

CITY PLAN COMMISSION

15th Floor, City Hall
414 East 12th Street
Kansas City, Missouri 64106

kcmo.gov/planning

June 06, 2024

Rachelle Biondo
Rouse Frets White Goss Gentile Rhodes, a Professional Corporation
4510 Belleview Ave
Kansas City, MO 64111

Re: **CD-CPC-2024-00033** - A request to approve a major amendment to a previously approved development plan, also serving as a preliminary plat, to allow approximately 127 residential units in district B3-2 and R-2.5 on about 19 acres generally located at the southwest and southeast corners of NW Englewood Road and N Mercier Drive.

Dear Rachelle Biondo:

At its meeting on June 05, 2024, the City Plan Commission acted as follows on the above-referenced case.

Approved with Conditions

The Commission's action is only a recommendation. Your request must receive final action from the Council. All conditions imposed by the Commission, if any, are available on the following page(s).

PLEASE READ CONDITIONS CAREFULLY as some or all of the conditions imposed may require action on your part to proceed to the next step.

- If revised plans are required, you must make such revisions and upload the revised plans prior to proceeding to final action.
- If revised plans are not required, your request will automatically be submitted for Council consideration.

If you have any questions, please contact me at Genevieve.Kohn@kcmo.org or (816) 513-8808.

Sincerely,

Genevieve Kohn
Planner

That plans, revised as noted below, are submitted and accepted by staff prior to scheduling for Council.

The following are recommended by the Stream Buffer Department. For questions, contact Lucas Kaspar at Lucas.Kaspar@kcmo.org or (816) 513-2131.

- 1) Revise the stream buffer design table. The middle zone will be disturbed in order to extend the public sanitary sewer as shown on the plans. This area of middle zone disturbance must be mitigated at a rate of 4:1. Provide a separate hatching to show the middle zone disturbance and another separate hatching to show where this area will be mitigated by adding on area to the determined outer zone. Revise the final outer zone limits accordingly

- 2) Provide separate delineation of the stream side and middle zones on the plan. They are currently shown as a single zone per the hatching and legend.

The following are recommended by the Mobility Department. For questions, contact Bailey Waters at bailey.waters@kcmo.org or (816) 513-2791.

- 1) Add ADA ramps to cross Mercier St at the new Private Drive and NW 55th St. Resubmit Plans
- 2) The trail to the dog park is great, but it appears to just run into a fence. Either continue the trail around to the dog park entrance or create a second dog park entrance where the trail is located. Also, in the NW corner of the dog park, where it appears there's a sidewalk connection - make that sidewalk connection grey on the plans so it's known that there is a trail connection to the dog park. Resubmit Plans
- 3) On the southern road- Private Drive D - connect the sidewalk on the N side of the road over to the trail. It currently ends prior to the stub street. Resubmit Plans

The following are recommended by the Water Services - Sewer Department. For questions, contact Lucas Kaspar at Lucas.Kaspar@kcmo.org or (816) 513-2131.

- 1) Internal sewers should be private service lines. The public sewer should stop at the Mercier ROW and all internal sewers shall be private service lines. The last public manhole should be set at the Mercier ROW and all other internal lines should be private service lines.

- 2) Show sanitary and water service lines to serve each unit on the utility plan. Otherwise provide a note on the utility plan that indicates that none of the units can ever be sold and will always remain as a for rental product.

- 3) Show the outfall pipes from the detention basins. Otherwise clarify that these will be infiltration basins and design accordingly. 3. Show the outfall pipes from the detention basins. Otherwise clarify that these will be infiltration basins and design accordingly.

Condition(s) by City Planning and Development Department. Contact Genevieve Kohn at (816) 513-8808 / Genevieve.Kohn@kcmo.org with questions.

1. The developer shall submit an affidavit, completed by a landscape architect licensed in the State of Missouri, verifying that street trees have been installed in accordance with the approved street tree planting plan and are healthy prior to Certificate of Occupancy.
2. The developer shall submit an affidavit, prepared by an engineer licensed in the State of Missouri, verifying that all outdoor lighting has been installed in accordance with approved plans and that lighting levels do not exceed that shown on the approved lighting plan at the property lines prior to Certificate of Occupancy.
3. The developer shall submit an affidavit, completed by a landscape architect licensed in the State of Missouri, verifying that all landscaping required of the approved plan has been installed in accordance with the plan and is healthy prior to Certificate of Occupancy.
4. All signage shall conform to 88-445 and shall require a sign permit prior to installation.
5. The developer shall screen all roof and/or ground mounted mechanical and utility equipment in compliance with 88-425-08.
6. The developer shall submit an affidavit, completed by an ISA certified arborist, an SAF certified forester, a professional engineer, or a landscape architect licensed in the State of Missouri, verifying that all trees preserved and all trees planted to meet mitigation required of the approved plan, whichever is applicable, has been installed or preserved in accordance with the plan and is healthy prior to Certificate of Occupancy.
7. Revise plans prior to the NPD Committee hearing to satisfy any and all outstanding corrections from Water Services.

Condition(s) by City Planning and Development Department. Contact Matthew Barnes at (816) 513-8817 / matthew.barnes@kcmo.org with questions.

8. That prior to any Certificate of Occupancy is issued for each phase, a Final Plat must be approved by the City and recorded with the County Recorder of Deeds.

Condition(s) by City Planning and Development Department. Contact Terry Thomas at (816) 513-2510 / Terry.A.Thomas@kcmo.org with questions.

9. The developer shall cause the area to be platted and processed in accordance with Chapter 88, Code of Ordinances of the City of Kansas City, Missouri.
10. The developer shall integrate into the existing street light system any relocated existing street lights within the street right-of-way impacted by the new drive or approach entrances as required by the Land Development Division, and the relocated lights must comply with all adopted lighting standards.
11. The developer shall submit an analysis to verify adequate capacity of the existing sewer system as required by the Land Development Division prior to issuance of a building permit to connect private system to the public sewer main and depending on adequacy of the receiving system, make other improvements as may be required.
12. The developer shall submit a Macro storm drainage study with the first Plat or Phase, from a Missouri-licensed civil engineer to the Land Development Division showing compliance with current adopted standards in effect at the time of submission, including Water Quality BMP's, to the Land Development Division for review and acceptance for the entire development area, and submit Micro storm drainage study with each subsequent Plat or Phase showing compliance with the approved Macro and adopted standards. The developer shall secure permits to construct any improvements as necessary to mitigate impacts from rate, volume, and quality of runoff from each proposed phase, prior to recording the plat or prior to issuance of a Building Permit, whichever occurs first as required by the Land Development Division.
13. The developer shall submit verification of vertical and horizontal sight distance for the drive connection to public right-of-way to the Land Development Division and make improvements to ensure local jurisdiction and/or minimum AASHTO adequate sight distance standards are met, prior to issuance of any certificate of occupancy.

Condition(s) by City Planning and Development Department. Contact Terry Thomas at (816) 513-2510 / Terry.A.Thomas@kcmo.org with questions.

14. The developer shall submit covenants, conditions and restrictions to the Land Development Division for review by the Law Department for approval for the maintenance of private open space and enter into a covenant agreement for the maintenance of any stormwater detention area tracts, prior to recording the plat.
15. The developer shall submit construction plans in compliance with adopted standards for all improvements required by the traffic study approved by the Public Works Department, and shall secure permits for those improvements as required by the Land Development Division, prior to recording the plat.
16. The developer shall secure permits to extend public sanitary and storm water conveyance systems to serve all proposed lots within the development and determine adequacy of receiving systems as required by the Land Development Division, prior to recording the plat or issuance of a building permit whichever occurs first.
17. The developer shall submit a letter to the Land Development Division from a Licensed Civil Engineer, Licensed Architect, or Licensed Landscape Architect, who is registered in the State of Missouri, that identifies sidewalks, curbs, and gutters in disrepair as defined by Public Works Department's "OUT OF REPAIR CRITERIA FOR SIDEWALK, DRIVEWAY AND CURB revised 11/5/2013" and based on compliance with Chapters 56 and 64 of the Code of Ordinances for the sidewalks, curbs, and gutters where said letter shall identify the quantity and location of sidewalks, curbs, gutters that need to be constructed, repaired, or reconstructed to remedy deficiencies and/or to remove existing approaches no longer needed by this project. The developer shall secure permits to repair or reconstruct the identified sidewalks, curbs, and gutters as necessary along all development street frontages as required by the Land Development Division and prior to issuance of any certificate of occupancy permits including temporary certificate occupancy permits.
18. The developer shall pay impact fees as required by Chapter 39 of the City's Code of ordinances as required by the Land Development Division.
19. The developer shall submit plans for grading, siltation, and erosion control to Land Development Division for review and acceptance, provide a copy of the Storm Water Pollution Prevention (SWPP) plan submitted to the Missouri Dept. of Natural Resources (MDNR) and secure a Site Disturbance permit for any proposed disturbance area equal to one acre or more prior to beginning any construction activities.
20. The developer shall submit a streetscape plan for approval and permitting by the Land Development Division prior to beginning construction of the streetscape improvements in the public right of way, and construct ADA compliant ramps at all required locations where new private drives are being added, or where existing sidewalks are modified or repaired.

Condition(s) by Fire Department. Contact Michael Schroeder at (816) 513-4604 / michael.schroeder@kcmo.org with questions.

21. Fire hydrants shall be installed and operable prior to the arrival of any combustible building materials onto the site. (IFC-2018 § 501.4 and 3312.1; NFPA 241-2013 § 8.7.2). Fire hydrant distribution shall follow IFC-2018 Table C102.1
22. The developer shall meet the fire flow requirements as set forth in Appendix B of the project International Fire Code 2018. (IFC-2018 § 507.1)
23. A required fire department access roads shall be an all weather surface. (IFC-2012: § 503.2.3). Fire Department access roads shall be provided prior to construction/demolition projects begin. (IFC-2018 § 501.4 and 3310.1; NFPA 241-2013 § 7.5.5). Required fire department access roads shall be designed to support a fire apparatus with gross axle weight of 85,000 pounds. (IFC-2018: § 503.2.3). The turning radius for fire department access roads shall be 30 feet inside and 50 feet outside radius. (IFC-2018: § 503.2.4). Shall provide fire lane signage on fire access drives.
24. One and two family residential developments exceeding 30 dwelling units shall have at least two separate and approved fire apparatus access roads (IFC-2018: § D107.1). Where two fire apparatus access roads are required, they shall be placed a distance apart equal to not less than one half of the length of the maximum overall diagonal dimension of the lot or area to be served, measured in a straight line between accesses. (IFC-2018: § D106.3)

Condition(s) by Parks & Recreation. Contact Richard Sanchez at (816) 513-7678 / Richard.Sanchez@kcmo.org with questions.

Condition(s) by Parks & Recreation. Contact Richard Sanchez at (816) 513-7678 / Richard.Sanchez@kcmo.org with questions.

25. The developer shall submit plans to Parks & Recreation Department and obtain permits prior to beginning construction of streetscape improvements (including but not limited to sidewalks, curbs, gutters, streetscape elements, pedestrian and street lighting) on the Parks jurisdictional streets and construct improvements, ADA compliant ramps at all required locations where new private drives are being added, or where existing sidewalks are modified or repaired. Such improvements shall be installed per Parks & Recreation Department Standards
26. The developer shall submit a streetscape plan with street tree planting plan per 88-425-03 for approval and permitting by the Parks & Recreation Department's Forestry Division prior to beginning work in the public right-of-way
27. The developer shall be responsible for dedication of parkland, private open space in lieu of parkland, or payment of cash-in-lieu of either form of dedication, or any combination thereof in accordance with 88-408. Should the developer choose to pay cash-in-lieu of dedicating all or a portion of the required area, the amount due shall be based upon the 2024 acquisition rate of \$64,220.18 per acre. This requirement shall be satisfied prior to the release of the certificate of occupancy.
28. The developer shall be responsible for tree preservation in an easement or platted tract, mitigation planting, or payment of cash-in-lieu of preservation or mitigation planting, or any combination thereof in accordance with 88-424. Should the developer choose to pay cash-in-lieu of preservation or mitigation of all or a portion of the required area, the amount due shall be based upon the rate specified in 88-424. This requirement shall be satisfied prior to issuance of certificate of occupancy, or prior to the recording of the final plat, whichever occurs first.
29. The developer shall use Parks & Recreation Department approved site furnishings within parks and recreation jurisdictional street and/or park right-of-way.
30. Prior to construction adjacent to a parks and recreation jurisdictional street and/or park the developer and/or their representative shall obtain a parks permit for storage and restoration within a park or a parks and recreation jurisdictional street right-of-way including but not limited to the installation of construction trailer, stockpiling of materials or equipment, construction roads and utility cabinets/meters.
31. The developer shall submit a letter to the Parks and Recreation Department from a Licensed Civil Engineer, Licensed Architect, or Licensed Landscape Architect, who is registered in the State of Missouri, stating the condition of the sidewalks, curbs, and gutters along boulevard/parkway, which is a parks and recreation jurisdictional street. The letter shall identify state of repair as defined in Chapters 56 and 64 of the Code of Ordinances for the sidewalks, curbs, and gutters. It shall identify the quantity and location of sidewalks, curbs, gutters that need to be constructed, repaired, or reconstructed. The developer shall secure permits to repair or reconstruct the identified sidewalks, curbs, and gutters as necessary along all development street frontages, as required by the Parks and Recreation Department, prior to recording the plat/issuance of any certificate of occupancy permits including temporary certificate occupancy permits
32. The developer shall include the same stone masonry shown on the front elevations of the residential buildings for the quadplex facades front facing the Boulevard.

Condition(s) by Water Services Department. Contact Heather Massey at (816) 513-2111 / heather.massey@kcmo.org with questions.

33. The developer shall ensure that water and fire service lines should meet current Water Services Department Rules and Regulations. Prior to C of O.
<https://www.kcwater.us/wp-content/uploads/2022/05/2022-Rules-and-Regulations-for-Water-Service-Lines-Final.pdf>
34. Branch service lines one-and-one-half inches and larger in diameter for domestic water services or fire protection lines shall be connected to the main by cutting in a minimum 6" branch service tee, installing three gate valves, and two solid sleeves on the main. Line valves on the main shall be the same nominal size as the main.
35. A full flow fire meter shall be required when the fire protection service line serves more than one building, or combination service lines 6 inches and larger, or that have private fire hydrants connected to them.

Condition(s) by Water Services Department. Contact Heather Massey at (816) 513-2111 / heather.massey@kcmo.org with questions.

36. The developer shall have a water flow test done to ensure there is adequate water pressure to serve the development.

South of River contact - Patrick Lewis 816-513-0423

North of River contact - Pedro Colato 816-513-4892

37. No water service line will be less than 1-1/2" in diameter where three or more units or Commercial building will be served by one domestic service line and meter.

Condition(s) by Water Services Department. Contact Kirk Rome at (816) 513-0368 / kirk.rome@kcmo.org with questions.

38. Submit public water main plans following KC Water Rules and Regulations for Water Main Extensions. Plans and contracts shall be reviewed and approved prior to building permit issuance.

Condition(s) by Water Services Department. Contact Lucas Kaspar at (816) 513-2131 / Lucas.Kaspar@kcmo.org with questions.

39. The developer shall submit a Preliminary Stream Buffer plan prior to approval of the plan in accordance with the Section 88-415 requirements.

40. The developer must obtain a floodplain certificate from Development Services prior to beginning any construction activities within the floodplain.

41. The developer shall submit a final stream buffer plan for approval prior to issuance of any building permits and obtain permits for the Stream Buffer prior to removal of any mature riparian species within the buffer zones due to construction activities on the site, in accordance with the Section 88-415 requirements.

42. The developer must grant on City approved forms, a STREAM BUFFER Easement to the City, as required by Chapter 88, prior to issuance of any stream buffer permits.

43. The developer must show the limits of the 100-year floodplain on the final plat and show the Minimum Low Opening Elevation (MLOE) of any structure on each lot that abuts a 100-year flood prone area (including detention basins and engineered surface drainage conveyances) on any plat and plan.

44. The internal storm and sanitary sewers shall be private service lines.
