Public engagement as required by 88-505-12 does not apply to this request.

CONTROLLING AND RELEVANT CASES

Ordinance No 160865. Amending the Major Street plan by changing the typology for East 63rd Street between Troost Avenue on the east and Baltimore Avenue on the west from Thoroughfare to Established Arterial; and West 63rd Street between Baltimore Avenue on the east and Brookside Boulevard on the west from Activity Street to Established Arterial. (175-S-34)

Ordinance No. 110249.

SUMMARY OF REQUEST

The City Planning and Development Department is proposing to amend the Major Street Plan to update several street name changes and the re-alignment of Tiffany Springs Parkway between N Revere Ave and NW 100th St.

KEY POINTS

- The plan established by the City, pursuant to RSMo 89.480, showing the general alignment and ... classification of streets, highways, and parkways of an ultimate urban arterial network. The purpose of the Major Street Plan is to guide development of the arterial street network and to identify appropriate street right-ofway to be secured at the time of subdivision platting.
- City staff use the Major Street's Plan to enforce the Boulevard and Parkway Standards (88-323)

PROFESSIONAL STAFF RECOMMENDATION

Docket 3 Recommendation

CD-CPC-2021-00189 Approval

BACKGROUND AND PURPOSE

Excerpt from the 2011 Major Street Plan Preface,

"The document considered the City's first official Major Street Plan was adopted in 1972. Since that time, revisions have been made to the plan on an as-needed basis, as new Area Plans have been adopted, specific development plans have moved forward, roadways have been added to or removed from the City's jurisdiction, the Parkway and Boulevard Master Plan has been updated, and constructed roadway alignments have been better reflected. These efforts have allowed the Plan to respond to changing local conditions in various parts of the City. The 2011 update of the Major Street Plan creates a living document, by establishing both a thorough technical underpinning for the Plan, as well as the process to sustain ongoing meaningful updates."

PLANNING PROCESS

The City Plan Commission is the recommending body associated with Area Plan Amendments with City Council acting as the final approver.

PRIMARY PLAN RECOMMENDATIONS (AMENDMENTS)

In early 2021 the Board of Parks and Recreation Commissioners voted to update the alignment of Tiffany Springs Parkway. "A significant amount of new right-of-way will need to be acquired from adjacent property owners based on the current layout for Tiffany Springs Parkway. The proposed alignment will greatly reduce the amount of new right-of-way needed by using the existing street right-of-way designed for NW 100th Street. The proposed alignment for Tiffany Springs Parkway will also accommodate new development being proposed in the area." (Resolution 31531)

Blue Parkway from Elmwood Ave to Swope Parkway, Swope Parkway from Blue Parkway to Volker, and Volker from Swope Parkway to Brookside Boulevard was renamed to Dr. Martin Luther King Jr. Boulevard in early 2021. For staff to effectively analyze existing conditions against the Major Street Plan the name change needs to be reflected in appropriate documents. Street typology is not being changed with the name change.

In 1952, Mill Creek Parkway, which runs north-south W 43rd St to Ward Parkway, J.C. Nichols Parkway. In 2020 J.C. Nichols Parkway was renamed back to Mill Creek Parkway. For staff to effectively analyze existing conditions against the Major Street Plan the name change needs to be reflected in appropriate documents. Street typology is not being changed with the name change.

ANALYSIS

Area Plan Amendment and Rezoning Analysis.

In reviewing and making decisions on proposed zoning map or area plan amendments, the City Planning and Development Director, City Plan Commission, and City Council must consider at least the following factors:

88-515-08-A. Conformance with adopted plans and planning policies;

The proposed amendment does not pose any conflicts with other adopted plans or policies. AN

88-515-08-B. Zoning and use of nearby property;

- Renaming the streets noted above does not change the zoning designations of surrounding properties.
- The re-alignment of Tiffany Springs Parkway is not affecting new property owners. AN

88-515-08-C. Physical character of the area in which the subject property is located;

- Renaming the streets noted above does not change the zoning designations of surrounding properties.
- See map for details about how the Tiffany Springs Parkway re-alignment will affect the physical characteristics of the affected properties. AN

88-515-08-D. Whether public facilities (infrastructure) and services will be adequate to serve development allowed by the requested zoning map amendment;

N/A. AN

88-515-08-E. Suitability of the subject property for the uses to which it has been restricted under zoning regulations;

N/A. AN

88-515-08-F. Length of time the subject property has remained vacant as zoned;

- Mill Creek Parkway and Dr. Martin Luthar King Jr Boulevard have been established for a considerable amount of time.
- The properties surrounding the Tiffany Springs Parkway re-alignment are currently vacant. AN

88-515-08-G. The extent to which approving the rezoning will detrimentally affect nearby properties; and New property owners are not affected by changes proposed in this amendment, thus there are no zoning implications. AN

88-515-08-H. The gain, if any, to the public health, safety, and welfare due to the denial of the application, as compared to the hardship imposed upon the landowner, if any, as a result of denial of the application. See notes above in the "Primary Plan Recommendations" Section. AN

PROFESSIONAL STAFF RECOMMENDATION

Staff recommends the following,

CD-CPC-2021-00189: Approval

Respectfully submitted,

Ahnna Nanoski, AICP Lead Planner
