Subject: Support Ordinance 220961
Date: Tuesday, November 29, 2022 11:48:54 AM

I am a KCMO resident submitting my support for Ordinance #220961. Protecting and restoring our trees is a crucial piece of maintaining a healthy city. Increased tree coverage reduces flooding, contributes to our fight against climate change, creates cleaner air for our kids, and makes for a more beautiful city. Having protections in place to ensure development does not ruin our tree coverage is key for making Kansas City a desirable city.
