---

Hello,

My name is Hunter Pace and I'm writing to voice my support for updating Resolution No. 200005, so that it includes new greenhouse gas reduction goals and is more proactive in helping Kansas City reach its goal of 100% sustainable electricity by 2030. More and more cities across the nation are doing what they can to move towards renewables, and It's crucial that we do what we can now for the wellbeing and health of all our residents, our future generations, and our community.

Thank you for your consideration,

Hunter Garr Pace
