

To whom it may concern:

I am 92 years old, have lived in SEKC since 1978 and am very active in my community. I am writing today to ask you to vote **no** on **230815** Rezoning an area of about 7 acres on East Bannister Road and Marion Park Drive to allow for another gas station, convenience store and fast food joint. I would also like to request that you vote **no on 230818** Approving an Amendment to the Hickman Mills Area Plan.

Hickman Mills is a community working to improve living conditions for all. Another gas station that will only employ 15 people is not to our benefit! A truck stop that will add pollution to our community is not to our benefit! Parking for 22 semi-trucks and or trailers is not to our benefit! The cabs driving on our residential streets will not be to our benefit!

You as a committee or as a city council member, may be looking at the tax revenue for the city. There are other ways to get this revenue. Enforce the ordinances, rules and laws that are in place now. Verify that ALL businesses are licensed! Do not saddle this community with another store that sells liquor. We pick up countless liquor bottles during street clean up events!

Please vote NO on 230815 & 230818.
