**BUDGET MESSAGES:**

The purpose of the District is to provide funding for demolition and the construction of certain improvements and the provision of certain services within the District's boundaries. The improvements initially contemplated include demolition of existing structures, site work, grading, infrastructure improvements, parking improvements/structures, additional improvements/structures, utility improvements, right-of-way improvements, landscaping, lawns, and trees, as well as any other improvements (the "Improvements") or services (the "Services") permitted by the CID Act. It is intended that the Improvements will remediate existing blighting conditions within the District to bring it to its highest and best use. The particular items included within the Improvements may be modified from those listed herein from time to time, and the costs of the Improvements to be financed by the District shall include all associated design, architecture, engineering, financing costs incurred to finance such Improvements, legal and administrative costs of same. The District may also provide funding for the District's formation and its ongoing operation and administration costs on an annual basis

The Wallstreet Garage Community Improvement District was established by the City Council of Kansas City, Missouri on June 11, 2020. The District was formed for the purposes of providing revenue sources to assist with and support the financing of the costs of certain improvements that serve the area encompassing the District. The District's sole source of revenues are special assessments and the term of the District is twenty (20) years from the date upon which the first special assessment is levied within the District. The first special assessment was levied in tax year 2020.

Services are expected to include cleaning, maintenance, and other services within the District and other services the District may provide or cause to be provided under Section 67.1461, RSMO.
