---

Hello,

I'd like to voice my support for Ordinance 220961 and KCMO's Urban Forest Master Plan. Trees are important city assets that take decades of investment and only minutes to remove as a result of poor policy and oversight. Developers have a responsibility to steward these assets on their properties (and the City has the responsibility to enforce this) because trees serve the public good. I believe the city will be better off in the long run and as a whole if Ordinance 220961 is passed.

Thank you,

Jacob Ohlhausen
