To provide an increase to mowing contractors to cover the increased costs of fuel and to allow them to pay their staff \$15/hour.																																																																											
Discussion (including relationship to other Council actions)																																																																											
The mowing contractors need to increase the pay of their mowers to retain and attract staff. The City has a minimum pay requirement of \$15/hour and the contractors should be able to pay their staff the same. Also, the price of gasoline has significantly increased. This increase to the mowing contractors would cover the increase of fuel and allow the contractors to pay their staff a fair wage.
