88-327 COMMUNICATIONS SERVICE ESTABLISHMENTS

88-327-01 PURPOSE AND APPLICABILITY

The purpose of these standards is to permit communications service establishments in more districts due to their limited impact on adjacent properties while also acknowledging that such uses may negatively impact pedestrian-oriented areas of the city due to the relative lack of pedestrian traffic they generate. These standards allow the uses in more districts when the impact is minimized.

88-327-02 IN DISTRICT R-80

Communications service establishments shall not exceed 50,000 square feet in floor area unless approved by special use permit in accordance with 88-525.

88-327-03 IN B & D DISTRICTS

1. Communications service establishments shall not occupy the ground floor of any building with street frontage. For the purposes of this section, a building with street frontage is any building located within 50 feet of a street right-of-way line.

-
2. Communications service establishments shall not exceed 100,000 square feet in floor area unless approved by special use permit in accordance with 88-525.
