Dear KCMO,

I walk my dogs all the time in my KCMO neighborhood and am saddened by the trees that get removed and not replaced. Hopefully you realize that tree-lined streets make our neighborhoods more beautiful and more cool in the summer.

Even though I live in a more affluent neighborhood I also feel strongly that those living in neighborhoods with lower incomes also have beautiful tree-lined streets. It's so much cooler in the shade of large trees!

Thanks you.
