

December 1, 2021

Dear City Council and Honorable Mayor,

The Kansas City Public Schools District Advisory Committee would like to voice our strong support for **Ordinance 211025** which seeks to amend Ordinances 051411, 051412, and 051413 by repealing and reenacting Section 1 of each for the purpose of revising the types of businesses eligible for Enhanced Enterprise Zone incentives.

As parents, teachers and community leaders who actively work to support our Kansas City Public Schools, we are in full support of any measures that would serve to protect our precious funding. We have been losing funds year after year and would not appreciate having yet another deficit be introduced.

Furthermore, we thank you for your consideration and action on this preventative measure to make sure that the Enterprise Zone tool is actually used for jobs (plural) creation.

Sincerely,

Angie Lile
Kansas City Public Schools District Advisory Committee Chair
