs like schools, repaved and repaired roads, etc.

Stop big corporate welfare and make them pay their fair share! Please vote NO on ORDINANCE 211016. Thank you.
