To whom it may concern

I am a resident in the River Market who is writing to raise my concern over the construction of the City Harvest project. To erect a structure of this size and scale in this community seems irresponsible, at best. This project does not preserve the value and tradition of this community. It in fact does the opposite.

I am not apposed to new development in this great community but I do appose construction that will negatively impact property values, tourism and merchant prosperity. The height of this structure and displacement of parking will do this.

Please deny the approval of this project as is.
